UCI Road World Championships

The world's best cyclists will be heading to Wollongong this year for the UCI Road World Championships. The Championships will take place between 18-25 September 2022 and will be the largest event ever held in Wollongong. We're preparing to welcome the world to Wollongong with over 1000 athletes and 300 000 spectators expected across eight days of racing and supporting events.

The Championships are one of the top five sporting events in the world, and like the Olympics, require extensive planning and operational support to be delivered safely for participants, spectators and the local community. The highly coordinated event will take place on local streets.

To meet safety standards, roads along the route will be temporarily closed while the races are in progress and there will be no parking on the course during road closures. The Local Organising Committee, Wollongong 2022, and Wollongong City Council are working closely NSW Government agencies, traffic management experts and emergency services to minimise the impact and ensure that locals can enjoy the event with minimal disruption.

At different times throughout the event, access may be limited to residences, businesses and construction sites along and nearby the route. If you're likely to be undertaking a renovation or construction this September, please be mindful of the impact that parking restrictions, limited access and road closures may have on your project timeframes.

The organising committee, Wollongong2022, will provide opportunities to find out more about the event and ask questions in the lead up to September as part of their Community Readiness program.

If you would like more information, you can find answers to some frequently asked questions and details on the route and race timetable at www.wollongong2022.com.au.

Australian Standards 3660.1-2000 (New Buildings) AS 3660.2-2000 (Existing Buildings) Termite Management, recommends that buildings be inspected and be maintained in order to achieve termite management of buildings. Licensed Pest Control Contractors should be contacted to achieve necessary termite control.

3. Lead Paint and Building Renovations

Your attention is drawn to the hazards associated with lead-based paints during building renovation. Suitable precautions should be taken when removing flaking paint or sanding painted surfaces suspected to have been treated with lead-based paint to prevent contamination of the immediate environment and associated health risk from lead dust.

AS 4361 – Part 2 – Guide to Lead Paint Management – Residential and Commercial.

4. Sewage Management Systems

5. Asbestos

Exposure to asbestos is a serious health hazard. In Australia, asbestos was gradually phased out of building materials in the 1980s and the supply and installation of asbestos containing goods has been prohibited since 31 December 2003. However, asbestos legacy materials still exist in many homes, buildings and other assets and infrastructure.

Council on the 27 October 2014 adopted an Asbestos policy which states Council's commitment to and responsibilities for safely managing asbestos, and provides information for Council and the local community on safely managing asbestos. The policy can be viewed on Council's website: www.wollongong.nsw.gov.au.

6. Loose-Fill Asbestos Insulation

Some residential homes located in NSW have been identified as containing loose-fill asbestos insulation, for example in the roof space. NSW Fair Trading maintains a Register of homes that are affected by loose-fill asbestos insulation.

You should make your own enquiries as to the age of the buildings on the land to which this certificate relates and if it contains a building constructed prior to 1980, the council strongly recommends that any potential purchaser obtain advice from a licenced asbestos assessor to determine whether loose-fill asbestos is present in any building on the land and, if so, the health risks (if any) this may pose for the buildings occupants.

Contact NSW Fair Trading for further information.

7. Building Product Use Ban

On 10 August 2018, the Commissioner of Fair Trading, Department of Finance, Services and Innovation issued, by way of a notice, a Building Product Use Ban under Section 9(1) of the Building Products (Safety) Act 2017. This notice prohibited the use of Aluminium Composite Panels (ACPs) with a core of greater 30 percent Polyethylene (PE) by mass ("the building product") in any external cladding, external wall, external insulation, faced or rendered finish in certain classes of buildings under the National Construction Code and subject to certain exceptions. The ban commenced operation on Wednesday 15 August 2018.

You should undertake your own inquiries as to whether any of the Panels referenced in the Building Product Use Ban have been utilised in the building.

The Local Organising Committee, Wollongong 2022, and Wollongong City Council are working closely NSW Government agencies, traffic management experts and emergency services to minimise the impact and ensure that locals can enjoy the event with minimal disruption.

At different times throughout the event, access may be limited to residences, businesses and construction sites along and nearby the route. If you're likely to be undertaking a renovation or construction this September, please be mindful of the impact that parking restrictions, limited access and road closures may have on your project timeframes.

The organising committee, Wollongong2022, will provide opportunities to find out more about the event and ask questions in the lead up to September as part of their Community Readiness program.

If you would like more information, you can find answers to some frequently asked questions and details on the route and race timetable at www.wollongong2022.com.au.

GENERAL INFORMATION

The following general information is brought to the attention of land owners.

1. Tree Management Policy

The Wollongong Tree Management Policy allows proper assessment to be made of the environmental importance and viability of trees before they are pruned, removed or damaged in any way. Further information regarding Council's Tree Management Policy including how to lodge an application can be made by contacting Council's Customer Service on telephone 4227 7111. Alternatively information can be obtained from Council's website via the following link <http://www.wollongong.nsw.gov.au/services/household/trees/Pages/Lodgeatmp.aspx>.

2. Termite Management for Buildings

Australian Standards 3660.1-2000 (New Buildings) AS 3660.2-2000 (Existing Buildings) Termite Management, recommends that buildings be inspected and be maintained in order to achieve termite management of buildings. Licensed Pest Control Contractors should be contacted to achieve necessary termite control.

3. Lead Paint and Building Renovations

Your attention is drawn to the hazards associated with lead-based paints during building renovation. Suitable precautions should be taken when removing flaking paint or sanding painted surfaces suspected to have been treated with lead-based paint to prevent contamination of the immediate environment and associated health risk from lead dust.

AS 4361 – Part 2 – Guide to Lead Paint Management – Residential and Commercial.

4. Sewage Management Systems

Where a property has on-site sewage management system (this includes septic tanks, disposal trenches, aerated waste water treatment systems, composting toilets and pump out systems) the new owner must obtain an "Approval to Operate" from Council within 3 months of land ownership being transferred or otherwise conveyed.

5. Asbestos

Exposure to asbestos is a serious health hazard. In Australia, asbestos was gradually phased out of building materials in the 1980s and the supply and installation of asbestos containing goods has been prohibited since 31 December 2003. However, asbestos legacy materials still exist in many homes, buildings and other assets and infrastructure.

Council on the 27 October 2014 adopted an Asbestos policy which states Council's commitment to and responsibilities for safely managing asbestos, and provides information for Council and the local community on safely managing asbestos. The policy can be viewed on Council's website: www.wollongong.nsw.gov.au.

6. Loose-Fill Asbestos Insulation

Some residential homes located in NSW have been identified as containing loose-fill asbestos insulation, for example in the roof space. NSW Fair Trading maintains a Register of homes that are affected by loose-fill asbestos insulation.

You should make your own enquiries as to the age of the buildings on the land to which this certificate relates and if it contains a building constructed prior to 1980, the council strongly recommends that any potential purchaser obtain advice from a licenced asbestos assessor to determine whether loose-fill asbestos is present in any building on the land and, if so, the health risks (if any) this may pose for the buildings occupants.

Contact NSW Fair Trading for further information.

7. Building Product Use Ban

On 10 August 2018, the Commissioner of Fair Trading, Department of Finance, Services and Innovation issued, by way of a notice, a Building Product Use Ban under Section 9(1) of the Building Products (Safety) Act 2017. This notice prohibited the use of Aluminium Composite Panels (ACPs) with a core of greater 30 percent Polyethylene (PE) by mass ("the building product") in any external cladding, external wall, external insulation, faced or rendered finish in certain classes of buildings under the National Construction Code and subject to certain exceptions. The ban commenced operation on Wednesday 15 August 2018.

You should undertake your own inquiries as to whether any of the Panels referenced in the Building Product Use Ban have been utilised in the building.

To determine if your property is affected by an Aboriginal Site, it is recommended that an Aboriginal Heritage Information Management System (AHIMS) search be undertaken by contacting the AHIMS Administrator on (02) 9995 5000. Further detail on Council's Aboriginal Heritage requirements for Development is contained within Chapter E10 of the Wollongong Development Control Plan 2009.

UCI Road World Championships

The world's best cyclists will be heading to Wollongong this year for the UCI Road World Championships. The Championships will take place between 18-25 September 2022 and will be the largest event ever held in Wollongong. We're preparing to welcome the world to Wollongong with over 1000 athletes and 300 000 spectators expected across eight days of racing and supporting events.

The Championships are one of the top five sporting events in the world, and like the Olympics, require extensive planning and operational support to be delivered safely for participants, spectators and the local community. The highly coordinated event will take place on local streets.

To meet safety standards, roads along the route will be temporarily closed while the races are in progress and there will be no parking on the course during road closures. The Local Organising Committee, Wollongong 2022, and Wollongong City Council are working closely NSW Government agencies, traffic management experts and emergency services to minimise the impact and ensure that locals can enjoy the event with minimal disruption.

At different times throughout the event, access may be limited to residences, businesses and construction sites along and nearby the route. If you're likely to be undertaking a renovation or construction this September, please be mindful of the impact that parking restrictions, limited access and road closures may have on your project timeframes.

The organising committee, Wollongong2022, will provide opportunities to find out more about the event and ask questions in the lead up to September as part of their Community Readiness program.

If you would like more information, you can find answers to some frequently asked questions and details on the route and race timetable at www.wollongong2022.com.au.

Australian Standards 3660.1-2000 (New Buildings) AS 3660.2-2000 (Existing Buildings) Termite Management, recommends that buildings be inspected and be maintained in order to achieve termite management of buildings. Licensed Pest Control Contractors should be contacted to achieve necessary termite control.

3. Lead Paint and Building Renovations

Your attention is drawn to the hazards associated with lead-based paints during building renovation. In Australia, asbestos was gradually phased out of building materials in the 1980s and the supply and installation of asbestos containing goods has been prohibited since 31 December 2003. However, asbestos legacy materials still exist in many homes, buildings and other assets and infrastructure.

Council on the 27 October 2014 adopted an Asbestos policy which states Council's commitment to and responsibilities for safely managing asbestos, and provides information for Council and the local community on safely managing asbestos. The policy can be viewed on Council's website: www.wollongong.nsw.gov.au.

6. Loose-Fill Asbestos Insulation

Some residential homes located in NSW have been identified as containing loose-fill asbestos insulation, for example in the roof space. NSW Fair Trading maintains a Register of homes that are affected by loose-fill asbestos insulation.

You should make your own enquiries as to the age of the buildings on the land to which this certificate relates and if it contains a building constructed prior to 1980, the council strongly recommends that any potential purchaser obtain advice from a licenced asbestos assessor to determine whether loose-fill asbestos is present in any building on the land and, if so, the health risks (if any) this may pose for the buildings occupants.

UCI Road World Championships

The world's best cyclists will be heading to Wollongong this year for the UCI Road World Championships. The Championships will take place between 18-25 September 2022 and will be the largest event ever held in Wollongong. We're preparing to welcome the world to Wollongong with over 1000 athletes and 300 000 spectators expected across eight days of racing and supporting events.

The Championships are one of the top five sporting events in the world, and like the Olympics, require extensive planning and operational support to be delivered safely for participants, spectators and the local community. The highly coordinated event will take place on local streets.

To meet safety standards, roads along the route will be temporarily closed while the races are in progress and there will be no parking on the course during road closures. The Local Organising Committee, Wollongong 2022, and Wollongong City Council are working closely NSW Government agencies, traffic management experts and emergency services to minimise the impact and ensure that locals can enjoy the event with minimal disruption.

At different times throughout the event, access may be limited to residences, businesses and construction sites along and nearby the route. If you're likely to be undertaking a renovation or construction this September, please be mindful of the impact that parking restrictions, limited access and road closures may have on your project timeframes.

The organising committee, Wollongong2022, will provide opportunities to find out more about the event and ask questions in the lead up to September as part of their Community Readiness program.

If you would like more information, you can find answers to some frequently asked questions and details on the route and race timetable at www.wollongong2022.com.au.

Licensed Pest Control Contractors should be contacted to achieve necessary termite control.

3. Lead Paint and Building Renovations

Your attention is drawn to the hazards associated with lead-based paints during building renovation. Suitable precautions should be taken when removing flaking paint or sanding painted surfaces suspected to have been treated with lead-based paint to prevent contamination of the immediate environment and associated health risk from lead dust.

However, asbestos legacy materials still exist in many homes, buildings and other assets and infrastructure.

Council on the 27 October 2014 adopted an Asbestos policy which states Council's commitment to and responsibilities for safely managing asbestos, and provides information for Council and the local community on safely managing asbestos. The policy can be viewed on Council's website: www.wollongong.nsw.gov.au.

6. Loose-Fill Asbestos Insulation

Some residential homes located in NSW have been identified as containing loose-fill asbestos insulation, for example in the roof space. NSW Fair Trading maintains a Register of homes that are affected by loose-fill asbestos insulation.
