Hi Lewis

I refer to this integrated DA where Council has delegation from the NSW Heritage Council in providing general terms of approval, or advising that approval will not be provided, under the Environmental Planning and Assessment Act 1979.

I have reviewed the application. A more detailed site plan is required that shows the exact location of the proposed sign with dimensions of the setbacks from both street frontages, as well as the site features including location of the fencing and nearby trees, as well as the footpaths and kerbing. Please could this be requested from the applicant.

Now that the public exhibition period of the DA has closed, please could you forward me copies of the public submissions.

It should be noted that timeline for issuing the general term of approval is 21 days after the receipt of additional information requested and submissions.

Regards
