To Whom It May Concern,

**RE: Heritage Information  
8 Grey St, Clarence Town**

The site is in the General Local Conservation Area - Clarence Town Grey Street Precinct. Number 8 Grey Street is not listed as a potential Heritage Item in the DCP (Part C, Schedule 6), and as such, a Heritage Impact Statement is not required.

The existing house, previously named "Riverview" is an 1850's rendered house with heritage style lacework verandah frieze and federation style detailed verandah posts that were typical of this era. It is proposed to reuse these posts in the new gazebo to pay homage to the existing residence. The trees being removed (shown in red on the Site Plan – refer to Architectural Drawing A01) are not of any heritage significance in size or species.
