DISCLAIMER

This plan was prepared for the sole purpose of the client for the specific purpose of producing a design plan. This plan is strictly limited to the Purpose and does not apply directly or indirectly and will not be used for any other application, purpose, use or matter. The plan is presented without the assumption of a duty to any third person (other than the client) and the client is advised that the plan is not intended to be relied upon by any third person.

2. AL Client Designing will not be liable (in negligence or otherwise) for direct or indirect loss, damage, liability or claim arising out of or incidental to:

- A. Third Party publishing, using or relying on the plan;
- B. AL Client Designing relying on information provided to the Client or a Third Party where the information is incorrect, incomplete, inaccurate, out-of-date or unreasonable;
- C. Any inaccuracies or other faults with information or data sourced from a Third Party;
- D. AL Client Designing on surface indications that are incorrect or inaccurate;
- E. The Client or any Third Party not verifying information in this plan where recommended by AL Client Designing;
- F. Fudgement of this plan with any local authority against the recommendations of AL Client Designing.

3. The accuracy, reliability, suitability or completeness of any approximations or estimates made or referred to by AL Client Designing in this plan.

3. Without limiting paragraph 1 or 2 above, this plan may not be copied, distributed, or reproduced by any process unless its title is clearly displayed on the cover sheet of the copy.

4. If Fudgement of this plan with any local authority against the recommendations of AL Client Designing, the plan should be used as a guide only.

5. The title boundaries as shown hereon were not marked at the time of survey and have been determined by plan dimensions only and not by field survey.

6. Any service line authorities as shown noted have been plotted from the records of relevant authorities where available. Prior to any demolition, excavation or construction on the site, the client should consult with the relevant authorities for possible location and depth of underground services and discontinue the design of the site.
