

SITE WASTE MANAGEMENT AND MINIMISATION PLAN

OUTLINE OF PROPOSAL

1. SITE ADDRESS:

2411 The Buckets Way, Ward River

2. BUILDINGS & OTHER STRUCTURES CURRENTLY ON SITE:

Ancillary buildings

3. BRIEF DESCRIPTION OF THE PROPOSAL:

- Farm building

DEMOLITION PHASE

N/A

ONGOING OPERATIONS PHASE

1. Waste management will continue on as existing.

CONSTRUCTION PHASE

The waste will be separated on site by builder's contractors and builder's labourers during the construction stage. The site will be checked on a regular basis to make sure no recyclable materials are mixed with non-recyclable materials, and to set aside on site an area to store the recyclable materials for transportation to local recycling plants. The site manager will erect a sign on site for waste areas, and will inform the builder's staff where material is to be collected for recycling. The site manager and/or builder will impose the execution of the waste separation policy on a regular basis and to have on-going checks.

DESCRIPTION		DESTINATION	
WASTE MATERIALS	Vol (m³)	ON SITE	OFF SITE
Excavation Material/ Garden Waste	2m3	Reused on site to back fill.	-
Tiles	<1m3	-	Taken to local waste management facility.
