

East Seaham Road Community update

January 2025

We're currently working through the approval process for stage 5 and 6 of road reconstruction^s works on a section of East Seaham Road. This approval process includes the development of a full Environmental Impact Statement (EIS) as part of the design and planning of this project.

The scope of the project includes:

- Reconstructing a section of East Seaham Road to become sealed and match road widths of previously constructed stages of East Seaham Road
- Upgrading drainage infrastructure
- Install road safety barriers where required

This project has been made possible thanks to funding via the Federal Blackspot project, Federal Local Roads and Community Infrastructure (LRCI) funds and funding from the \$10M NSW Government election commitment.

Community drop-in information session

You're invited to a drop-in information session to ask questions and learn more about this important local project on Wednesday 5 February 2025 anytime between 4pm and 6pm at Seaham School of Arts, 10 Warren Street, Seaham.

Next steps

There'll be further opportunity for comment during the public exhibiton period of the draft EIS prior to the commencement of works.

Depending on the outcomes of the approval process, construction resource availability and weather conditions, works are scheduled to commence in mid 2025.

Keep up to date!
