

Waste Management Plan – **Demolition and Constuction Waste**

The applicable sections of this Waste Management Plan (WMP) must be completed and submitted with your Development Application.

Completing this Plan will assist you in identifying the type(s) of demolition and construction waste that will be generated and will inform Council how you intend to reuse, recycle or dispose of this waste. The more detail you provide with your application will assist Council in reviewing your application. The amount of detail you provide with your application impacts the number of revisions and time taken with processing the DA.

The information you provide will be assessed against the objectives of the Development Control Plan 2021.

If you require assistance completing your WMP, please contact Council's Waste Assessment Officers in the Resource Recovery Team on **9707 9000**.

If there is insufficient space within this template, please provide attachments.

Site address: 14-18 Maclaur	in Avenue				
Suburb: East Hills	Postcode: 2213				
Applicant's name: George A	rida				
Company name: Deboke As	sociates				
Applicant's address: 17 Willi	am Street				
Suburb: Ryde	Ryde Postcode:2112				
Phone: +61 (02) 9188 4818					
Email: info@deboke.com.au					
Are there buildings or struct		site? ion with anexisting structure including a 3-bay			
If the application involves th		dential property, has a Vacant Land Charge			
No Yes					
Applicant's Signature:		He go Da.			
Date:	2.06.2025				
If proposal has been discussed with Council's Waste Assessment Officers provide details.					

<u>DEMOLITION WASTE</u> (Complete if there are existing structures on site that require removal)

Do the works involve asbestos removal?	Yes – less than 10m²	Yes – more than 10m²	No	
Work Cover License numbe	r:			

GENERAL DEMOLITION WASTE

Has a demolition contractor been appointed?	Yes		No	
If yes, demolition contractor deta	ails:			
If no and if DA is approved, a co		it may be placed o	on the DA requiri	ng the above

CONSTRUCTION WASTE

	Estimated	Destination			
	amount	Reuse and	recycling	Disposal	
Type of material	m² or m³	ON-SITE Specify proposed reuse	OFF-SITE Specify contractor and recycling facility	Specify contractor and landfill site	
Excavation (e.g. soil, rock)					
Bricks/Pavers					
Concrete	0.5	Minimal off-cuts, may be reused as fill		Local waste facility if not reused	
Tiles					
Timber (clean)					
Timber (treated)					
Asphalt					
Metals	1	Off-cuts to metal recycling facility			
Plasterboard					
Green waste					
Glass					
Furniture/Fittings/Carpet					
Other - Alucobond	0.5	Off-cuts collected for aluminium recycling			
Percentage of material div	verted from land	lfill: >90%			

If this figure is below 80%, you must explain why.* Not applicable — material use is minimal and all recyclable by type.

I certify that:

- (a) Any material moved off-site will be transported in accordance with the requirements of the *Protection of the Environment Operations Act 1997*;
- (b) Waste will only be transported to a place that can lawfully be used as a waste facility;
- (c) Generation, storage, treatment and disposal of hazardous waste and special waste (including asbestos) will be conducted in accordance with relevant waste legislation administered by the EPA and relevant Work Health and Safety legislation administered by WorkCover NSW; and
- (d) All records demonstrating lawful disposal of waste and evidence such as weighbridge dockets and invoices for waste disposal or recycling services will be retained and kept readily accessible for inspection by regulatory authorities such as Council, NSW EPA or WorkCover NSW.

^{*} Council has a target of diverting 80% of waste from landfill. To contribute to this target, all developments are required to achieve best practise in the design, construction and maintenance of waste management facilities and infrastructure.
