Dear Sir/Madam

	Department of Planning Housing and Infrastructure
<i>Issued under the Environmental Planning and Assessment Act 1979</i>	
Approved Application No	DA 22/12013
Granted on the	29 February 2024
Signed	D James
Sheet No	60 of 60

Re: IDAS-2022-10601 - Integrated Development Referral – General Terms of Approval

Dev Ref: DA 22/12013

Description: Replacement of Guthries Poma with a Double Seater Chairlift and storage of materials within Demolition Material Staging Area

Location: Lot 100 DP 1242013 and Lot 116 DP 1242013, 80 CHARLOTTE WAY CHARLOTTE PASS 2624

I refer to your recent referral regarding an integrated Development Application (DA) proposed for the above location. Attached, please find the Department of Planning and Environment—Water's General Terms of Approval (GTA) for part of the proposed development requiring a Controlled Activity approval under the *Water Management Act 2000* (WM Act), as detailed in the subject DA.

Please note Council's statutory obligations under section 4.46 of the *Environmental Planning and Assessment Act 1979* (EPA Act) which requires consent, granted by a consent authority, to be consistent with the general terms of any approval proposed to be granted by the approval body.

If the proposed development is approved by Council, the department requests these GTA be included (in their entirety) in Council's development consent. Please also note the department requests notification:

- if any plans or documents are amended and these amendments significantly change the proposed development or result in additional works or activities (i) in the bed of any river, lake or estuary; (ii) on the banks of any river lake or estuary, (iii) on land within 40 metres of the highest bank of a river lake or estuary; or (iv) any excavation which interferes with an aquifer.

The Department of Planning and Environment—Water will ascertain from the notification if the amended plans require review of or variation/s to the GTA. This requirement applies even if the amendment is part of Council's proposed consent conditions and do

not appear in the original documentation.

- if Council receives an application under s4.46 of the EPA Act to modify the development consent and the modifications change the proposed work or activities described in the original DA.
- of any legal challenge to the consent.

As the proposed work or activity cannot commence before the applicant applies for and obtains an approval, the department recommends the following condition be included in the development consent:

The attached GTA issued by the Department of Planning and Environment—Water do not constitute an approval under the *Water Management Act 2000*. The development consent holder must apply to the department for a Controlled Activity approval **after consent** has been issued by Council **and before** the commencement of any work or activity.

A completed application must be submitted to the department together with any required plans, documents, application fee and proof of Council's development consent. Finalisation of an approval can take up to eight (8) weeks from the date the application and all required supporting documentation is received.

Applications for controlled activity approval should be made to the department, by lodgement of a Controlled Activity Approval – New approval application on the NSW Planning Portal at: <https://www.planningportal.nsw.gov.au/>

The Department of Planning and Environment—Water requests that Council provide a copy of this letter to the development consent holder.

The Department of Planning and Environment—Water also requests a copy of the determination for this development application be provided by Council as required under section 4.47(6) the EPA Act.

Yours Sincerely

For
Nathalie Whitby
Manager
Licensing and Approvals
Department of Planning and Environment—Water

Reference Number:	IDAS-2022-10601
Issue date of GTA:	23 February 2023
Type of Approval:	Controlled Activity
Location of work/activity:	Lot 100 DP 1242013 and Lot 116 DP 1242013, 80 CHARLOTTE WAY CHARLOTTE PASS 2624
