Dear Natalie,
Thank you for your response.
I wonder if you could direct me to the register of donors to political parties, please?
Is the information freely available?
Kind Regards,
Jill

You will be aware that approval responsibility for this project was taken off North Sydney Council by your Government in July 2020, at the time that Council is conducting its precinct study, negating the effectiveness of our elected local representatives and their legislated planning processes.

That would provide an opportunity to see at first hand the impact the proposed development will have. If the visit was around 08:00 to 08:15 on a weekday morning, you could see the current traffic chaos in Walker St, exacerbated by any more high-rise projects.
