## WASTE MANAGEMENT PLAN FOR BANKSTOWN, BASS HILL & REVESBY WARDS

Demolition, construction and ongoing management

The applicable sections of this Plan must be completed and submitted with your Development Application. Completing this Plan will assist you in identifying the type of waste that will be generated and in advising Council how you intend to reuse, recycle or dispose of the waste. The information provided will be assessed against the objectives of the DCP. If you require assistance completing your Waste Management Plan, please contact Council's **Resource Recovery Team – Bankstown Branch on 9707 9000.** 

If there is insufficient space, please provide attachments.

Council Officer Name:					
Telephone:		Date:			
Storage of waste			YES	NO N/	Δ
Is there sufficient spa recycling?	ce allocated within each dwelling fo	or two day's capacity of waste and	٠		
2. Does the bin storage	area(s) have sufficient space to stor	e the required number of bins?	•		
3. Does the developmen	nt ensure the bin storage area is loca	ated:			
a) behind the building line of the dwelling where it is screened or cannot be viewed from the public domain?					
b) away from habita and odour?	able windows and doors of adjoining	g dwellings to reduce noise	•		
c) such that residen dwelling?	its are able to conveniently carry the	eir waste to the correct bin from th	neir		
d) such that the bin rooms of the dwe	-carting route to the collection poin elling?	t does not pass through any interr	nal		
e) such that the bin	-carting route to the collection poin	t avoids steps and slopes?		•	
	s can be moved safely to the collecti		•		
4. Has the design ensure point is a minimum of	ed that any door and pathway from t 2 metres in width?	the bin storage area to the collecti	ion	•	
	oute been illustrated on the plans ac	companying the DA?			
6. Is the bin-carting rout	te:				
a) non-slip?				•	
b) free from obstru	ctions and steps?			•	

c) a maximum grade of 1:14 (or 1:30 where 660L or 1100L bins are used)?

Storage of waste	YES	NO	N/A
7. I las the required cleaning equipment been provided to manage waste, bins and the bin storage area, including access to water supply?			•
8. For kerbside collection, is the bin storage area located within 50 metres of the collection point?	•		
9. For collect and return service:			
a) Is the bin storage area located within 10 metres of a layback to the collection point?			•
b) If no, has a temporary bin holding area been provided within 10 metres of a layback the to the collection point?			•
c) What is the bin-carting distance from the bin storage area to the temporary bin holding area?	N/A		
d) Is bin-handling equipment (e.g. bin tugs) provided to assist the caretaker with bin-carting (to comply with WH&S requirements)?			•
10. Is there a garbage chute system proposed?			•
a) How many floors will the chute service?	N/A		
b) Is there a recycling cupboard provided on each residential floor adjacent to the chute hopper?			•
c) Has a bin storage room been provided where the waste chute terminates?			•
d) Is there a bin lifting machine provided to assist with condensing 240L recycling bins on each floor into bulk bins for collection?			•
11. Is the residential bin storage area separated from the commercial bin storage area with access restricted to each type of tenancy? (mixed use developments only)			•
12. Has a minimum of 4m² per building been allocated for the storage of bulky waste?			•
13. Has a scaled plan been submitted illustrating the layout of the bin storage area(s)?	•		
Collection of waste	YES	NO	N/A
1. Has a kerbside collection point been nominated on the plans accompanying the DA?			•
2. For collect and return service, does the collection point have a convenient layback to the roadway or remain flat to the truck loading area?			•
3. For kerbside collection:			
a) is there enough kerbside space for each dwelling to present all bins for collection in single file, also allowing for a 30 centimetre gap between bins?	•		
b) can all allocated bins be placed within the site's allocated frontage and not in front of driveways or neighbouring lots?	•		
4. Is there a separation distance of at least 2 metres between all bins and street trees, bus stops, street furniture and road infrastructure such as round-a-bouts and speed humps?	•		
5. a) Does the development require the collection vehicle to access the site to service the bins?			•
b) If yes, is the DA accompanied by scaled swept path diagrams for the waste collection vehicle which demonstrates the vehicle can enter and exit in a forward direction, minimises manoeuvring within the site and can access the nominated loading area?			•
6. Has the development been designed to ensure that access to the collection point can be undertaken by a Heavy Rigid Vehicle?			•
7. Is the DA accompanied by a traffic statement confirming the site and collection point has been designed to comply with AS 2890.2 Parking Facilities: Off-Street Commercial Vehicle Facilities?			•

Ongoing use	YES	NO	N/A
1. a) Is there a caretaker on site responsible for managing waste?			•
b) How often are they on site and what is their role?			
N/A			
2. Is the bin storage area accessible to waste collection staff (no security locks or devices)?			٠
3. Additional information:			
N/A
