Dear Mr Hickey

Planning proposal to amend Ballina Local Environmental Plan 2012

I am writing in response to your Council's letter dated 29 July 2013 requesting a Gateway determination under section 56 of the Environmental Planning and Assessment Act 1979 ("EP&A Act") in respect of the planning proposal to rezone Lot 31 DP 1183600 at Plateau Drive, Wollongbar from part R3 Medium Density Residential and part 'deferred matters' to R2 Low Density Residential, R3 Medium Density Residential and E3 Environmental Management and realign zone boundaries.

As delegate of the Minister for Planning and Infrastructure, I have now determined the planning proposal should proceed subject to the conditions in the attached Gateway determination.

While Council's proposal to rezone the subject land at Wollongbar for residential purposes is supported, the proposal to zone land currently deferred from Ballina Local Environmental Plan (LEP) 2012 and partly zoned R3 Medium Density Residential to E3 Environmental Management is not supported at this time. The department is currently coordinating the 'Review of environmental zones in Far North Coast,' which reviews the application of environmental zones and overlays in the Far North Coast. Given the Review has not yet been completed, zoning the subject land to E3 Environmental Management is not appropriate at this time and is to await the outcomes of the Review. Consequently, prior to undertaking public exhibition, the planning proposal is to be amended to remove the proposal to zone land at Wollongbar to E3 Environmental Management.

I have also agreed the planning proposal's inconsistency with S117 Direction 3.1 Residential Zones is of minor significance. No further approval is required in relation to this Direction.

Council may still need to obtain the Director General's agreement to satisfy the requirements of relevant S117 Directions. Council should ensure this occurs prior to the plan being made.

The Minister delegated his plan making powers to councils in October 2012. It is noted that Council has now accepted this delegation, however has asked not to use its delegation for the making of this plan. I have considered the nature of Council's planning proposal and have decided to issue an authorisation for Council to exercise delegation to make this plan because the proposal is considered to be of local significance. Council should contact the regional office of the department should it require assistance in relation to the exercise of its delegation.

The amending LEP is to be finalised within 6 months of the week following the date of the Gateway determination. Council should aim to commence the exhibition of the planning proposal as soon as possible. Council's request to draft and finalise the LEP should be made directly to Parliamentary Counsel's Office 6 weeks prior to the projected publication date. A copy of the request should be forwarded to the department for administrative purposes.

The State Government is committed to reducing the time taken to complete LEPs by tailoring the steps in the process to the complexity of the proposal, and by providing clear and publicly available justification for each plan at an early stage. In order to meet these commitments, the Minister may take action under section 54(2)(d) of the EP&A Act if the time frames outlined in this determination are not met.

Should you have any queries in regard to this matter, please contact Jon Stone of the regional office of the department on 02 6701 9689.

Yours sincerely

Richard Pearson

Gateway Determination

Planning proposal (Department Ref: PP_2013_BALLI_006_00): to rezone land at Wollongbar for residential and environmental purposes.

I, the Deputy Director General, Planning Operations and Regional Delivery at the Department of Planning and Infrastructure as delegate of the Minister for Planning and Infrastructure, have determined under section 56(2) of the EP&A Act that an amendment to the Ballina Local Environmental Plan (LEP) 2012 to rezone Lot 31 DP 1183600 at Plateau Drive, Wollongbar from part R3 Medium Density Residential and part 'deferred matters' to R2 Low Density Residential, R3 Medium Density Residential and E3 Environmental Management and realign zone boundaries should proceed subject to the following conditions:

1. The proposal to zone land currently deferred from Ballina LEP 2012 or currently zoned R3 Medium Density Residential to E3 Environmental Management is not supported at this time and is to be removed from the planning proposal, prior to undertaking public exhibition. The zoning of this land for environmental purposes can be progressed as a future amendment, once the 'Review of environmental zones in Far North Coast' has been completed and the recommendation of the Review can be considered and addressed. The planning proposal is to be updated to advise that an appropriate zoning for this land will be considered, following finalisation of the Review.
2. Prior to undertaking public exhibition, Council is to amend 'Map 1 - The Subject Land' and 'Map 3 - Proposed Zoning' within the planning proposal to only refer to the land proposed to be zoned for residential purposes.
3. Community consultation is required under sections 56(2)(c) and 57 of the Environmental Planning and Assessment Act 1979 ("EP&A Act") as follows:
 - (a) the planning proposal is classified as low impact as described in *A Guide to Preparing LEPs (Department of Planning & Infrastructure 2013)* and must be made publicly available for a minimum of **14 days**; and
 - (b) the relevant planning authority must comply with the notice requirements for public exhibition of planning proposals and the specifications for material that must be made publicly available along with planning proposals as identified in section 5.5.2 of *A Guide to Preparing LEPs (Department of Planning & Infrastructure 2013)*.
4. Consultation is required with the NSW Rural Fire Service (RFS) as per the requirements of S117 Direction 4.4 Planning for Bushfire Protection. No other consultation is required under section 56(2)(d) of the EP&A Act. RFS is to be provided with a copy of the planning proposal and any relevant supporting material, and given at least 21 days to comment on the proposal. If necessary, the planning proposal is to be updated to take into consideration any comments made by RFS, prior to undertaking public exhibition.
5. A public hearing is not required to be held into the matter by any person or body under section 56(2)(e) of the EP&A Act. This does not discharge Council from any obligation it may otherwise have to conduct a public hearing (for example, in response to a submission or if reclassifying land).

6. The timeframe for completing the LEP is to be **6 months** from the week following the date of the Gateway determination.
