

# Nationwide House Energy Rating Scheme® Class 1 Summary

**NatHERS® Certificate No. #HR-MYX4HG-03**

Generated on 19 Nov 2025 using Hero 4.1

## Property

**Address** 16 Wenke Crescent, Yagoona, NSW, 2199  
**Lot/DP** Lot 337/DP 12782  
**NatHERS climate zone** 56 - Mascot AMO

## Accredited assessor

**Name** Fadi Sweis  
**Business name** Energy Ratings Australia Pty Ltd  
**Email** fsweis@eraservices.com.au  
**Phone** +61 410321100  
**Accreditation No.** 20390  
**Assessor Accrediting Organisation** ABSA

## Verification

## National Construction Code (NCC) requirements

The NCC allows the use of NatHERS accredited software to comply with the energy efficiency requirements for houses (Class 1 buildings) and apartments (Class 2 sole-occupancy units and Class 4 parts of buildings). The applicable requirements for houses are detailed in Specification 42 of NCC Volume Two. For apartments the requirements are detailed in clauses J3D3 and J3D15 of NCC Volume One.

NCC 2022 includes enhanced thermal performance requirements for houses and apartments. It also includes a new whole-of-home annual energy use budget which applies to the major equipment in the home.

The NCC, and associated ABCB Standards and support material, can be accessed at [www.abcb.gov.au](http://www.abcb.gov.au).

Note, variations and additions to the NCC energy efficiency requirements may apply in some states and territories.

## Summary of all dwellings

| Certificate number and link  | Unit Number | Heating load (load limit) (MJ/m <sup>2</sup> .yr) | Cooling load (load limit) (MJ/m <sup>2</sup> .yr) | Total load (MJ/m <sup>2</sup> .yr) | Star Rating | Whole of Home Rating |
|------------------------------|-------------|---------------------------------------------------|---------------------------------------------------|------------------------------------|-------------|----------------------|
| <a href="#">HR-DKD605-03</a> | 16A         | 11.0 (25)                                         | 17.6 (18)                                         | 28.6                               | 7.1         | n/a                  |
| <a href="#">HR-VQ3MOK-03</a> | 16          | 15.6 (25)                                         | 13.8 (18)                                         | 29.4                               | 7.1         | n/a                  |

## Thermal performance Star rating

**NATIONWIDE  
HOUSE**  
ENERGY RATING SCHEME®

The rating above is the minimum  
of all dwellings in this summary.

For more information on  
your dwelling's rating see:  
[www.nathers.gov.au](http://www.nathers.gov.au)

## Whole of Home performance rating

No Whole of Home  
performance rating  
generated for this  
certificate or not  
completed for all  
dwellings.

## Explanatory notes

### About the ratings

This is a summary of NCC Class 1 dwellings in a development. For more details of each dwelling refer to the individual dwelling's certificate using the certificate number in summary of all dwellings table.

NatHERS ratings use computer modelling to evaluate a home's energy efficiency and performance. They use localised climate data and standard assumptions on how people use their home to predict the energy loads and societal cost. The thermal performance star rating uses the home's building specifications, layout, orientation and fabric (i.e. walls, windows, floors, roofs and ceilings) to predict the heating and cooling energy loads. The Whole of Home performance rating uses information about the home's appliances and onsite energy production and storage to estimate the home's societal cost.

For more details about an individual dwelling's assessment, refer to the individual dwelling's NatHERS Certificate (accessible via link).

### Accredited Assessors

For high quality NatHERS Certificates, always use an accredited or licenced assessor registered with an Assessor Accrediting Organisation (AAO). AAOs have strict quality assurance processes, and professional development requirements ensuring consistently high standards for assessments.

Non-accredited assessors (Raters) have no ongoing training requirements and are not quality assured.

Licensed assessors in the Australian Capital Territory (ACT) can produce assessments for regulatory purposes only, using endorsed software, as listed on the ACT licensing register.

Any queries about this report should be directed to the assessor. If the assessor is unable to address questions or concerns, contact the AAO specified on the front of this certificate.

### Disclaimer

The NatHERS Certificate format is developed by the NatHERS Administrator. However, the content in certificates is entered by the assessor. It is the assessor's responsibility to use NatHERS accredited software correctly and follow the NatHERS Technical Note to produce a NatHERS Certificate.

The predicted annual energy use, cost and greenhouse gas emissions in this NatHERS Certificate are an estimate based on an assessment of the dwelling's design by the assessor. It is not a prediction of actual energy use, cost or emissions. The information and ratings may be used to compare how other dwellings are likely to perform when used in a similar way.

Information presented in this report relies on a range of standard assumptions (both embedded in NatHERS accredited software and made by the assessor who prepared this report), including assumptions about occupancy, behaviour, appliance performance, indoor air temperature and local climate.

Not all assumptions made by the assessor while using the NatHERS accredited software tool are presented in this report and further details or data files may be available from the assessor.
