

PROPOSED COMMUNITY & WORSHIP CENTER AT: 68 WATERLOO ROAD, GREENACRE

revision	date	description
		· · · · · · · · · · · · · · · · · · ·

-The work is to comply with the building code of ausrtalia, current australian standards and relevant by laws.

-The builder/manufacturer shall check and verify all dimensions, rl groundlines and construction methods prior to commencement of any work on site.

-All measurements are in millimetres and are to be verified on site prior to commencement of work, dimensioned measurements should be prefered over scaled measurements.

-All structural work shall be in accordance with structural engineer's detail.

-All proprietary items are to be installed in accordance with manufacturer details and specifications.

-Waterproofing and Termite Protection to be installed and certified by licensed contractors as per relevant Australian Standards.

-Plumbing and Electrical work to be carried out and certified by licensed contractors.

-These drawings are to be read as a set and in conjunction with all other plans, statutory authority approvals and specifications that form part of the construction documents and as supplied by the principal.

-These drawings shall be read in conjunction with the basix energy efficiency certificate and all requirements shall be adhered to whether specifically indicated in these drawings or otherwise.

-If in doubt about anything to do with these drawings do not hesitate to contact Eco-Space Design on 0425316840, and ASK.
