

Signage Details – 9 October 2025

For sign locations refer to ‘Sign Location plan – revised 9 October 2025’

Sign 1 – Park Entry:

Dimensions: 1m by 1.5m

Height: bottom of sign to be 1.5m above ground level to be visible to drivers entering park – so the maximum height is 2.5m.

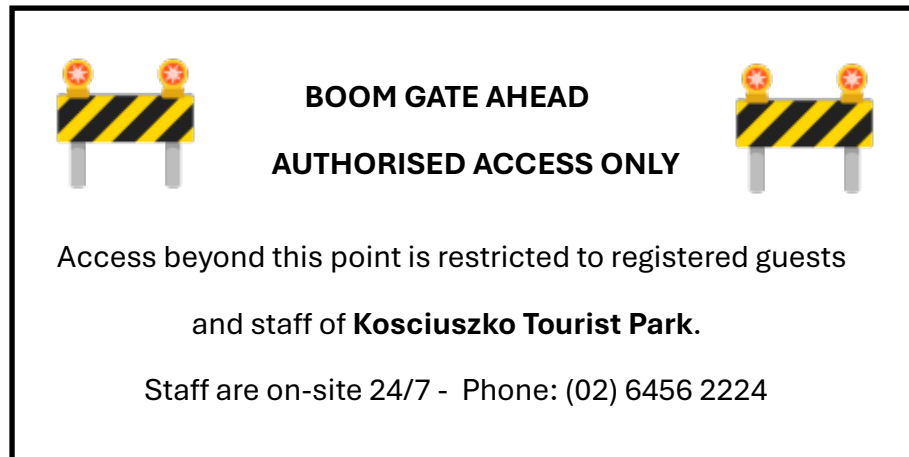

Sign Location: (refer to ‘Sign Location plan – revised 9 October 2025’) on left hand side of the entry road into the park, before gravel driveway providing entry to the picnic area

Note: sign and support posts are clear of any existing trees refer to sign location plan which is an overlay on the detailed site survey.

Materials: Aluminium composite panel (durable and weatherproof) with UV-resistant print, affixed to two steel posts in concrete footings buried into ground.

Sign is **non-illuminated** and designed for alpine conditions.

Sign 2 – Boom Gate Entry Sign

Dimensions: 1m by 2m

Height: bottom of sign to be 1.5m above ground level to be visible to drivers entering park – so the maximum height is 2.5m.

Sign Location: (refer to ‘Sign Location plan – revised 9 October 2025’) on left hand side of the entry road into the park, just after the gravel driveway / manoeuvring area, and before the proposed boom gate location

Note: sign and support posts are clear of any existing trees refer to sign location plan which is an overlay on the detailed site survey.

Materials: Aluminium composite panel (durable and weatherproof) with UV-resistant print, affixed to two steel posts in concrete footings buried into ground.

Sign is **non-illuminated** and designed for alpine conditions.
