## Single Dwelling

Certificate number: 1352667S

This certificate confirms that the proposed development will meet the NSW government's requirements for sustainability, if it is built in accordance with the commitments set out below. Terms used in this certificate, or in the commitments, have the meaning given by the document entitled "BASIX Definitions" dated 10/09/2020 published by the Department. This document is available at www.basix.nsw.gov.au

Secretary

**BASIX** 

Date of issue: Tuesday, 28 February 2023

To be valid, this certificate must be lodged within 3 months of the date of issue.

## **Schedule of BASIX commitments**

The commitments set out below regulate how the proposed development is to be carried out. It is a condition of any development consent granted, or complying development certificate issued, for the proposed development, that BASIX commitments be complied with.

| Water Commitments   | Show on DA plans | Show on CC/CDC plans & specs | Certifier<br>check |
|---|------------------|------------------------------|--------------------|
| Fixtures  |                  |                              |                    |
| The applicant must install showerheads with a minimum rating of 3 star (> 7.5 but <= 9 L/min) in all showers in the development.  |                  | <b>~</b>                     | V                  |
| The applicant must install a toilet flushing system with a minimum rating of 3 star in each toilet in the development.  |                  | ~                            | V                  |
| The applicant must install taps with a minimum rating of 3 star in the kitchen in the development.  |                  | ~                            |                    |
| The applicant must install basin taps with a minimum rating of 3 star in each bathroom in the development.  |                  | ~                            |                    |
| Alternative water   |                  |                              |                    |
| Rainwater tank  |                  |                              |                    |
| The applicant must install a rainwater tank of at least 3000 litres on the site. This rainwater tank must meet, and be installed in accordance with, the requirements of all applicable regulatory authorities.                 | V                | <b>V</b>                     | V                  |
| The applicant must configure the rainwater tank to collect rain runoff from at least 146 square metres of the roof area of the development (excluding the area of the roof which drains to any stormwater tank or private dam). |                  | <b>V</b>                     | V                  |
| The applicant must connect the rainwater tank to:   |                  |                              |                    |
| all toilets in the development  |                  | <b>~</b>                     | V                  |
| the cold water tap that supplies each clothes washer in the development   |                  | ~                            | V                  |
| <ul> <li>at least one outdoor tap in the development (Note: NSW Health does not recommend that rainwater be used for human<br/>consumption in areas with potable water supply.)</li> </ul>                                      |                  | <b>~</b>                     | V                  |

## Legend

BASIX

In these commitments, "applicant" means the person carrying out the development.

Commitments identified with a in the "Show on DA plans" column must be shown on the plans accompanying the development application for the proposed development (if a development application is to be lodged for the proposed development).

Commitments identified with a in the "Show on CC/CDC plans and specs" column must be shown in the plans and specifications accompanying the application for a construction certificate / complying development certificate for the proposed development.

Commitments identified with a in the "Certifier check" column must be certified by a certifying authority as having been fulfilled, before a final occupation certificate(either interim or final) for the development may be issued.
