## Infrastructure and capital

### Summary of works on private land

Tweed Shire Council did not carry out any work on private land that was fully or partly subsidised by Council during the year ending 30 June 2023.

### Capital works

Council did not undertake any capital works projects valued at greater than 10% of Council's ordinary rate.

### Development contribution plans

When new development takes place, Council charges developers local infrastructure contributions, also known as developer contributions. These are based on Section 7.11 (formerly Section 94) of the *Land and Environmental Assessment Act*, which allows Council to levy these contributions. They help pay for infrastructure such as parks, community facilities, local roads, footpaths, stormwater drainage and traffic management.

Developers contribute to these infrastructure projects by paying money, donating land, delivering works-in-kind (building pieces of infrastructure) or a mix of these.

The following is a summary of the projects that were funded by developer contributions in the 2022-23 financial year.
