Vessel Name: - Youya
Vessel Registration: - XP135N
Private Mooring No. YJ018- Moama East

We were engaged by Martin Brown in 2009 to construct and install the walkway at Private Mooring No. YJ018- Moama East

This walkway was built to engineering specifications using Corrosive resistant 50x50x2.5mm Duragal Marine grade steel suitable for Marine environment in a Truss Style framework.

The flotation modules have been securely connected to each other and to the abutment with wire rope and shackle anchor system with sufficient retention strength if the walkway does separates from the restraint piles.

This construction complied with the regulations at the time and this structure has been inspected by us on regular intervals, it appears to have been well maintained.

Regards

A handwritten signature in dark ink, appearing to read 'A Skirka', is written over a light blue grid background.
