SELECTION

Duravit Rimless®. Efficient flushing, optimum hygiene:

This rimless wall-mounted WC with innovative and effective flushing technology offers an efficient solution: the water is delivered to the bowl forcefully and systematically, ensuring that the entire inner surface is rinsed throughout the flushing process. The dynamic water flow provides outstanding flushing results while preventing splashing. As a modern wall-mounted toilet of the 6/4.5 litre generation, DuraStyle rimless even saves water.

Thanks to its open and easily accessible rim area, it is also considerably easier to keep the bowl clean. the DuraStyle rimless is also optionally available with the WonderGliss coating. This makes it even simpler to keep the entire inside of the toilet clean.

With its timelessly modern form, DuraStyle's design is equally impressive. The wall mounted toilet made entirely of sanitary ceramic with a 54cm projection boasts an extra-flat seat that is optionally available with the SoftClose feature. It is also available in a deluxe version with a 62 cm projection and concealed fastening. This model can also be combined with the Sensowash shower-toilet seat.

P3 Comfort pan shown in above diagram
