On going Management

Type of waste to be Generated	Proposed on site storage and treatment facilities	Destination
Household recyclables	Into council provided co-mingled recycling bin	Collected by Council for recycling
Household waste	Into council provided waste bin	Collected by Council then to landfill
Garden organics	Suitable materials separated and composted on site, larger materials into Council provided garden organics bin	Compost used on site, Garden organics bin collected by Council for composting

Families are responsible for daily waste management, involving the segregation of materials into categories such as garden organics, recyclables, and general waste. These materials are then placed into designated Council-provided bins, which are stored on the property and later placed at the curb for collection by the Council on specified days.
