Eastern Gas Pipeline (collectively **Jemena**) has reviewed and assessed the proposed application referenced above. Jemena has given consideration to the potential safety risks and impacts to the pipeline with specific concerns to fuel tank located within proximity of the Eastern Gas Pipeline.

Jemena confirms that it has no objection the proposed application and makes the following comments.

Owing to the physical separation between the storage tank farm and the Jemena high pressure gas pipelines, it is anticipated that there will be no impact or continued operation of the pipelines.

Duty of care exists to ensure there is no compromise to the integrity of the Jemena asset during this procedure due to the existing ground conditions that currently exist. Of special note please make sure that no extra loadings are applied to the gas pipeline which includes all truck and excavator logistics.

Should there be any update or change to the application, Jemena reserves its rights to review and provide additional comment.

If you have any questions or queries, please do not hesitate to contact the undersigned.

Kind Regards
