Subject: St John's Planning Proposal - UPDATE on number of submission received
Attachments: St John's Planning Proposal - request for an extension to Gateway determination condition - finalisation date

Hi Jazmin

At our monthly catch-up on Wednesday (18 May 2022) and specifically in relation to the St John's Planning Scheme, you advised that as you do not have authority to determine requests for extensions to finalisation dates within gateway determinations, and that Council's request for an extension to the 30 June 2022 finalisation date specified in the 10 November 2021 Gateway determination, would be considered by the Department's Active Management Group at a meeting today (20 May 2022), with Council to be advised on Monday of the minutes from this meeting.

I advised in our gateway extension email to you on Monday 16 May 2022 (copy of the email attached), that Council had received approximately 340 submissions, and further were expected from public authorities and also from the community as these filtered into council through the various channels.

The number of submissions received at the close of the exhibition on 13 May 2022 that have filtered through to my team is now sitting at **395 – an additional 65**. I am also still waiting on submissions from **Heritage NSW** and the **Commonwealth Department of Infrastructure and Regional Development**.

I await hearing from Angela or yourself on Monday with the decision from the Active Management Group meeting today on Council's request for an extension of the finalisation date of the Gateway until **30 August 2022**.

Regards

Janelle
