## **WASTE MANAGEMENT PLAN**

RE: PROPOSED ALTERATIONS AT 9-11 HUME HWY, GREENACRE

### **STAGE 1 - DEMOLITION**

1. Asbestos roofing – 220 m2 to be disposed off site by a licensed contractor in accordance with EPA guidelines and council requirements.
2. Steel roof framing – 10 tonne – to be disposed off site by an approved contractor.

### **STAGE 2 – CONSTRUCTION**

1. Excavated material – 3.0 m3 - to be disposed off site by an approved contractor.
2. Crushed Concrete – 1.50 m3 - to be recycled by an approved contractor.
3. “Hebel” wall panels 75 mm thick – 30 m2 - to be disposed off site by an approved contractor.

### **STAGE 3 – ON-GOING USE**

The owners of this site own also the premises at 13 Hume Hwy and as such there will be no additional rubbish generated from the on-going use of the site.
