Mandatory requirements – Statement of environmental effects

A Statement of Environmental Effects (SEE) is not required because the Project is classed as designated development and integrated development which requires the DA to be supported by an Environmental Impact Statement (EIS).

The EIS for the Project considers the potential environmental impacts associated with the construction and operation of the Project in accordance with sections 190-192 of the Environmental Planning and Assessment Regulation 2021 and the Planning Secretary's Environmental Assessment Requirements (SEARs) 1946.

Sincerely,

Patric Illingworth

Environmental Project Manager
