Hi Jane,

Just confirming that from a BCA perspective, as long as the individual item of play equipment is structurally adequate (which will be certified by the structural consultant), then compliance with the BCA will be achieved as the structure is classified as a Class 10b structure and there are no other specific requirements of the BCA that are required to be complied with.

If you have any questions or require any further information, please do not hesitate to contact me.

**Regards,**

**Adam Durnford**

Hi Stefanie,

I wouldn't be inclined to notify CHW and SCHN as they are effectively the client. But up to PWC/HI/Kane.

Kind regards,
Jane

Hi Jane,

As discussed, I have amended the letters to reference the Light Up Challenge play equipment and have removed the main playground equipment schedule 'LCD-06 EQUIPMENT' from the attached documents.

Thomas - as Jane mentioned in the thread below, could you please review and confirm if HI are happy to sign off on these letters. If you have any comments or feedback please let me know.

Hi Stefanie,

Please find attached draft notification letter templates for Council and adjoining occupiers for the proposed play equipment. Note it needs to be discussed with HI/PwC if they are happy to sign off on the letters and append plans/data sheet which is noted as the intention in the letters. The plans are included in this Aconex for clarity. Note I'm happy for others to make edits to the letters before they are finalised and disseminated.

Have a good weekend.

Kind regards,
Jane
