woolcott research

Background & Methodology

- The aim of this study was to investigate the support for a new supermarket.
- n=400 residents were interviewed using a CATI (Computer Assisted Telephone Interviews) system.
- Fieldwork was conducted between 5th – 20th May 2011 by Woolcott Research, in accordance with Market Research Society of Australia Standards.
- All participants were main or joint grocery buyers living in the Chatswood Area, as defined below:

Suburb	North Willoughby	East Willoughby	Middle Cove	Castle Cove	East Lindfield	Roseville	Roseville Chase	Chatswood
	11%	5%	4%	7%	11%	22%	5%	37%

Age	18-29 years	30-39 years	40-49 years	50-59 years	60-69 years	70 years or more
	6%	12%	24%	26%	14%	18%

- The margin for statistical error on a sample of 400 is within 4.9 percentage points in 95 out of 100 cases. The margin for error and caution should be applied when analysing demographic sub groups (e.g. age or suburb) within this sample.

Frequency of Grocery Shopping

Q1. How often would you say you visit a supermarket to do grocery shopping?
(IF NECESSARY): If you visit more than one store on a grocery shopping trip, please count this as one trip.

Base: All Respondents (n=400)

woolcott research

Frequently Visited Stores

Q2. Can I ask, which supermarkets do you regularly visit? Are there any others you regularly visit? .

Base: All Respondents (n=400)

Q6. If there was a proposal for a new, stand alone, full-range Woolworths supermarket next to the new Bunnings on Smith Street in Chatswood, with parking underneath the store, would you be in favour, or against it?

Base: All Respondents against the new supermarket (n=59)

woolcott research

Reasons For **Support** of New Store

	In Favour N=207 %
It is convenient \ to my home, work \ closer than others	38%
The parking will be convenient \ better than elsewhere	17%
Having some competition will be good \ prices may benefit	16%
I like Woolworths \ will be good to have one here	14%
It will be easier to get in and out of \ like not having to negotiate the busy areas	12%
It would give more choice	9%
Its convenient \ easy NFI*	8%
It will take some pressure off the other centres \ make them less congested	6%
Because of its proximity to Bunnings \ we go to Bunnings	5%
I like that its stand-alone	5%
Because Chatswood doesnt have a Woolworths	4%
I would worry that it may make traffic worse	1%
Other	8%
Dont know	1%

Q7. Why would you be in in favour of this supermarket?

Base: All Respondents in favour of new supermarket (n=272)

* NFI – No Further Information

woolcott research

Reasons For Being **Against** New Store

	Against n=59 %
Theres too much congestion now \ it will make traffic worse	32%
No need \ have enough supermarkets as it is	22%
Too far away from me \ hard to get to	17%
Im over the big conglomerates \ want to support smaller centres	15%
I dont like Woolworths	8%
Because its in an awkward spot \ access would be awkward	8%
Too far away from everything else \ other shops	5%
Chatswood is already overdeveloped	5%
Other	10%

Q7. Why would you be in against this supermarket?

Base: All Respondents against new supermarket (n=59)

Desire for Discussion with Local Community

Would like to see this proposal for a new supermarket put forward for consideration and discussion within the local community, 80%

Would not like to see this proposal for a new supermarket put forward for consideration and discussion within the local community, 11%

Don't know / No preference, 9%

Q9.

Would you like to see this proposal for a new supermarket put forward for consideration and discussion within the local community?

Base: All Respondents (n=400)

woolcott research

Summary of Results

- There is a great deal of support for the opening of a new Woolworths store in Chatswood, with almost three quarters of respondents (68%) indicating they were either strongly or somewhat in favour of the new store.
- Similarly, 68% of respondents indicated that they were very likely or somewhat likely to shop at the new store.
- The majority of respondents (80%) would however like to see a proposal for the new supermarket put forward for consideration and discussed with the local community.
- Those that were in favour of the supermarket said it would be convenient from their home or workplace (38%) and felt that the parking would be better than elsewhere (17%).
 - ⇒ Some also mentioned that a new store would increase competition in the area which may affect prices (16%), and that they liked Woolworths and would like one nearby (14%).
 - ⇒ The location was also a plus, with 12% saying that the new supermarket would be easier to get in and out of and that they would not have to negotiate the busy areas (12%).
- Those who were not in favour of the new supermarket believed it could lead to more traffic congestion (32%), and felt that there was no need for it in the area (22%).

Summary of Results

- ➔ Those who would be more likely to shop at the new store included:
 - ⇒ Those with an annual income over \$150,000 (83%, compared to the total of 68%)
 - ⇒ Those who currently shop at Woolworths Northbridge (79%)
 - ⇒ Residents of North or East Willoughby / Middle Cove / Castle Cove (76%)
 - ⇒ Those aged 40-59 years of age (76%)
 - ⇒ Those under 40 years of age (75%)
- ➔ Interestingly, residents of North Willoughby, East Willoughby, Middle Cove and Castle Cove were initially more likely to be against the new supermarket (18%, compared to 15% for the total respondent base), but then indicated they were more likely to shop there (76%, compared to 68%).
- ➔ There is a possibility that the new Woolworths store in Chatswood could attract customers from Woolworths Northbridge in particular, with 39% of those who indicated they would be likely to shop at the new Woolworths currently shopping at Woolworths Northbridge regularly.
