Petition: PP_2020_NORTH_004_00

Dear Sir or Madam,

I am the proud owner of apartment Unit 601 of the Belvedere, I wish to petition against the planned construction to build a building structure right in front of our premise on Walker Street.

My family and I had purchased this apartment at this valued location due to many reasons, but none more important than the main advantage as well as privilege of not having to share and look upon the comings and goings of our neighbors living their daily lives; we wish to see the ocean, and that view had been an essential if not priceless aspect to our mental wellbeing, which I must emphasize that we had paid double the price to attain this lookout.

The sensational waterfront sunrise that had been visible straight from our balconies, and the ocean breeze which had previously been able to reach us may very well no longer be the case after the disruption is made. What is more, we are in the presence of rainbow lorikeets habitat, and they frequent our homes daily. The surrounding greenery will for sure be heavily impacted by the erection of the new building.
The streets will then be bustling with noise and activity, and our living conditions will become a lot less pleasant in this originally pristine balance of residential versus business area.

Moreover, the name of our building is Belvedere which means building established in a high place, and from which the view extends into the distance. It won't be Belvedere after massive piece of concrete will appear in front of us.

Please kindly cancel the planned construction, save our community and beautiful place we live.

Kind Regards,

Alexander Lee
