Summary of Objectives, Nature and Effect of the Draft Planning Agreement

Objectives, Nature and Effect of Draft Planning Agreement

The objective of the Draft Planning Agreement is to require the Developer to:

- dedicate lands to the Council for public reserves
- prepare for the Council's approval a Vegetation Management Plan for the dedicated lands and require the Developer to carry out the actions identified in the approved Vegetation Management Plan for five years
- prepare for the Council's approval a Vegetation Maintenance Program for the maintenance of dedicated lands for 20 years to ensure the Council is not burdened by the cost of maintaining the land, and either carry out the actions identified in that approved plan, or pay monetary contributions to the Council for the estimated costs of carrying out those actions,
- design and carry out embellishment works for a park on proposed future lot 502.

Assessment of the Merits of the Draft Planning Agreement

How the Draft Planning Agreement Promotes the Public Interest

The Lands being dedicated to the Council are zoned as C2 – Environmental Conservation and C3 – Environmental Management. The objectives of these zones are to protect, manage and restore areas of high ecological, scientific, cultural or aesthetic values. The dedication of this land to the Council for public reserves secures the land for environmental purposes and allows for public access to the Lands for the wider community.

The dedication of the proposed future lots as public reserves supports the Council's My Coffs Community Strategic Plan objectives of:

- undertaking development that is environmentally, socially and economically responsible
- protecting the diversity of our natural environment.

The Vegetation Management Plan ensures that the dedicated lands are managed and protected for 5 years during the subdivision works and thereby improving the ecological condition of the land during construction and into the future.

The Vegetation Maintenance Program ensures that the Developer is responsible for either carrying out the ongoing maintenance of, or the ongoing costs of maintaining the lands after 5 year management period.

The requirement for the Developer to carry out embellishment works for a park promotes the provision of assets for the social welfare of the community.

Prior to the Subdivision Certificate for the plan of subdivision that creates proposed lot 502, or the first plan of subdivision that creates the first Final Lot adjacent to proposed lot 502, the Developer is to complete the embellishment of the park.
