

WASTE MANAGEMENT PLAN

THIS FORM CAN BE USED FOR MINOR DEVELOPMENTS, UP TO AND INCLUDING SINGLE DWELLINGS, IF A FULLY-DETAILED PLAN IS NOT REQUIRED

To facilitate waste minimisation, Council requires on-site sorting and storage of waste products pending re-use or collection.

This form must be completed and submitted with all development applications to subdivide land, demolish a building or carry out minor building activities requiring the approval of Council.

Completing this form will assist you in identifying the type of waste that will be generated and in advising Council how you intend to re-use, recycle or dispose of the waste.

The information provided on this form (and on your plans) will be assessed against the Objectives of the Controls (eg, to maximise re-use and minimise disposal).
