

# SEPP 64 & Transport Corridor Advertising and Signage Guidelines Assessment

# 1 SEPP 64 Assessment

SEPP 64 Provision	Comment Compliance
3. Aims, objectives etc.	oomment oompliance
<ul> <li>(1) This Policy aims: <ul> <li>(a) To ensure that signage (including advertising):</li> <li>(i) is compatible with the desired amenity and visual character of an area, and</li> <li>(ii) provides effective communication in suitable locations, and</li> <li>(iii) is of high quality design and finish, and</li> <li>(b) to regulate signage (but not content) under part 4 of the Act, and</li> <li>(c) to provide time-limited consents for the display of certain advertisements, and</li> <li>(d) to regulate the display of advertisements in transport corridors, and</li> <li>(e) to ensure that public benefits may be derived from advertising in and adjacent to transport corridors.</li> </ul> </li> <li>(2) This Policy does not regulate the content of signage and does not require consent for a change in the content of signage.</li> </ul>	<ul> <li>(a) The proposal is assessed to be compatible with the visual character and desired amenity of the locality as it is proposed install digital advertising signage. The sign will have a high design quality and is compatible with the land use character of the location.</li> <li>(b) The proposal will be assessed and regulated under Part 4 of the EP&amp;A Act and will be appropriately managed by the Minister's conditions of consent.</li> <li>(c) Duration of consent for the proposal will be controlled by Clause 14 of SEPP 64 and will be consistent with the Minister's conditions of consent.</li> <li>(d) The proposal does not present any significant road safety issues and is not expected to compromise road safety in its vicinity. The proposal is also regulated against the Guidelines.</li> <li>(e) The proposal demonstrates public benefit by providing a revenue stream for the State Government and by providing important information to customers in special events and circumstances.</li> </ul>
4. Definitions	
	The proposal constitutes an advertisement to which Part 3 of the SEPP applies.✓M4 Motorway is a State classified road (Road 6004) under part 5 of✓
	the Roads Act 1993.

SEPP 64 Provision	Comment	Compliance
	The proposal constitutes an advertisement on a bridge on transport corridor land.	compliance
8. Granting of consent to signage		
<ul> <li>A consent authority must not grant development consent to an application to display signage unless the consent authority is satisfied:</li> <li>(a) that the signage is consistent with the objectives of this Policy as set out in clause 3 (1) (a), and</li> <li>(b) that the signage the subject of the application satisfies the assessment criteria specified in Schedule 1.</li> </ul>	An assessment against clause 3 (1) (a) is provided above. The SEE undertakes a detailed assessment demonstrating that the proposal is consistent with the objectives of the Policy and the Assessment Criteria specified in Schedule 1.	~
9. Advertisements to which this Part applies		
<ol> <li>This Part applies to all signage to which this Policy applies, other than the following:         <ul> <li>(a) business identification signs,</li> <li>(b) building identification signs,</li> <li>(c) signage that, or the display of which, is exempt development under an environmental planning instrument that applies to it,</li> <li>(d) signage on vehicles.</li> </ul> </li> <li>(2) Despite subclause (1) (d), clause 27A applies to signage on a trailer (within the meaning of the Road Transport Act 2013).</li> </ol>	The proposal constitutes an advertisement under the provisions of Part 3.	~
10. Prohibited advertisements		
<ol> <li>Despite the provisions of any other environmental planning instrument, the display of an advertisement is prohibited on land that, under an environmental planning instrument, is within any of the following zones or descriptions:</li> <li>environmentally sensitive area</li> <li>heritage area (excluding railway stations)</li> <li>natural or other conservation area</li> <li>open space</li> <li>waterway</li> <li>residential (but not including a mixed residential and business zone, or similar zones)</li> <li>scenic protection area</li> <li>nature reserve</li> <li>(2) This clause does not apply to the following:</li> </ol>	The land upon which the sign is proposed to be erected is not described as being within any of the zones or descriptions identified and therefore it is not a prohibited advertisement.	~
following: (a) the Mount Panorama Precinct, (b) the display of an advertisement at a public sporting facility situated on

land zoned public recreation under		
an environmental planning		
instrument, being an advertisement		
that provides information about the		
sponsors of the teams or		
organisations using the sporting facility or about the products of		
those sponsors.		
12. Consent authority		
For the purposes of this Policy, the consent	In accordance with clause 12(c),	/
authority is:	the Minister for Planning and Public	$\checkmark$
(a) the council of a local government area in	Spaces is the consent authority for	
the case of an advertisement displayed	the proposal as it is on behalf of	
in the local government area (unless	Sydney Trains on a railway corridor.	
paragraph (c), (d) or (e) applies), or		
(b) TfNSW in the case of an advertisement		
displayed on a vessel, or		
(c) the Minister for Planning in the case of		
an advertisement displayed by or on		
behalf of RailCorp, NSW Trains, Sydney Trains, Sydney Metro or TfNSW on a		
railway corridor, or		
(d) the Minister for Planning in the case of		
an advertisement displayed by or on		
behalf of RMS on -		
(i) a road that is a freeway or		
tollway (under the Roads Act		
1993) or associated road use		
land that is adjacent to such a		
road, or		
(ii) a bridge constructed by or on		
behalf of RMS on any road corridor, or		
(iii) land that is owned, occupied or		
managed by RMS, or		
(e) the Minister for Planning in the case of		
an advertisement displayed on transport		
corridor land comprising a road known		
as the Sydney Harbour Tunnel, the		
Eastern Distributor, the M2 Motorway,		
the M4 Motorway, the M5 Motorway, the		
M7 Motorway, the Cross City Tunnel or		
the Lane Cove Tunnel, or associated road use land that is adjacent to such a		
road.		
13. Matters for consideration		
(1) A consent authority (other than in a case	The proposal satisfies the	$\checkmark$
to which subclause (2) applies) must not	objectives detailed in Clause 3(1).	V
grant consent to an application to		
display an advertisement to which this	The SEE concludes that the	
Policy applies unless the advertisement	proposal is consistent with the	
or the advertising structure, as the case	assessment criteria detailed in	
requires:	Schedule 1 of SEPP 64 and in the	
	SEPP 64 Guidelines.	

#### SEPP 64 Provision

- (a) is consistent with the objectives of this Policy as set out in clause 3 (1)
   (a), and
- (b) has been assessed by the consent authority in accordance with the assessment criteria in Schedule 1 and the consent authority is satisfied that the proposal is acceptable in terms of its impacts, and
- (c) satisfies any other relevant requirements of this Policy.
- (2) If the Minister for Planning is the consent authority or clause 18 or 24 applies to the case, the consent authority must not grant consent to an application to display an advertisement to which this Policy applies unless the advertisement or the advertising structure, as the case requires:
  - (a) is consistent with the objectives of this Policy as set out in clause 3 (1)
     (a), and
  - (b) has been assessed by the consent authority in accordance with the assessment criteria in Schedule 1 and in the Guidelines and the consent authority is satisfied that the proposal is acceptable in terms of
    - (i) design, and
    - (ii) road safety, and
    - (iii) the public benefits to be provided in connection with the display of the advertisement, and
  - (c) satisfies any other relevant requirements of this Policy.
- (3) In addition, if clause 18 or 24 applies to the case, the consent authority must not grant consent unless arrangements that are consistent with the Guidelines have been entered into for the provision of the public benefits to be provided in connection with the display of the advertisement.

#### 14. Duration of consents

- (1) A consent granted under this Part ceases to be in force:
  - (a) on the expiration of 15 years after the date on which the consent becomes effective and operates in accordance with section 83 of the Act, or

It is acknowledged that any consent granted for the application would expire 15 years after the date on which the consent becomes effective.  $\checkmark$

# 2 Transport Corridor Advertising and Signage Guidelines Assessment

# 2.1 Land Use Compatibility Criteria – Transport Corridor Advertising

Land Lice Compatibility Critoria	Bosponso	Compliance
<ul> <li>Land Use Compatibility Criteria</li> <li>The use of outdoor advertising in a given locality should not be inconsistent with the land use objectives for the area outlined in the relevant LEP.</li> </ul>	Response The proposal is located on land zoned SP2 Infrastructure under the ALEP 2010. The proposal is consistent with the SP2 zone objectives in the ALEP 2010 as it is compatible with and will not detract from the major road corridor. Furthermore, the proposal is compatible with the provision of infrastructure. This is further addressed in Section 4.4 of the SEE.	Compliance √
<ul> <li>ii. Advertisements must not be placed on land where the signage is visible from the following areas, if it is likely to significantly impact on the amenity of those areas:</li> <li>environmentally sensitive area</li> <li>heritage area (excluding railway stations)</li> <li>natural or other conservation area</li> <li>open space (excluding sponsorship advertising at sporting facilities in public recreation zones)</li> <li>waterway</li> <li>residential area (but not including a mixed residential and business zone, or similar zones)</li> <li>scenic protection area</li> <li>national park or nature reserve.</li> </ul>	<ul> <li>The proposal is not visible from any:</li> <li>environmentally sensitive area</li> <li>heritage area</li> <li>natural or other conservation area</li> <li>open space (excluding sponsorship advertising at sporting facilities in public recreation zones)</li> <li>waterway</li> <li>residential area</li> <li>scenic protection area</li> <li>national park or nature reserve.</li> </ul>	~
iii. Advertising structures should not be located so as to dominate or protrude significantly above the skyline or to obscure or compromise significant scenic views or views that add to the character of the area.	The sign will be mounted to the M4 Overpass and will remain below the tree canopies and will not compromise any significant or scenic views.	$\checkmark$
iv. Advertising structures should not be located so as to diminish the heritage values of items or areas of local, regional or state heritage significance.	The proposal will not impact on any items of heritage significance given there are no surrounding heritage items.	$\checkmark$
v. Where possible, advertising structures should be placed within the context of other built structures in preference to non- built areas. Where possible,	The proposal is considered to be consistent with the context of the existing setting, being an established major road corridor, and will provide visual interest to motorists along the M4.	$\checkmark$

Land Use Compatibility Criteria	Response	Compliance
signage should be used to enhance the visual landscape. For example, signs may be positioned adjacent to, or screening, unsightly aspects of a landscape, industrial sites or infrastructure such as railway lines or power lines.	The proposal will also result in a decrease in size by 6% when compared to the existing static sign, further improving the visual interest.	

Table 1: Land Use Compatibility Criteria – SEPP 64 Guidelines

# 2.2 Digital Sign Criteria (applies to signs greater than or equal to 20 sqm)

De	sign Sign Criteria	Comment	Compliance
a.	Each advertisement must be displayed in a completely static manner, without any motion, for the approved dwell time as per criterion (d) below	Static digital advertisements will appear on the screen for a 25 second dwell time before changing to a new static digital image.	$\checkmark$
b.	Message sequencing designed to make a driver anticipate the next message is prohibited across images presented on a single sign and across a series of signs.	The signage content will be managed in order to comply with the requirements for message sequencing.	$\checkmark$
С.	<ul> <li>The image must not be capable of being mistaken:</li> <li>i. For a prescribed traffic control device because it has, for example, red, amber or green circles, octagons, crosses or triangles or shapes or patterns that may result in the advertisement being mistaken for a prescribed traffic control device.</li> <li>ii. As text providing driving instructions to drivers.</li> </ul>	The signage content will be managed in order to ensure images are not capable of being mistaken for a traffic control device or as text providing driving instructions to drivers.	$\checkmark$
d.	Dwell times for image display must not be less than: i. 10 seconds for areas where the speed limit is below 80km/h ii. 25 seconds for areas where the speed limit is 80km/h and over	A compliant dwell time of 25 seconds is proposed.	$\checkmark$
e.	The transition time between messages must be no longer than 0.1 seconds, and in the event of image failure, the default image must be a black screen.	The transition time between messages will be no longer than 0.1 seconds and the default image in the event of image failure will be a black screen.	$\checkmark$
f.	Luminance levels must comply with the requirements in Section 3 below.	The Luminance criteria is addressed within the SEE and the LIA (Appendix 4).	$\checkmark$

Des	sign Sign Criteria	Comment	Compliance
g.	The images displayed on the sign must not otherwise unreasonably dazzle or distract drivers without limitation to their colouring or contain flickering or flashing content.	The signage content will be managed in order to ensure drivers are not unreasonably distracted.	$\checkmark$
h.	The amount of text and information supplied on a sign should be kept to a minimum (e.g. no more than a driver can read at a short glance).	The signage content will be managed in order to ensure text and information is kept to a minimum.	$\checkmark$
i.	Any sign that is within 250m of a classified road and is visible from a school zone must be switched to a fixed display during school zone hours.	The proposal will not be visible from a school zone.	$\checkmark$
j.	Each sign proposal must be assessed on a case-by-case basis including replacement of an existing fixed, scrolling or tri-vision sign with a digital sign, and in the instance of a sign being visible from each direction, both directions for each location must be assessed on their own merits.	This SEE provides a comprehensive assessment of the proposal and considers impacts of the digital advertising sign from the eastbound direction of the M4 Motorway.	$\checkmark$
k.	At any time, including where the speed limit in the area of the sign is changed, if detrimental effect is identified on road safety post installation of a digital sign, RMS reserves the right to re-assess the site using an independent RMS- accredited road safety auditor. Any safety issues identified by the auditor and options for rectifying the issues are to be discussed between RMS and the sign owner and operator.	This requirement is noted.	$\checkmark$
I.	Sign spacing should limit drivers' view to a single sign at any given time with a distance of no less than 150m between signs in any one corridor. Exemptions for low speed, high pedestrian zones or CBD zones will be assessed by RMS as part of their concurrence role.	There is an existing static sign on the disused railway bridge that is located approximately 88 metres west of the proposed digital sign. This sign is proposed to be removed, reducing signage within the area.	$\checkmark$
m.	Signs greater than or equal to 20sqm must obtain RMS concurrence and must ensure the following minimum vertical clearances; i. 2.5m from lowest point of the sign above the road surface if located outside the clear zone	Noted. Concurrence from RMS will be sought. The sign ensures minimum clearance heights are met and is wholly contained within the structure of the overpass.	$\checkmark$

De	sign Sign Criteria	Comment	Compliance
	<ul> <li>ii. 5.5m from lowest point of the sign above the road surface if located within the clear zone (including shoulders and traffic lanes) or the deflection zone of a safety barrier if a safety barrier is installed.</li> <li>If attached to road infrastructure (such as an overpass), the sign must be located so that no portion of the advertising sign is lower than the minimum vertical clearance under the overpass or supporting structure at the corresponding location.</li> </ul>		
n.	An electronic log of a sign's operational activity must be maintained by the operator for the duration of the development consent and be available to the consent authority and/or RMS to allow a review of the sign's activity in case of a complaint.	This criteria is noted and can be included as a condition of consent.	$\checkmark$
ο.	A road safety check which focuses on the effects of the placement and operation of all signs over 20sqm must be carried out in accordance with Part 3 of the RMS Guidelines for Road Safety Audit Practices after a 12 month period of operation but within 18 months of the signs installation. The road safety check must be carried out by an independent RMS-accredited road safety auditor who did not contribute to the original application documentation. A copy of the report is to be provided to RMS and any safety concerns identified by the auditor relating to the operation or installation of the sign must be rectified by the applicant. In cases where the applicant is the RMS, the report is to be provided to the Department of Planning and Environment as well.	This criteria is noted and can be included as a condition of consent.	~

Table 2: Digital Sign Criteria – SEPP 64 Guidelines

# 2.3 Bridge Signage Criteria

Bri	dge Signage Criteria	Response	Compliance
a.	The architecture of the bridge must not be diminished. Note: Consideration should be given to whether the advertising structure is compatible with the form and scale of the bridge, and sympathetic to the bridge style and design. Consideration should be given to whether the advertisement significantly detracts from the principle structural qualities of the bridge or any important decorative inclusions. It is preferable that the sign be directly integrated into the structural design of the bridge. The sign should not compromise the architectural and visual quality of the bridge structure.	The sign is considered to be compatible with the form and scale of the overpass structure and would not detract from its structural qualities.	√
b.	The advertisement must not extend laterally outside the structural boundaries of the bridge. Note: The structural boundaries of the bridge include the solid part of the structure, road deck, handrail and safety guard fencing, but do not include additional devices attached to the structure such as lighting and power poles.	The sign will not extend laterally outside of the structural boundaries of the bridge and will not extend beyond the safety guard fencing located on both sides of the overpass. This is confirmed by the architectural drawings submitted as part of the application (Appendix 2). It is noted that the proposed sign has a reduced visual screen area (6% smaller) from the existing static advertising sign at the site.	$\checkmark$
C.	The advertisement must not extend below the soffit of the superstructure of the bridge to which it is attached, unless the vertical clearance to the base of the advertisement from the roadway is at least 5.8m.	The sign will not extend below the soffit of the overpass.	$\checkmark$
d.	<ul> <li>On a road or pedestrian bridge, the advertisement must:</li> <li>i. not protrude above the top of the structural boundaries of the bridge</li> <li>ii. not block significant views for pedestrians or other bridge users (e.g. cyclists)</li> <li>iii. not create a tunnel effect, impede passive surveillance, or in any other way reduce safety for</li> </ul>	<ul> <li>This SEE confirms that the positioning of the sign on the overpass:</li> <li>will not protrude above the top of the balustrade</li> <li>will not block significant views for pedestrians or other bridge users including cyclists</li> <li>will not be longer than half the length of the overpass</li> <li>is not longer than 14m</li> </ul>	$\checkmark$

Bri	dge Signage Criteria	Response	Compliance
Not har abo the tun sur to a	<ul> <li>drivers, pedestrians or other bridge users.</li> <li>te: Signs that extend above bridge ndrail height (approximately 1m by the walking surface level) have potential to block views, create a unel effect or impede passive veillance by blocking clear sightlines and from the bridge. These viewing d safety impacts may be avoided by:</li> <li>ensuring that signs are below handrail height</li> <li>for signs more than 1m above the walking surface level, ensuring that signs are:         <ul> <li>not longer than half the length of the bridge</li> <li>not longer than 14m (which ever length is shorter)</li> <li>only having a sign on one side of the bridge.</li> </ul> </li> </ul>	<ul> <li>will not create a tunnel effect, impeded passive surveillance or generate any safety impacts for drivers, pedestrians and cyclists.</li> <li>the sign will be at the same height as existing handrail</li> <li>there is only 1 x sign proposed on the western elevation of the overpass</li> </ul>	
e.	Paragraphs (a) to (d) above do not apply to the continuation of the display of any existing advertising on bridges approved prior to the gazettal of State Environmental Planning Policy No 64 (Advertising and Signage) (Amendment No 2) in 2007 for only one additional period under SEPP 64 Clause 14 if there is no increase in the advertising display area of the signage. f.	A DCP to display an advertisement on a bridge must be accompanied by a statement demonstrating how the advertisement will contribute to a public benefit. Section 4 outlines the public benefit test requirements.	This application does not require the preparation of a site-specific DCP. Notwithstanding, the public benefit test set out in Section 4 of the SEPP 64 Guidelines is addressed within the SEE.	$\checkmark$
g.	Any advertising sign proposed for development on a bridge over a classified road requires that construction drawings be submitted for review and approval by RMS bridge engineers prior to construction to ensure all road safety requirements are met.	Construction drawings for the sign will be submitted for review and approval by TfNSW bridge engineers, prior to the commencement of construction. The Applicant is satisfied for this requirement to be included as a condition of consent.	$\checkmark$
h.	Any advertising sign proposed for development on a bridge over a road requires provision of a fall arrest system (sign and sign support	A fall arrest system will be implemented as part of the design and will ensure the sign will not detach in the event of impact by an over height	$\checkmark$
