

Fairy Meadow Ambulance Station – RAIR 2

Project Details

Project Name	Fairy Meadow Ambulance Station – RAIR 2
Project Location	University of Wollongong's Innovation Campus, 7 Squires Way, Fairy Meadow
REF Prepared by	GeoLINK dated 22 June 2023
Activity Description	Construction of a new ambulance station within the grounds of the Wollongong Innovation Campus.

NSW Health Infrastructure is proposing to construct a new ambulance station under the provisions of *State Environmental Planning Policy (Transport & Infrastructure) 2021* (TI SEPP) which requires determination under Part 5 of the *Environmental Planning & Assessment Act 1979* (EP&A Act). This Statement of Compliance demonstrates that the Review of Environmental Factors (REF) for the proposed activity has met the requirements of Part 5 of the EP&A Act and the *Environmental Planning and Assessment Regulation 2021* (EP&A Regulations), including the *Guidelines for Division 5.1 Assessments*, prepared by the Department of Planning and Environment (June 2022).

The REF has identified and considered the following matters:

1. The activity is “development without consent” under the TI SEPP

The activity:

- Is being undertaken by, or on behalf of a public authority;
- Is development for the purpose of an emergency services facility;
- Is located in a prescribed zone (the site zoned SP1 Special Activities under *Wollongong Local Environmental Plan 2009*);
- The development does not result in a building exceeding 15 metres in height or is located closer than 5 metres to any property boundary.

2. The notification requirements of the TI SEPP have been met in accordance with Sections 2.12, 2.13 and 2.52(7)

- Written notification of the intention to undertake the activity was given to State Emergency Services NSW, Wollongong City Council and to occupiers of adjoining land on 14 December 2022. Note the standard 21 day notification period was extended to the 22 January 2023 to account for the Christmas and New year period.
- Responses were received from Council, NSW SES and two members of the public. These have been appropriately addressed within the REF Assessment and are reviewed in the associated Recommendation Report.

3. Consideration of other environmental planning instruments

- Consideration of the applicable instruments is provided at Sections 4.4, 4.5 in the REF.

4. The requirements of Section 5.5 of the EP&A Act, the *Guidelines for Divisions 5.1 Assessments (June 2022)* and Section 171 of the EP&A Regulations have been met

- Pursuant to Section 5.5(1) of the EP&A Act, the REF has examined and taken into account to the fullest extent possible all matters affecting or likely to affect the environment by reason of the proposed activity.
- The factors to be taken into account under Section 3 of the *Guidelines for Division 5.1 Assessments (June 2022)*, and the matters under Section 171A of the EP&A Regulation 2021, have been fully considered in the REF in determining the likely impact of the proposed activity on the environment and measures to mitigate potential singular and cumulative impacts associated with the proposed activity have been identified.
- As demonstrated in the completed Section 5.5 checklist (Section 4.3 of the REF) and Section 3 checklist (Section 6.1 of the REF), the proposed activity will not have significant effects on the environment or threatened species and as a result, an Environmental Impact Statement is not required before a decision is made whether or not the proposed activity can proceed.

5. Commonwealth Environment Protection and Biodiversity Conservation Act 1999 (EPBC Act)

- The activity will not have any impacts on matters of national significance including impacts on Commonwealth land, listed threatened species, migratory species protected under international agreements, national heritage places, world heritage properties/areas, or Ramsar wetlands of international importance. An approval under the EPBC Act is therefore not required.

6. Approvals, authorisations and notifications under other Acts

- As detailed in the REF, any approvals, authorisations or notifications that are required under other Acts before the activity can proceed have been obtained, or where applicable, have been included in the identified requirements.

Certification

I certify that I have reviewed and endorsed the contents of this REF document, and, to the best of my knowledge, it is in accordance with the *Environmental Planning & Assessment Act 1979* (EP&A Act), the *Environmental Planning & Assessment Regulation 2021* (EP&A Regulation) and the Guidelines approved under Section 170 of the EP&A Regulation, and the information it contains is neither false nor misleading.
