

Proposal Title :	 Ballina LEP 1987 – Private Native Forestry Provisions. The planning proposal seeks to amend Ballina LEP 1987 by; Adding definitions for 'forestry' and 'private native forestry' to the LEP; Requiring development consent for private native forestry in the 1(b) Rural (Secondary Agricultural Land), 1(d) Rural (Urban Investigation), 1(e) Rural (Extractive and Mineral Resources), 7(c) Environmental Protection (Water Catchment), 7(f) Environmental Protection (Coastal Lands) and 7(I) Environmental Protection (Habitat) zones. Adding a clause to the LEP which specifies matters to be considered when determining a development application for private native forestry.

Ballina LEP 1987 – Private Native Forestry Provisions. Land Release Data Growth Centre : Release Area Name : Regional / Sub Consistent with Strategy : **Regional Strategy**: MDP Number : Date of Release: Type of Release (eg Area of Release (Ha) : Residential / Employment land) : No. of Lots : No. of Dwellings 0 (where relevant) : Gross Floor Area : No of Jobs Created : 0 The NSW Government Yes Lobbyists Code of Conduct has been complied with : If No, comment: Have there been No meetings or communications with registered lobbyists?: If Yes, comment Supporting notes Internal Supporting Notes : External Supporting Ballina LEP 1987 applies only to land deferred from the Ballina LEP 2012. The proposal Notes : does not seek to amend Ballina LEP 2012. Adequacy Assessment Statement of the objectives - s55(2)(a) Is a statement of the objectives provided? Yes Comment : The Statement of objectives adequately describes the intention of the planning proposal. The proposal seeks to require development consent for private native forestry in zones 1(b) Rural (Secondary Agricultural Land), 1(d) Rural (Urban Investigation), 1(e) Rural (Extractive and Mineral Resources), 7(c) Environmental Protection (Water Catchment), 7(f) Environmental Protection (Coastal Lands) and 7(I) Environmental Protection (Habitat) in the Ballina LEP 1987 and introducing a clause that specifies matters to be considered

Explanation of provisions provided - s55(2)(b)

Is an explanation of provisions provided? Yes

Comment :

The explanation of provisions adequately addresses the intended method of achieving the objectives of the planning proposal. The planning proposal will include definitions for 'forestry' and 'private native forestry' in the Ballina LEP 1987 and will amend the land use tables for the respective zones to ensure 'private native forestry' is required with consent.

The proposal also introduces a clause that specifies matters to be considered when determining applications for private native forestry.

when determining applications for private native forestry.

It is recommended that the Gateway Determination require that the RPA exhibit a plain English document which explains the intent of the proposed clause in addition to the draft clause which may be changed by Parliamentary Counsel's Office when the plan is drafted.

Justification - s55 (2)(c)

a) Has Council's strategy been agreed to by the Director General? No

b) S.117 directions identified by RPA :

* May need the Director General's agreement

1.2 Rural Zones 1.5 Rural Lands

2.1 Environment Protection Zones

- 2.2 Coastal Protection
- 2.3 Heritage Conservation
- 2.4 Recreation Vehicle Areas
- 3.1 Residential Zones
- 3.2 Caravan Parks and Manufactured Home Estates
- **3.3 Home Occupations**
- 3.4 Integrating Land Use and Transport
- 3.5 Development Near Licensed Aerodromes
- 4.1 Acid Sulfate Soils
- 4.3 Flood Prone Land
- 4.4 Planning for Bushfire Protection
- 5.1 Implementation of Regional Strategies
- 5.3 Farmland of State and Regional Significance on the NSW Far North Coast
- 5.4 Commercial and Retail Development along the Pacific Highway, North Coast
- 6.1 Approval and Referral Requirements
- 6.2 Reserving Land for Public Purposes

Is the Director General's agreement required? Yes

c) Consistent with Standard Instrument (LEPs) Order 2006 : No

d) Which SEPPs have the RPA identified?

SEPP (Rural Lands) 2008

e) List any other matters that need to be considered :

Have inconsistencies with items a), b) and d) being adequately justified? Yes

If No, explain :

See the assessment section of his report

Mapping Provided - s55(2)(d)

Is mapping provided? No

Comment :

No maps are required for the LEP amendment. The planning proposal does not propose any amendments to the LEP maps. The planning proposal contains maps which show the extent of the land within Ballina Shire to which the proposed provisions will apply. The proposed provisions will only apply to that land which is deferred from the Ballina LEP 2012 and to which the Ballina LEP 1987 applies.

Community consultation - s55(2)(e)

Has community consultation been proposed? Yes

Comment :

The planning proposal nominates a community consultation period of 14 days. The RPA has requested a consultation period of 14 days so as to prevent pre-emptive clearing of native vegetation. It is considered that the proposal is a 'low impact' proposal as it is consistent with the strategic planning framework, presents no infrastructure servicing issues and does not reclassify public land. It is also considered that the proposal is effectively clarifying the Council's position on the requirement for consent for private native forestry and therefore a community consultation period of 14 days is considered

÷.

to be appropriate.

Additional Director General's requirements

Are there any additional Director General's requirements? No

If Yes, reasons :

Overall adequacy of the proposal

Does the proposal meet the adequacy criteria? Yes

If No, comment 🗧

Time Line

The RPA has provided a project timeline which estimates the completion of the planning proposal in May 2015. While the RPA is likely to progress this proposal relatively quickly, it is recommended that a 9 month period for completion is given to allow time to address matters that may arise from community consultation.

Delegation.

Council has provided a completed 'Evaluation Criteria for the Delegation of Plan Making Functions' form. The evaluation concludes that the proposal can be delegated to Council for making of the LEP amendment. Since the planning proposal relates to an amendment to the Ballina LEP 1987 which is not a Standard Instrument LEP, it is considered that an Authorisation for the execution of delegation can be issued to Ballina Council in this instance.

Overall Adequacy

The planning proposal satisfies the adequacy criteria by;

1. Providing appropriate objectives and intended outcomes.

2. Providing a suitable explanation of the provisions proposed for the LEP to achieve the outcomes.

- 3. Providing an adequate justification for the proposal.
- 4. Outlining a proposed community consultation program.
- 5. Providing a project time line
- 6. Providing an evaluation of the delegation of plan making functions

Proposal Assessment

Principal LEP:

Due Date :

Comments in relation to Principal LEP :

This planning proposal seeks an amendment to the Ballina LEP 1987 and will apply only to the land deferred from the Ballina LEP 2012.

Assessment Criteria

Need for planning proposal :

The proposal to amend the LEP to introduce controls for private native forestry (PNF) is not directly the result of a specific strategic study or report. Council is concerned with the ecological and amenity impacts that PNF is having in the local government area (LGA). The Ballina Shire Koala Habitat and Population Assessment 2013 identified the loss of koala habitat as a primary threat to koala populations and Council considers PNF to be a potential cause of habitat loss. The RPA intends to require consent for PNF in order to address the ecological and amenity impacts and the potential for loss of koala habitat through this land use.

Native vegetation cannot be cleared, including for the purposes of PNF, without an approval under the Native Vegetation Act 2003 (NVA). Typically, for PNF, this approval constitutes a property vegetation plan (PVP). However obtaining approval under the NVA does not negate the need for approval to clear vegetation or undertake forestry activities under the Environmental Planning and Assessment Act 1979.

A proposal for PNF must comply with the Private Native Forestry Code of Practice for Northern NSW as specified under the Native Vegetation Regulation 2013. However this code of practice does not require the proponent to consider matters such as visual impact, impacts on surrounding road networks and the amenity of neighbouring properties.

Much of the land within Ballina LGA which is currently suited to PNF is deferred from the Ballina LEP 2012 as Council had proposed to apply an E zone to this land in the 2012 LEP. Land to which an E zone was to be applied has been deferred from the Ballina LEP 2012 until the Northern Councils E Zone Review has been completed.

Council currently advises proponents that consent is required for PNF under the Ballina LEP 1987, however this is not clear in the provisions of the LEP, as 'foresty' as defined in the LEP is permitted without consent in the 1(b), 1(d) and 1(e) zones. The planning proposal therefore seeks to clarify the requirements for PNF. The amendment to Ballina LEP 1987 will require development consent for PNF on land in the 1(b) Rural (Secondary Agricultural Land), 1(d) Rural (Urban Investigation), 1(e) Rural (Extractive and Mineral Resources), 7(c) Environmental Protection (Water Catchment), 7(f) Environmental Protection (Coastal Lands) and 7(I) Environmental Protection (Habitat) zones.

PNF will be permissible with consent in the 1(b), 1(d) and 1(e) zones since they are open zones and the addition of a definition for PNF to the LEP will make it an innominate use in these zones.

Forestry is currently permissible with consent in the 7(c), 7(f) and 7(l) zones. The amendment to the LEP will add PNF to the land use tables of these zones to make it permissible with consent.

The planning proposal also proposes to include provisions which require the consideration of certain matters when a development application for PNF is received. This is appropriate, however the planning proposal contains a clause which is already drafted and which may be changed by Parliamentary Counsel's Office to meet current legal drafting requirements. It is recommended that the planning proposal be amended to include a plain English explanation of what the clause intends to achieve to ensure the final drafting of the provisions achieves the intent of the planning proposal.

Council considers the definition of forestry in the Ballina LEP 2012 to include private native forestry, and therefore an amendment to the Ballina LEP 2012 is not necessary. Ballina LEP 2012 requires consent for forestry in the RU1, RU2, IN1, RE1 and RE2 zones and prohibits forestry in the remaining zones.

The proposed amendment to the Ballina LEP 1987 is the most efficient means of introducing specific controls for managing PNF in the LGA. The protection of koala habitat could be indirectly achieved through the adoption of a comprehensive koala plan of management (KPoM) for the LGA which identified core koala habitat. The Private Native Forestry Code of Practice for Northern NSW does not permit PNF on land identified as core koala habitat in a KPoM. However this would prevent PNF altogether on land which may have significant timber resources and for which negative impacts can be adequately mitigated. Therefore provisions which require certain matters to be considered before PNF is consented to is a more balanced and appropriate approach.

The NSW Office of Environment and Heritage is conducting a review of biodiversity legislation in NSW. The Final Report released on 18 December 2014, identifies the need to resolve the issue of dual consent for clearing or harvesting native vegetation, and recommends the introduction of appropriate regulatory arrangements for timber harvesting on private land. Until these reforms are introduced the proposed amendment to LEP 1987 is considered the most appropriate mechanism for controlling the impacts of PNF.

Consistency with
strategic planning
framework :

Far North Coast Regional Strategy (FNCRS)

The proposed amendment to the Ballina LEP 1987 to include provisions for PFN is not inconsistent with the FNCRS. The proposal will require consent for PNF which has the potential to have an adverse impact on the biodiversity and amenity of rural land. In requiring consent Council will be able to mitigate any adverse impacts from PNF while enabling the continued use of timber resources for the economic benefit of the region. The proposal is also consistent with the Far North Coast Regional Conservation Plan, the preparation of which was an action in the FNCRS.

Local Strategic Plans

The proposed provisions are not inconsistent with the RPA's Community Strategic Plan.

SEPPS

The proposal is not inconsistent with any State environmental planning policies (SEPPs). While many SEPPs apply to the subject land the introduction of provisions in the LEP to manage the impact of PNF is not inconsistent with the provisions of any SEPP.

Standard Instrument LEP

The Ballina LEP 1987 is not a Standard Instrument LEP and therefore the proposed additions are not inconsistent with the mandatory clauses of the Standard Instrument LEP.

S117 Directions.

The following S117 directions are applicable to the proposal 1.2 Rural Zones, 1.5 Rural Lands, 2.1 Environmental Protection Zones, 2.2 Coastal Protection, 2.3 Heritage Conservation, 2.4 Recreation Vehicle Areas, 3.2 Caravan parks and Manufactured Home Estates, 3.3 Home Occupations, 3.5 Development Near Licensed Aerodromes, 4.1 Acid Sulfate Soils, 4.3 Flood Prone Land, 4.4 Planning for Bushfire Protection, 5.1 Implementation of Regional Strategies, 5.3 Farmland of State and Regional Significance on the NSW Far North Coast, 6.1 Approval and Referral Requirements, and 6.2 Reserving Land for Public Purposes.

Of the above s117 Directions the proposal is inconsistent with Direction 4.4.

Direction 4.4 Planning for Bushfire Protection is relevant to the proposal. The proposed PNF provisions will apply to large areas of vegetated land in the LGA some of which is bush fire prone. The Direction requires the RPA to consult with the Commissioner of the NSW Rural Fire Service before exhibition. This can occur after a gateway determination has been issued. Until this consultation has occurred the consistency of the proposal with the direction remains unresolved.

The planning proposal is otherwise consistent with S117 directions.

Environmental social economic impacts :

The planning proposal will not have any direct adverse impact on critical habitat or threatened species, populations or ecological communities, or their habitats. Similarly the planning proposal will not have any direct adverse effect on the natural, built or socio-economic environment. The proposal seeks to introduce provisions to control PNF and require consideration of matters such as biodiversity, and amenity.

The planning proposal has the potential to have indirect effects on the economic environment as consent will be required for PNF. However it is considered that this impact is minor in comparison to the beneficial impact of enabling mitigation measures to be applied through conditions of consent for PNF activities which may be adversely affecting other land uses or the environment in the LGA.

The planning proposal has given consideration to social and economic impacts of the proposed amendment. The social and economic impacts will be largely positive as the introduction of the PNF provisions will provide clarity for the industry and have the potential to reduce the adverse impacts of the PNF on the community.

3.4 Integrating Land Use and Transport 3.5 Development Near Licensed Aerodromes

	4.1 Acid Sulfate Soils			
	4.3 Flood Prone Land			
	4.4 Planning for Bushfire Protection			
	5.1 Implementation of Regional Strategies			
	5.3 Farmland of State and Regional Significance on the NSW Far North Coast			
	5.4 Commercial and Retail Development along the Pacific Highway, North Coast			
	6.1 Approval and Referral Requirements 6.2 Reserving Land for Public Purposes			
8				
Additional Information :	It is recommended that;			
	1. The planning proposal proceed as a 'routine' planning proposal.			
	2. The planning proposal is to be completed within 9 months.			
	3. Prior to undertaking community consultation, Council is to amend the 'Explanation of			
	Provisions' within the planning proposal to provide a plain English description of the			
	intended outcomes from the proposed heads of consideration clause for private native forestry.			
	4. That a community consultation period of 14 days is necessary for the planning proposal.			
	5. That the RPA consult with the Commissioner of the NSW Rural Fire Services in accordance with the requirements of S117 Direction 4.4 Planning for Bushfire Protection.			
	6. That the RPA consult with;			
	a. NSW Office of Environment and Heritage			
	b. NSW Environment Protection Authority			
	c. NSW Department of Primary Industry - Forests			
Supporting Reasons :	The reasons for the recommendation are as follows:			
	 The proposed provisions will clarify the requirements for private native forestry in the Ballina shire. 			
	 The proposed provisions will enable the potential adverse impacts of private native forestry to be addressed through the development application process. 			
	3. The proposed provisions are not inconsistent with the strategic planning framework.
