

## **Addendum Report 2**

**DA 24/6965 (PAN-430592)**

### **Cruiser Terrain Park Upgrades, Thredbo Alpine Resort**

This report relates to DA 24/6965 Cruiser Terrain Park Upgrades. The amendment is being made under section 37 of the EP&A Regulations 2021.

The Development will include the following additional works:

- Installation of two (2) snowmaking pits and lance guns along the edge of the snow fence on the skiers right of the terrain park. These will replace existing manual hydrants. The disturbance footprint for each pit is 3 x 3 m wide x 1.6 m deep. The pits will connect into existing snowmaking laterals.
- Trenching for the installation of power and dialogue cables to the new snowmaking pits, from existing main, downhill of snow fence.

The general location of the works is shown in **Figure 1**.

*Figure 1: General location of additional works*

The updated documents listed below are to replace the superseded versions and have been provided separately with this report.
