Landscape is to be managed for perpetuity in accordance with Planning for Bush Fire Protection 2019.

- Trees
- tree canopy cover should be less than 15% at maturity;
 - trees at maturity should not touch or overhang the building;
 - lower limbs should be removed up to a height of 2m above the ground;
 - tree canopies should be separated by 2 to 5m;
- Shrubs
- create large discontinuities or gaps in the vegetation to slow down or break the progress of fire towards buildings should be provided;
 - shrubs should not be located under trees;
 - shrubs should not form more than 10% ground cover; and clumps of shrubs should be separated from exposed windows and doors by a distance of at least twice the height of the vegetation.
- Grass
- grass should be kept mown (as a guide grass should be kept to no more than 100mm in height);
 - leaves and vegetation debris should be removed.
