5.2      SUBJECT      PUBLIC MEETING: Gateway Request: Planning  
Proposal - Increasing Commercial Floorspace in the  
Epping Town Centre  
REFERENCE      F2018/03032 -  
REPORT OF      Team Leader Land Use Planning

The Panel considered the matter listed at Item 5.2, attachments to Item 5.2 and the matters observed at the site inspection

## PUBLIC FORUM

- Margaret McCartney speaking against the proposal.
- Mike Moffatt speaking against the proposal.

All the members of this Panel are aware of the extent and nature of development that has occurred in and around the Epping Town Centre for many years and as a result, the Panel understands the need now for intervention by the council as planning authority to reverse what is considered by most, including the members of the Civic Trust who addressed the Panel, to have brought about an unfortunate and serious loss of commercial space in the Town Centre. This has led to the Centre now having the characteristics of a dormitory suburb only, rather than a thriving commercial community with jobs and other employment opportunities otherwise well served by public transport. The report explains that even local existing businesses are struggling to retain their premises especially if leased. Meaningful long term commercial leases are now rare in the centre that once was a busy town centre.
