

The below Table provides a summary of early stakeholder (non-statutory) consultation undertaken to inform project development and preparation of the REF.

Summary of Early Stakeholder Engagement

Stakeholder	Engagement	Response
Wollondilly Shire Council	18 December 2024: SINSW presented the proposed primary school concept designs and drafted schematic designs to the Wollondilly Shire Council.	The Council expressed support and highlighted key areas for consideration with specific references made to the proposed Sydney Water Pump station. Overall, the council were very supportive of the project and presented designs. Community engagements were agreed to take place once the designs are further progressed.
SINSW Transport	<ul style="list-style-type: none"> 14 November 2023: A consultation meeting was held to discuss key transport elements, including the kiss-and-drop zone, parking, mode share, and anticipated bus routes. 14 February 2024: Stantec presented the RTA to the SINSW Transport team for review. 28 February 2024: A follow-up meeting was conducted before the TWG meeting. 30 August 2024: Follow up discussions held to refresh the reporting before the TWG. 	Stantec and the project team incorporated feedback into ongoing design development, informing the TIA and CTMP.
Transport Working Group (TWG) Transport for NSW (TFNSW)	<p>5 September 2024: The project team met with TfNSW representatives and Wollondilly Shire Council traffic engineers to review design elements. Key topics included:</p> <ul style="list-style-type: none"> Accessibility provisions Mode share evolution Wombat & signalised crossings Footpath connections Car parking ratios Bus stop locations, bus network and timetables Timing for surrounding road deliveries. 	TfNSW provided positive feedback and suggestions, which have been incorporated into ongoing design documentation.

Stakeholder	Engagement	Response
NSW Government Architect (SDRP)	<p>22 November 2023: The project team, led by architects PTW, attended an SDRP session with GANSW. GANSW provided a summary of advice and recommendations.</p> <p>27 November 2024: The project team, led by architects PTW, attended an SDRP session with GANSW. GANSW provided a summary of advice and recommendations.</p>	A formal response to the GANSW feedback is included within the Architectural Design Report.
Aboriginal stakeholders	<p>Walumarra Studio prepared the Connecting with Country (CWC) Report, detailing findings and design recommendations. The consultation process included:</p> <ul style="list-style-type: none"> Two site visits with First Nations community members were conducted on the 6th of March 2024 and the 17th April 2024 A Yarning session was held to align project goals with the broader precinct development on the 23rd of January 2025. 	Feedback from the CWC process has been incorporated into the project design documentation.
Rural Fire Service of NSW (RFS NSW)	July 2024: Early engagement with RFS NSW was completed to discuss the proposed temporary APZ, and to receive initial support of the proposed approach developed by GHD (Bushfire Consultant)	Feedback from the Bushfire consultant and RFS NSW has been incorporated into the project designs.
Sydney Water/Acconia & Endeavor Energy	<p>13 February 2025: AREA3 presented the project designs to the Endeavor Energy and Sydney Water project teams with the assistance of Landcom to provide context related to the coordination being completed between the WJPS team and Landcom. Timelines for the Pump station delivery and ensuring access to the school site can be maintained while the surrounding infrastructure is being delivered by Acconia.</p> <p>12 March 2025: A Follow up meeting to discuss the surrounding infrastructure delivery design and timeframes has been scheduled for the 12th of March 2025.</p>	<p>Project services demand calculations were issued to the relevant parties, to date there has been no concerns or hesitation raised in relation to the demands calculated for the WJPS.</p> <p>Acconia confirmed the pump station is anticipated to be operational by November 2026 but are aiming for an earlier delivery.</p> <p>We will continue to meet each month to coordinate designs, access and programme.</p>

Stakeholder	Engagement	Response
Landcom	Each Fortnight since November 2023: The SINSW project team and AREA3 meet with Landcom each fortnight to discuss service requirements, design coordination, and status of the Landcom works.	Continue engagement with Landcom has allowed the project team to coordinate works, and eliminate the need for abortive works related to road infrastructure.
