(DA 127/09 Modification Nine)

**Subject: Amendment to lot sizes**  
**Sites 5, 6 & 66**  
**135 Merool Road**  
**MOAMA**

Dear Sir/Madam

This submission is seeking to amend the lot sizes of the sites stated above and associated documents relative to the application have been uploaded to the ePlanning portal.

The amendment is due to the revision of the floor plans of the manufactured homes to be located on the lots which differ in shape to the majority of rectangular manufactured homes. An indicative floor plan and elevation plan have been included with the submission but don't form part of this application and will be the subject of a future Section 68 application. No works are required and services were connected to each site following approval of the DA so the cost estimate is for professional fees only and no increase in the number of sites is required.

I trust this information together with the submitted plans and documents is suitable for approval but please do not hesitate to contact me if you require any further information in support of the application.

Yours faithfully

Rick Shorland
