NOTE:

- Figure dimensions shall take precedence over scale.
- Contractors must verify all dimensions on job before commencing any work or making shop drawings.
- All structural works including demolition to be verified by Structural Engineer prior to contractor undertaking any works. All structural landscaping and building works to be undertaken by suitably qualified, insured and licensed persons in the field only. Supervision and coordination of such work to be undertaken by suitably qualified, insured, licensed and experienced structural landscaper and/or builder only.
- Verify all plant numbers on site prior to ordering and advise Landscape Architect if any changes are deemed necessary. Responsibility of number of plant stock ordered rests solely with contractor not Landscape Architect. Plant schedule for approval process only, not to be used for orders or quotes. Set out instructions as given on site by TWLA including any amendments to plant species and type as given on site remain the responsibility of contractor to update quote and order accordingly. Plant schedule as guide only.
- Automatic irrigation system to be installed by irrigation subcontractor who is a suitably qualified, insured and licensed persons in the field only.
- Check existing RL's and all soil depths on site. Advise Landscape Architect of any discrepancies before commencement. Allow for adjustments to suit discrepancies.
- Contractor/s to familiarize self and team with existing site conditions prior to undertaking any works, including any underground services.
- Forest Fines Mulch from Australian Native Landscapes to be evenly distributed under all completed garden beds post soil, plant, irrigation and electrical install (Ph: 13 14 58).
- Lighting to be from Nocturnal Lighting (Sydney Distributor Ph: 02 9699 6007) or Lumascope Lighting (+61 7 3854 5000), to electrician detail. Allow for power to all garden beds as directed by TWLA.
- Pot selection from The Balcony Garden and Martin Kellock Pots, TBD by TWLA.
- Any natural materials used in the project including but not limited to timber, stone and plant material, may change in appearance and dimension following exposure to use or climatic conditions and this is typical of such materials. Any discrepancy regarding natural or non-natural material to be directed to supplier, landscape contractor, stonemason, manufacturer or the like. No responsibility for material used on project rests with Landscape Architect.
- Comply with relevant authority requirements.
- Comply with National Construction Code requirements.
- Comply with Australian Standards for material, construction and landscape practice.
- Comply with BASIX certificate, if applicable.
- Do not scale from drawings.
- This drawing is protected by copyright.
