Disclaimer:

This document may only be used for the purpose for which it was commissioned and in accordance with the contract between SRD and the client.

The scope of services are defined in consultation with the client by time and budgetary constraints imposed by the client, and the availability of reports and other data of the site. Changes to information, legislation and schedule are made on an ongoing basis and readers should obtain up to date information.

SRD accepts no liability or responsibility whatsoever for or in respect of any use of or reliance upon this report and its supporting material by any third party. Information provided is not identified to be suitable for a site-specific assessment or legal advice in relation to any matter. Unauthorised use of this report in any form is prohibited.

INTRODUCTION

1.1. THIS REPORT

This statement provides an opinion, in addition to relevant information for the consent authority to assess and determine the subject development application including the following:

- A site analysis of the site and surrounding lands;
- Description of the proposed development;
- Evaluation of the proposed development against legislative and policy framework;
- Conclusion.

The Statement of Environmental Effects is prepared in accordance with Schedule 1 of Environmental Planning and Assessment Regulation 2000 for the purposes of demonstrating that the environmental impact of development has been considered against the relevant controls and to outline steps to be undertaken to protect the environment or to mitigate any potential harm, if necessary.

The development proposal is local as defined by the Environmental Planning and Assessment Act 1979 ('EPAA') and as such the Hilltops Council is the consent authority.

1.2. THE PROPOENT

The site is privately owned freehold land, held by Lambing Flat Enterprises who are the applicants for this development.

1.3. PROJECT LOCATION

The site is located at 193 Nasmyth Street, Young. The holding is approximately 3058m2 in total. The property is located on the northwestern edge of Young.

1.4. DESCRIPTION OF DEVELOPMENT SITE

The site is located in a R1 – General Residential Zone under the Hilltops Local Environmental Plan 2022. Lot 5 DP 262060 has an existing dwelling and outbuildings.

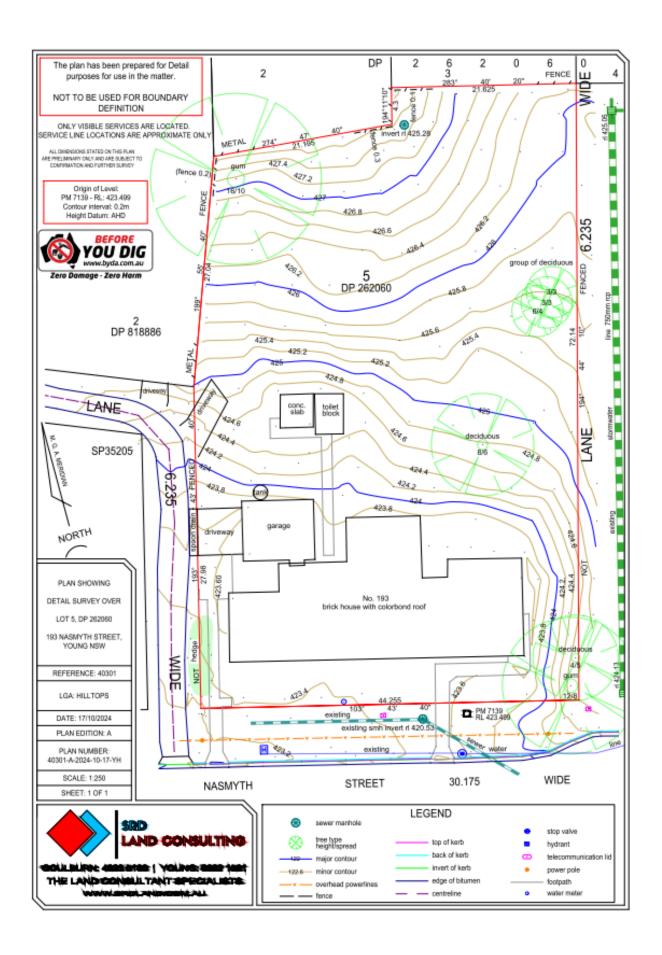

The site is accessed off Nasmyth Street, which is a sealed council road.

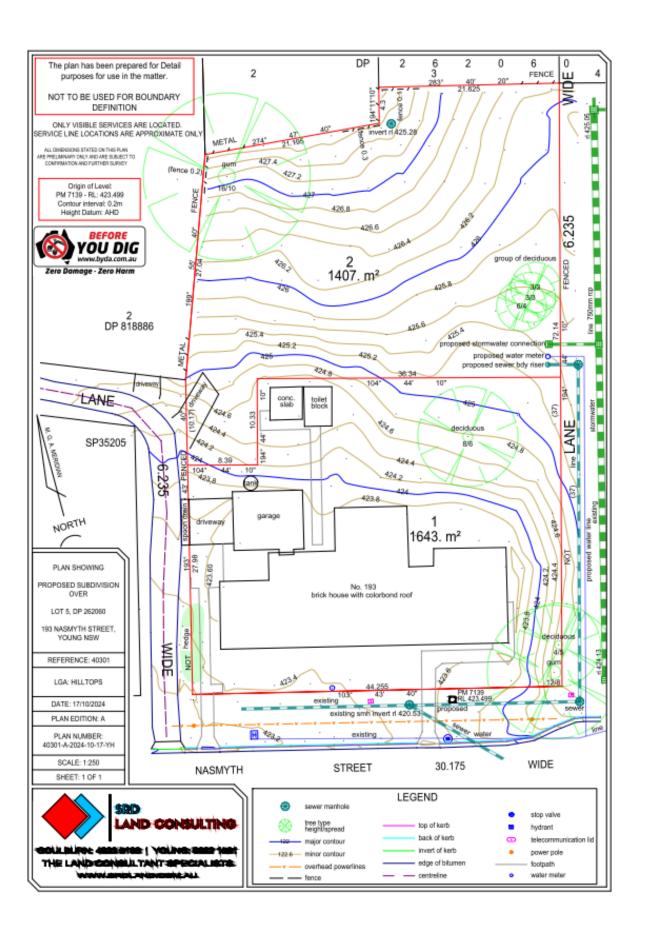

The land slopes from north to south.

The nearest private receptors on neighbouring properties are dwellings to the east, west and north.

Aerial Photo of Site (Source: Six Maps)

2. THE DEVELOPMENT

2.1 OBJECTIVES AND OVERVIEW OF THE DEVELOPMENT

The objective of the proposed development is to obtain development consent for a 2 lot Subdivision at 193 Nasmyth Street, Young (the site). This development is enabled through the LEP and DCP.

2.2 DEVELOPMENT OPTIONS

A review of the alternative uses for the site identified the following:

1. Do nothing and leave the site as it is

By doing nothing and leaving the site as it is there are no additional benefits to the site or the surrounding area.

2. Lodge an application for the proposed subdivision

This second option is reflective of the landowner's interests and takes into account the relevant environmental planning regulations and features of the site. The proposed development will facilitate better development on the site to achieve better outcomes for the owner and wider community.

It is considered that by lodging an application for the proposed subdivision is in the best interest of the owner but also for the surrounding locality as it will help provide additional residential options to allow diversity of the residents.

2.3 STAGING

This development is not intended to be a staged development.

3 STATUTORY CONTEXT

The following Acts and planning instruments are considered relevant to the proposal.

3.1 RELEVANT LEGISLATION (ACTS AND REGULATIONS)

3.1.1 ENVIRONMENTAL PLANNING AND ASSESSMENT ACT 1979

The relevant sections of the Environmental Planning and Assessment Act 1979 (EPA & A Act) is s4.15 – Evaluation. This is addressed later in this SoEE.

3.1.2 BIODIVERSITY CONSERVATION ACT 2016

No vegetation is proposed to be removed.

3.1.3 LOCAL GOVERNMENT ACT 1993

A Section 68 application will be required for this application.

3.1.4 ROADS ACT 1993

The application will be required an approval under the Roads Act 1993 for a new entranceway.

3.1.5 STATE ENVIRONMENTAL PLANNING POLICIES (SEPP'S)

3.1.5.1 STATE ENVIRONMENTAL PLANNING POLICY (TRANSPORT AND INFRASTRUCTURE) 2021

Division 5, Subdivision 2 Development Likely to affect an electricity transmission or distribution network Clause 2.48 Determination of development applications – other development.

- (1) This section applies to a development application (or an application for modification of a consent) for development comprising or involving any of the following—
- (a) the penetration of ground within 2m of an underground electricity power line or an electricity distribution pole or within 10m of any part of an electricity tower,
- (b) development carried out—
- (i) within or immediately adjacent to an easement for electricity purposes (whether or not the electricity infrastructure exists), or
- (ii) immediately adjacent to an electricity substation, or
- (iii) within 5m of an exposed overhead electricity power line,
- (c) installation of a swimming pool any part of which is—

- (i) within 30m of a structure supporting an overhead electricity transmission line, measured horizontally from the top of the pool to the bottom of the structure at ground level, or
- (ii) within 5m of an overhead electricity power line, measured vertically upwards from the top of the pool,
- (d) development involving or requiring the placement of power lines underground, unless an agreement with respect to the placement underground of power lines is in force between the electricity supply authority and the council for the land concerned.

The proposal is not within or immediately adjacent to any of the above infrastructure; therefore the development satisfies the SEPP.

3.1.5.2 STATE ENVIRONMENTAL PLANNING POLICY (BIODIVERSITY AND CONSERVATION) 2021

This State Environmental Planning Policy (SEPP) does apply to the lot, however no vegetation is proposed to be removed.

3.1.6 HILLTOPS LOCAL ENVIRONMENTAL PLAN 2022

The site is zoned R1 'General Residential' under provisions of the Hilltops Local Environmental Plan 2022 (HLEP 2022). The proposed development relates to the construction of a shed which is ancillary to the agricultural use of land which is permissible.

Objectives of the R1 'General Residential' zone are as follows:

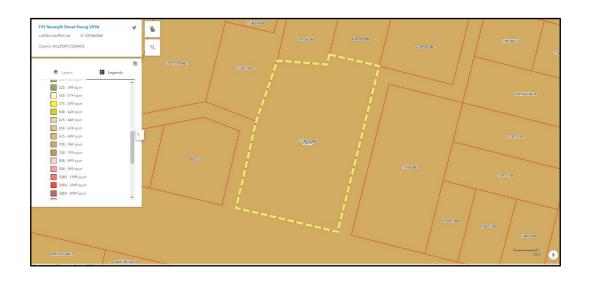

- To provide for the housing needs of the community.
- To provide for a variety of housing types and densities.
- To enable other land uses that provide facilities or services to meet the day to day needs of residents.
- To provide and protect a high quality residential amenity that adds value to the existing character and amenity of the town, neighbourhood and street.
- To provide fully serviced residential lots linked to town water and sewer networks.

Comment – The development is in keeping with the objectives of the zone.

The relevant provisions of the LEP are addressed in Appendix A of this report.

Zoning Map (Source: NSW Planning Portal)

Minimum Lot Size Map (Source: NSW Planning Portal)

3.1.7 YOUNG DEVELOPMENT CONTROL PLAN 2011

The relevant provisions of the Young Development Control Plan 2011 are addressed in the Table in Appendix B of this report.

3.1.8 YOUNG DEVELOPER CONTRIBUTIONS PLAN

The development is considered part of the section 94 area and contributions may apply.

4 CONSULTATION WITH COUNCIL AND GOVERNMENT AGENCIES

Preliminary consultation with Government Agencies has not been undertaken.

4.1 HILLTOPS COUNCIL

Preliminary Discussions have not been held with Hilltops Council to discuss the broad issues to be addressed in the development application.

4.2 GENERAL AND COMMUNITY CONSULTATION

Preliminary consultation has not been undertaken with adjoining property owners and industry members as part of the preparation of this application and the statutory public exhibition requirements under the Environmental Planning and Assessment Act 1979. Further consultation will be undertaken by the Council in the form of Advertisement and Notification as required by the EP&A Act and Council's Policies.

5 SITE CHARACTERISTICS AND KEY DEVELOPMENT ISSUES

5.1 LIKELY DEVELOPMENT IMPACTS

Section 4.15 – (1) Matters for consideration – general of the Environmental Planning and Assessment Act 1979 states:

In determining a development application, a consent authority is to take into consideration such of the following matters as are of relevance to the development the subject of the development application:

- (a) the provisions of:
- i. any environmental planning instrument, and
- ii. any proposed instrument that is or has been the subject of public consultation under this Act and that has been notified to the consent authority (unless the

Secretary has notified the consent authority that the making of the proposed instrument has been deferred indefinitely or has not been approved), and

- iii. any development control plan, and
- iv. any planning agreement that has been entered into under section 7.4, or any draft planning agreement that a developer has offered to enter into under section 7.4, and
- v. the regulations (to the extent that they prescribe matters for the purposes of this paragraph), and
- vi. any coastal zone management plan (within the meaning of the Coastal Protection Act 1979), that apply to the land to which the development application relates,
- (b) the likely impacts of that development, including environmental impacts on both the natural and built environments, and social and economic impacts in the locality,
- (c) the suitability of the site for the development,
- (d) any submissions made in accordance with this Act or the regulations,
- (e) the public interest.

5.2 CONTEXT AND SETTING

The proposed development has demonstrated consistency with the surrounding locality through the environmental planning framework and site features that have informed the proposed development. The proposed development will have a minimal visual impact on the locality, however that impact is not considered to be detrimental to the area and is in line with the existing surrounds and other similar developments within the local area.

5.3 VISUAL IMPACT

The development will not negatively impact on the visual amenity of the locality through the appropriate sitting, size and design of the development. Due to the open nature of the locality the site is visible from all aspects.

5.4 PRIVACY AND OVERSHADOWING

The development is for a 2-lot residential subdivision. There are neighbours adjoining the allotment, however, it is not anticipated that this proposal will result in the loss of privacy or overshadowing for those neighbours.

5.5 ACCESS, TRAFFIC AND PARKING

Access to the new lot is via a laneway on the western boundary of the lot. The lane is formed but unsealed and connects Nasmyth and Edwards Streets, a new lot entrance is proposed as part of this application. The existing dwelling has access off the laneway. There is sufficient area within the allotments for parking and manoeuvring of vehicles within the lot.

5.6 ARCHAEOLOGY

A search of AHIMS has been completed and found no sites or items of significance, a copy of the search is attached.

5.7 HERITAGE

The site is not a heritage listed item, nor is it in proximity to any heritage items. The site is not within a Heritage Conservation Area.

5.8 SERVICES

The site has reticulated water, and sewer. There is access to electricity at the road frontage. Stormwater will be managed through the Council's stormwater system.

5.9 LANDSCAPING

The site has an existing dwelling with existing landscaping. This application is for subdivision only, no changed to existing landscaping proposed and no new landscaping required at this time.

5.10 BUSHFIRE

The site is not identified as Bushfire Prone Land.

5.11 NOISE AND VIBRATION

No potential for noise or vibration impacts have been identified. Construction noise will be as per normal construction times/processes.

5.12 ECOLOGY

The site works will not involve any removal of vegetation.

5.13 SAFETY, SECURITY AND CRIME PREVENTION

No safety, security for crime prevention measures required.

5.14 WATER MANAGEMENT

Stormwater management will remain as existing, shed roof water will be captured in onsite rainwater tanks. Sediment and Erosion Control will be implemented as per standard practices.

5.15 FLOODING

The site is not located within a flood prone area.

5.16 EROSION AND SEDIMENT CONTROL

Erosion and Sediment Controls including sediment fencing and/or hay bales would be installed at the downslope sections of the development sites until vegetation is reestablished in areas affected by construction works and not retained as hardstand.

5.17 SOCIAL AND ECONOMIC ASSESSMENT

The development would not result in any direct social or economic impact other than to provide support for the continued agriculture use of the land.

5.18 SITE SUITABILITY AND THE PUBLIC INTEREST

The proposed development is considered to be a suitable use of the site. This development is permissible under the LEP and has addressed any relevant concerns through this SoEE. The proposal is considered to be within the public interest.

6 CONCLUSION

This SoEE has shown that the development is within the public interest, both socially, economically and environmentally. The proposed subdivision is the most suitable option for the development of the site. Any relevant matters have been addressed through this SoEE.

The key reasons why the proposed is acceptable includes;

- The proposed development is permissible through the LEP.
- The proposed development will have a positive impact on the site and the surrounding community
- Care has been taken to design and locate the lots to ensure that it is sympathetic to the site and the surrounding areas.

It is considered that the proposal will have no significant impacts on the surrounding properties to that it is likely to adversely affect their enjoyment or amenity. We look forward to Councils determination of this matter. If we can provide any further information or clarity, please don't hesitate to contact us.

| 4.1 Minimum Subdivision Lots | | |
|---|---------------------------------------|---|
| Size | | |
| (1) The objectives of this clause | The lots satisfy the minimum lot size | |
| are as follows— | requirement. | |
| (a) for residential land— | | |
| (i) to ensure land use and | | |
| development are undertaken on | | |
| appropriately sized parcels of | | |
| land, and | | |
| (ii) to ensure sufficient land area | | |
| to promote high levels of | | |
| residential amenity, and | | |
| (iii) to ensure new lots are | | |
| adequately serviced with town | | |
| water supply and a reticulated | | |
| sewer network, with an effective | | |
| way of disposing of domestic | | |
| waste, and | | |
| (iv) to create lot sizes and | | |
| arrangements that— | | |
| (A) support the efficient | | |
| provision and management of | | |
| roads and services, and | | |
| (B) align with existing and | | |
| proposed development layouts in | | |
| the neighbourhood, and | | |
| (C) minimise adverse impacts on | | |
| the amenity and productivity of | | |
| adjoining development, | | |
| (b) for semi-rural land and rural | | |
| villages— | | |
| (i) to ensure land use and | | |
| development are undertaken on | | |
| appropriately sized parcels of | | |
| land, and (ii) to ensure sufficient land area | | |
| to promote high levels of | | |
| amenity, and | | |
| (iii) to ensure new lots have | | |
| adequate land area for on-site | | |
| sewer management or are able to | | |
| connect to a reticulated sewer | | |
| network, and | | |
| (iv) to create lots that— | | |
| (A) are compatible with the | | |
| existing predominant lot pattern | | |
| O | l . | 1 |

or desired future layout of the locality, and (B) minimise adverse impacts on the amenity and productivity of adjoining primary production lands, (c) for rural land— (i) to ensure land use and development are undertaken on appropriately sized parcels of land, and (ii) to facilitate the orderly and economic use and development of rural lands for rural and related purposes, and (iii) to prevent fragmentation of primary production agricultural land, and (iv) to sustain primary production and natural resource values, and (v) to minimise potential for land use conflict between primary production land uses and other land uses, and (vi) to protect supply chains for primary production land uses including natural resources and access to markets. (2) This clause applies to a subdivision of any land shown on the Lot Size Map that requires development consent and that is carried out after the commencement of this Plan. (3) The size of any lot resulting from a subdivision of land to which this clause applies is not to be less than the minimum size shown on the Lot Size Map in relation to that land. (4) This clause does not apply in relation to the subdivision of any land-(a) by the registration of a strata plan or strata plan of subdivision under the Strata Schemes

Development Act 2015, or

| (b) by any kind of subdivision | | |
|---|--------------------------------|--|
| under the Community Land | | |
| Development Act 2021. | | |
| 5.21 Flood Planning | | |
| (1) The objectives of this clause | A Flood Assessment is attached | |
| are as follows— | | |
| (a) to minimise the flood risk to | | |
| life and property associated with | | |
| the use of land, | | |
| (b) to allow development on land | | |
| that is compatible with the flood | | |
| function and behaviour on the | | |
| land, taking into account | | |
| projected changes as a result of | | |
| climate change, | | |
| (c) to avoid adverse or | | |
| cumulative impacts on flood | | |
| behaviour and the environment, | | |
| (d) to enable the safe occupation | | |
| and efficient evacuation of | | |
| people in the event of a flood. | | |
| (2) Development consent must | | |
| not be granted to development | | |
| on land the consent authority | | |
| considers to be within the flood | | |
| planning area unless the consent | | |
| authority is satisfied the | | |
| development— | | |
| (a) is compatible with the flood | | |
| function and behaviour on the | | |
| land, and | | |
| (b) will not adversely affect flood | | |
| behaviour in a way that results in detrimental increases in the | | |
| potential flood affectation of | | |
| other development or properties, | | |
| and | | |
| (c) will not adversely affect the | | |
| safe occupation and efficient | | |
| evacuation of people or exceed | | |
| the capacity of existing | | |
| evacuation routes for the | | |
| surrounding area in the event of a | | |
| flood, and | | |
| (d) incorporates appropriate | | |
| measures to manage risk to life in | | |
| the event of a flood, and | | |
| <u> </u> | | |

(e) will not adversely affect the environment or cause avoidable erosion, siltation, destruction of riparian vegetation or a reduction in the stability of river banks or watercourses. (3) In deciding whether to grant development consent on land to which this clause applies, the consent authority must consider the following matters— (a) the impact of the development on projected changes to flood behaviour as a result of climate change, (b) the intended design and scale of buildings resulting from the development, (c) whether the development incorporates measures to minimise the risk to life and ensure the safe evacuation of people in the event of a flood, (d) the potential to modify, relocate or remove buildings resulting from development if the surrounding area is impacted by flooding or coastal erosion. (4) A word or expression used in this clause has the same meaning as it has in the Considering Flooding in Land Use Planning Guideline unless it is otherwise

defined in this clause.

APPENDIX B - YOUNG DEVELOPMENT CONTROL PLAN 2011

| Requirement | Proposed/Comments | Compliance |
|--|---|-------------------------|
| 1.1 Introduction | | |
| The objectives of the plan are: (a) To provide detailed provision for regulating development; (b) To protect and improve the environment; (c) To protect and improve amenity and design of development; (d) To conserve, protect and enhance environmental heritage; (e) To encourage a diversity of housing to meet the needs of the residents; and (f) To facilitate development that is environmentally | The proposed development satisfies the objectives. | |
| sustainable. | | |
| | e General Residential Zone (R1) a | nd Village Zone (RLIS) |
| Performance Outcomes | Acceptable Solutions | na vinage zone (NOS) |
| PSD2.1 All intersections shall be designed for safe traffic management; | ASD2.1 Subdivision layouts: Avoid four-way intersections, and provide a minimum spacing between intersections of 40m (may be 20m for minor access roads and cul de sacs); | No new roads required. |
| PSD2.2 Minimise the use of cul-desacs, and where these are provided provide adequate minimum frontages to facilitate reasonable access and dwelling construction; | ASD2.2 Avoid cul-de-sacs if possible; | No Cul-de-sac proposed. |
| PSD2.3 Provide road widths that are consistent with the character of the Young Township or the village | ASD2.3.1 Provide minimum road carriageway widths as follows: | No new roads required. |

concerned, within a logical hierarchy of roads;

- Cul-de-sac or minor access road (up to 15 dwellings) – 9m²
- Local Street (15-100 dwellings) 11m²
 Collector (above 100-300 dwellings)²
 12m;

ASD2.3.2

Provide verges to each side of road carriageways as follows:

- Cul-de-sac or minor access road (up to 15 dwellings) – 4.5m
- Local Street (15-100 dwellings) – 4.5m;
- Collector (above 100-300 dwellings)
 - 4.5m;

ASD2.3.3

Road Construction:

- All roads created as a part of the subdivision are sealed and provided with kerb and guttering, and are designed and constructed in accordance with Council's Engineering Guidelines for Subdivision and Development.
- All existing street shoulders adjacent to the subdivision are sealed and provided with kerb and guttering
- All roads created as a part of the subdivision are dedicated to Council to become public roads.
- Any street and advisory signs that are required
