PLANNING PROPOSAL FOR 2 PERCY STREET, AUBURN

Responsible Division: Environment & Planning
Officer: Director Environment & Planning
File Number: PP-2/2017
Community Strategic Plan Goal: *A resilient built environment*

SUMMARY

This planning proposal seeks to add 'Educational Establishments' as an additional permitted use at 2 Percy Street, Auburn. There is also a State Significant Development (SSD) application for a school on the site that will be assessed and determined by the Department of Planning, Industry and Environment.

As required by Council's resolution and the Gateway Determination, the planning proposal has been publicly exhibited for a period of 28 days. This report outlines the feedback received during exhibition.

A public benefit offer has also been made by the applicant for the site. This offer is fair and reasonable, and also consistent with Council's Planning Agreements Policy.

It is recommended that the planning proposal be forwarded to the Department of Planning, Industry and Environment for finalisation and gazettal. It is also recommended that the public offer is endorsed in-principle, and that it is captured through a condition of approval for the SSD application.

RECOMMENDATION

That Council:

1. **Forward the planning proposal for 2 Percy Street, Auburn, to the Department of Planning, Industry and Environment for finalisation and gazettal.**
2. **Endorse in-principle the public benefit offer by the applicant, as provided in Attachment 4, subject to the gazettal of the planning proposal and approval of the State Significant Development Application for the site by the Department of Planning, Industry and Environment.**
3. **Endorse that the preparation and execution of a Voluntary Planning Agreement for the public benefit offer be included as a condition of approval by the Department of Planning, Industry and Environment for the State Significant Development Application on the site.**

REPORT

Background

A planning proposal request for land at 2 Percy Street, Auburn, was lodged with Council in May 2017. This request sought to introduce 'educational establishment' as an additional permissible use, via an amendment to Schedule 1 of the *Auburn Local Environmental Plan 2010 (Auburn LEP 2010)*.

In February 2018, a Gateway Determination was issued that required a number of conditions to be addressed prior to proceeding to public exhibition. These conditions were met and in July 2019, Council endorsed the public exhibition of the planning proposal.

The proponent has also lodged a State Significant Development (SSD) application with Planning, Industry and Environment to permit a school for up to 750 students on the site.

The status of the planning proposal is provided in Figure 1

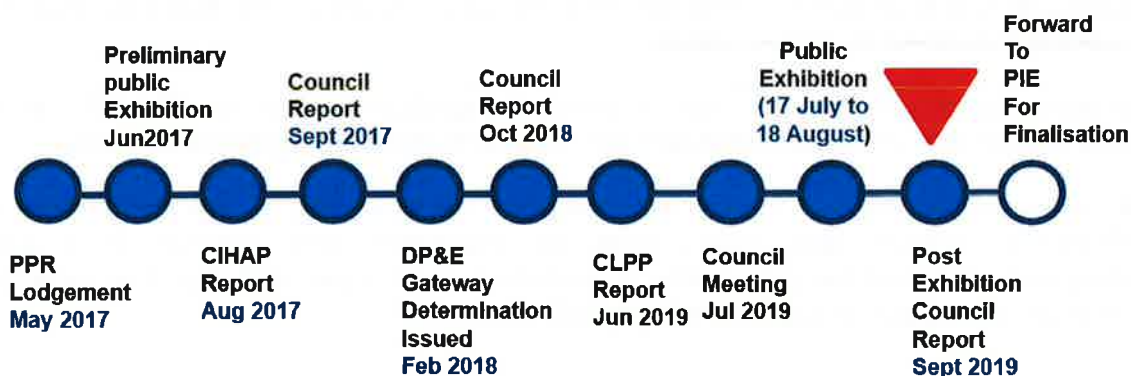

Figure 1 Planning Proposal Status

Public Exhibition of Planning Proposal

Public Submissions

165 public submission were received during the exhibition period. 163 submissions were in support of the International Maarif School. Two submissions did not provide comment. No submissions objected to the planning proposal or the operation of a school.

No direct planning issues were raised in the submissions received. The issues raised in the submission were general comments supporting the operation of a school and included:

- There is a need for more schools to support the growing school aged population in Auburn
- There is an urgent demand for this school and parents are eagerly waiting to transfer their children to the new Auburn campus from Turella
- Students currently endure long travel times to attend the school in Turella and the proposed school at 2 Percy Street will assist to reduce travel times.
- General support for the education provided by the International Maarif School

A summary of the key issues raised in the submissions is included as Attachment 1 to this report.

Public Authority Consultation

The Gateway Determination required Council to consult with the following public authorities:

- Department of Education
- Environment, Energy and Science (Former Office of Environment and Heritage)
- Crown Lands

Additional consultation with Transport for NSW and Roads and Maritime Services was not required, as the Gateway Determination required consultation with these authorities prior to public exhibition, and any issues were resolved prior to the planning proposal being publicly exhibited.

The Crown Lands submission did not raise any objection to the planning proposal.

The Department of Environment, Energy and Science identified issues in relation to the number of students to be accommodated for a school on the site, as well as a range of other matters. The issues identified are not relevant to the planning proposal, as they relate specifically to the SSD application.

No submission was received from the Department of Education.

Further information on public authority submissions is provided in Attachment 2.

Public Benefit Offer

As reported to Council on 3 July 2019, a public benefit offer through a Voluntary Planning Agreement with Council is being pursued under the SSD application instead of the planning proposal as originally sought.

Council obtained an independent valuation of the potential increase in residual land value arising from the planning proposal (Attachment 3). In accordance with Council policy, the total value of development contributions to be made under a planning agreement will be equivalent to 50% of the increase in residual land value arising from the development proposal.

An offer has been made by the applicant to provide a monetary contribution that reflects 50% of the increase in residual land value arising from the development

proposal (Attachment 4). The offer by the applicant is fair and reasonable, and is also consistent with Council's Planning Agreements Policy. It is proposed that the contribution funding derived from the public benefit offer be used to upgrade facilities in Wyatt Park.

It is also recommended that the preparation and execution of a Voluntary Planning Agreement for the public benefit offer be included as a condition of approval by the Department of Planning, Industry and Environment for the State Significant Development Application on the site. This will provide certainty on the approach moving forward for the public benefit offer in relation to the planning proposal and SSD application. This approach is also supported by the applicant (Attachment 5).

Next Steps

Subject to Council endorsement, the following activities will be undertaken to complete the planning proposal process:

- The planning proposal will be forwarded to the Department of Planning, Industry and Environment for finalisation and gazettal
- Council provides a formal submission to the Department of Planning, Industry and Environment regarding the inclusion of a condition regarding the preparation of a Voluntary Planning Agreement as part of the SSD application
- The SSD application is assessed and determined by the Department of Planning, Industry and Environment
- Should the SSD application be approved, a Voluntary Planning Agreement will be negotiated between the proponent and Council

COMMUNITY ENGAGEMENT

The planning proposal was exhibited from Wednesday 17 July 2019 to Sunday 18 August 2019.

Letters were sent to nearby landowners, a notice on Council's Have Your Say Page and an advertisement placed in Auburn Review, informing the public of the exhibition of the Planning Proposal. The exhibition material, including the Planning Proposal, was available for view, on Council's website, at Cumberland Council's Administration buildings in Auburn and Merrylands, and in the Auburn Library.

POLICY IMPLICATIONS

The planning proposal will result in an amendment to the *Auburn LEP 2010* upon finalisation and gazettal.

RISK IMPLICATIONS

There are minimal risk implications for Council associated with this report.

FINANCIAL IMPLICATIONS

Financial implications are outlined in the main body of the report.

CONCLUSION

This planning proposal seeks to add 'Educational Establishments' as an additional permitted use at 2 Percy Street, Auburn. There is also a State Significant Development (SSD) application for a school on the site that will be assessed and determined by the Department of Planning, Industry and Environment.

The planning proposal has been publicly exhibited for a period of 28 days, and no public submission received objecting to the proposal. A public benefit offer has also been made by the applicant for the site. This offer is fair and reasonable, and also consistent with Council's Planning Agreements Policy.

It is recommended that the planning proposal be forwarded to the Department of Planning, Industry and Environment for finalisation and gazettal. It is also recommended that the public benefit offer is endorsed in-principle, and that it is captured through a condition of approval for the SSD application.

Agency Submissions summarised for PP-2/2017

No	Submission received	Agency	Comments (summarised/paraphrased)	Council's response
01.	13 Aug 2019	NSW Crown Land Division	Confirmed that there are no comments on the proposal.	Submission is noted.
02	14 Aug 2019	Planning and Industry Environment Energy, Environment and Science Group (EES)	No comment is provided in relation to aboriginal cultural heritage. This matter may still need to be considered by the consent authority. EES notes the planning proposal is not consistent with the SSD and when compared to the original proposal 19 May 2019 the current planning has not reduced the proposed number of students. The EES raises the following additional matters in light of the SSD: • Provision of adequate play or open space • Urban tree canopy cover issues • Site landscaping • Flooding	The land subject to this proposal is not affected by any heritage items or conservation areas or any adjacent items listed under Schedule 5 of the <i>Auburn LEP 2010</i>. Currently, there are no listed aboriginal heritage items that affect the site under the <i>Auburn LEP 2010</i>. However, Council is currently undertaking a LGA wide heritage study to inform the Cumberland LEP which is currently under preparation. Any outcomes as a result of this study may need to be considered if relevant prior to determination of the SSD. ----- Council acknowledges that the SSD's proposed students and staff are higher (728 student and 58 staff) than the planning proposal (650 students and 50 staff). Any impacts created as a result would need to be considered and addressed as part of the SSD. Council supports the planning proposal permitting the proposed additional use for an educational establishment on site. Council acknowledges the concerns raised and notes that these matters would need to be addressed as part of the SSD application.

Dear Mr McNulty

Proposed draft condition of consent for SSD 8926, voluntary planning agreement for educational establishment 2 Percy Street, Auburn

We refer to our previous correspondence dated 15 August 2019.

On 16 August 2019, the Australian Turkish Maarif Foundation (**Maarif Foundation**) met with Cumberland Council (**Council**) to discuss the offer from the Maarif Foundation to enter into a Voluntary Planning Agreement (**VPA**) in relation to the State Significant Development Application (**SSDA**) (Reference: SSD 8926) for a new school at 2 Percy Street, Auburn.

It is proposed to establish a VPA under the terms of the SSDA, which would be given effect through the conditions of the consent granted by the Department of Planning, Industry and Environment (**DPIE**) under delegation by the Minister for Planning. Council has requested that the Maarif Foundation provide draft wording of this condition for its review.

Pursuant to those discussions, the Maarif Foundation has, in consultation with its project team, prepared the following draft wording for a proposed condition of consent relating to the requirement for execution of a VPA:

"Prior to the issuing of a Construction Certificate for Stage 2 of the approved development, a Planning Agreement must be executed between the Applicant and Cumberland Council that is in the terms of the offer made by the Applicant to Cumberland Council on 15 August 2019 and summarised in Appendix X of this consent. A copy of the executed Planning Agreement is to be forwarded to the Secretary."

Our client requests that Council confirm its agreement to the above draft wording for a condition of consent before the proposed condition is submitted to DPIE as part of the SSDA material. We would appreciate your response within 7 days of the date of this letter.

Please contact Samantha Daly at our office should you wish to discuss the matter further.
