Identification of how the Planning Agreement promotes the public interest and the objects of the Act

The Planning Agreement promotes the public interest and the objects of the Act by providing land for public purposes (in the form of the dedication of land to the Council) in the vicinity of the development.

Identification of how the Planning Agreement promotes elements of the Council's Charter under the *Local Government Act 1993*

The Planning Agreement is consistent with the following guiding principles for Councils in section 8A of the *Local Government Act 1993* (which have replaced the Council Charter):

- In exercising functions generally:
 - Councils should carry out functions in a way that provides the best possible value for residents and ratepayers.
 - Councils should plan strategically, using the integrated planning and reporting framework, for the provision of effective and efficient services and regulation to meet the diverse needs of the local community.
 - Councils should work co-operatively with other councils and the State government to achieve desired outcomes for the local community.
 - Councils should manage lands and other assets so that current and future local community needs can be met in an affordable way.
 - Councils should work with others to secure appropriate services for local community needs.
- In decision making:
 - Councils should recognise diverse local community needs and interests.

- Councils should consider the long term and cumulative effects of actions on future generations.

The Planning Agreement is consistent with and promotes these principles in that it establishes a long term mechanism for mitigating the costs of the impacts of the Development on residents and ratepayers by requiring the Developer (The Developer) to:

- dedicate the land to the Council as a local park for the benefit of the community;
- dedicate the land to the Council as passive open space for the benefit of the community;
- dedicate the land to the Council as a stormwater basin for the benefit of the community; and
- contribute a monetary amount towards cost of maintenance of that drainage reserve and stormwater management infrastructure.

Identification of the planning purpose served by the Planning Agreement and whether the Planning Agreement provides for a reasonable means of achieving that purpose

The planning purpose served by the Planning Agreement is the provision of land for public purposes (in the form of the dedication of land to the Council) and the provision of a monetary contribution towards the cost of maintenance of that drainage reserve and stormwater management infrastructure.

The Planning Agreement provides a reasonable means of achieving these public purposes.

Identify whether the agreement, amendment or revocation conforms with the planning authority's capital works program (if any),

The planning agreement identifies works that are not identified in Council's capital works program.

Identification of the certain requirements of the agreement must be complied with before a construction certificate, occupation certificate or subdivision certificate is issued

The Planning Agreement requires the dedication of land as a drainage reserve and payment of a monetary contribution for the future costs of the maintenance of that reserve prior to the release of a subdivision certificate.

How the Planning Agreement promotes the public interest

The Planning Agreement promotes the public interest by providing land for use a drainage reserve and a contribution towards the cost of maintaining stormwater and drainage infrastructure.
