hostels	c	x	c	Hostels are considered to be an appropriate use within the zone, as they are commensurate with the scale of low density residential deveopment, due to the requirements to comply with development standards applying to the zone.

multi dwelling housing	x	c	x	This land use was permitted with consent in the BBLEP2013 in accordance with Clause 6.11 Residential Flat Buildings and Multi Dwelling Housing in the R2 Low Density Residential zone. This clause is to be deleted as a result of these land uses being considered inappropriate within the zone, largely due to being inconsistent with the objectives of the zone. Therefore, Multi Dwelling Housing is not considered a suitable land use for the R2 Low Density Residential zone, and is proposed to be a prohibited use.
residential flat buildings	x	c	x	This land use was permitted with consent in the BBLEP2013 in accordance with Clause 6.11 Residential Flat Buildings and Multi Dwelling Housing in the R2 Low Density Residential zone. This clause is to be deleted as a result of these land uses being considered inappropriate within the zone, largely due to being inconsistent with the objectives of the zone. Therefore, Residential Flat Buildings are not considered a suitable land use for the R2 Low Density Residential zone, and are proposed to be a prohibited use.
rural worker's dwellings	x	x	x	
secondary dwellings	c	x	c	Secondary dwellings are an appropriate use, being consistent with the objectives of the zone, and given that the zone provides small scale diversity housing types and contributes to meeting housing targets. The use is proposed to be permitted with consent. This is consistent with the Affordable Rental Housing SEPP, which permits secondary dwellings in certain prescribed zones, including the R2 Low Density Residential zone.
semi-detached dwellings	c	c	c	
seniors housing	c	x	c	Seniors housing is an appropriate use and is consistent with the objectives of the zone, as it promotes the integration of broad demographics into the community within the zone. This is consistent with the Seniors Housing SEPP, which permits seniors housing in certain circumstances including where development for the purposes of dwelling houses is permitted. The use, and all land uses classified under the group term seniors housing are proposed to be permitted with consent.
residential care facilities	c	x	c	
shop top housing	x	x	x	
Land use terms outside residential accommodation group term				
home-based child care	o	x	o	Home-based childcare is an appropriate use and is consistent with the objectives of the R2 Low Density Residential zone. Permitting the use without consent is consistent with the Exempt and Complying Codes SEPP, where home-based childcares are exempt development.
home business	o	x	c	Home businesses that do not involve the manufacture of food products or skin penetration procedures are exempt development under Part 2 (subdivision 22) of the Exempt and Complying Development Codes SEPP. Home businesses are to be permitted with consent, in order for council to oversee the approval of home businesses that involve the manufacture of food products or skin penetration procedures to avoid unforeseen adverse impacts.

(Land use terms within education establishment group term)				
educational establishments	c	x	c	These uses are appropriate and meet the objectives of the zone. Accordingly, all existing schools in the former Botany Bay LGA are located on land in the R2 Low Density Residential zone, and should be permitted with consent. Accordingly, all land uses classified under the group term educational establishments are permitted with consent. This is consistent with the Education and Childcare SEPP, which permits educational establishments in certain prescribed zones. The R2 Low Density Residential zone is one of those prescribed zones.

This is consistent with the Affordable Rental Housing SEPP, which permits secondary dwellings in certain prescribed zones, including the R2 Low Density Residential zone.
semi-detached dwellings	c	c	c	
seniors housing	c	x	c	Seniors housing is an appropriate use and is consistent with the objectives of the zone, as it promotes the integration of broad demographics into the community within the zone. Furthermore, given the scale and types of users that tend to occupy such developments, including their access requirements close to services and facilities, the use is considered appropriate for the zone. This is consistent with the Seniors Housing SEPP, which permits seniors housing in certain circumstances including where development for the purposes of dwelling houses is permitted. bio solids treatment facilities	c	x	x	Given that nuisance odours can be an issue with biosolid processing facilities, and it is commonly prohibited in surrounding LGAs, biosolid treatments facilities are proposed to be prohibited.
sewage reticulation systems	c	c	c	
sewage treatment plants	c	x	x	Sewerage treatment plants produce nuisance odour, which can be an amenity issue for residents in proximity to these facilities. The use is proposed to be prohibited in the R2 and R3 residential zones. Accordingly, sewage treatment plants are commonly prohibited in residential zones throughout NSW, and are proposed to be prohibited.
water recycling facilities	c	x	c	Recycled water is commonly used for parks and toilet systems in Australia, including a large development in the Bayside LGA. sewage reticulation systems	c	c	c	
sewage treatment plants	c	x	x	Sewerage treatment plants produce nuisance odour, which can be an amenity issue for landowners and residents in proximity to these facilities. The use is proposed to be prohibited in the zone.
water recycling facilities	c	x	c	Recycled water is commonly used for parks and toilet systems in Australia, including a large development in the Bayside LGA. Given the current development climate, and since water restrictions are becoming more common, it is a use that is proposed to be permitted with consent.
(Land use terms within waste or resource management facility group term)				
waste or resource management facilities	x	c	x	Only certain waste or resource management facilities are considered appropriate in the zone. Accordingly, the waste or resource management facilities group term is proposed to be prohibited.
resource recovery facilities	x	x	x	
waste disposal facilities	x	x	x	
waste or resource transfer stations	x	c	c	This use is considered appropriate for the zone, as it supports residential land uses and proposals for this type of use could be of a scale that are appropriate for the zone.
(Land use terms within water supply system group term)				
water supply systems	c	x	c	These uses are considered appropriate in the zone. Accordingly, all land uses classified under the group term are proposed to be permitted with consent.
water reticulation systems	c	x	c	Water reticulation systems are an appropriate use and meet the objectives of the zone, therefore this use is proposed to be permitted with consent. This is consistent with the Infrastructure SEPP, which permits water reticulation systems on any land, if undertaken by, or on behalf of, a public authority.

home industry	x	c	c	This is an appropriate use in the zone, and meets the objectives of this zone, therefore is proposed to be permissible with consent.
artisan food and drink industry	x	c	c	
general industries	x	x	x	This use is considered appropriate for the zone, as it potentially allows for ground floor activation and utilisation of commercial space, while also enabling integrating with residential uses.

(Land use within sewerage system group term)				
sewerage systems	c	c	c	
bio solids treatment facilities	c	x	x	Given that nuisance odours can be an issue with biosolid processing facilities, and it is commonly prohibited in surrounding LGAs, biosolid treatments facilities are proposed to be prohibited.
sewage reticulation systems	c	c	c	
sewage treatment plants	c	x	x	Sewerage treatment plants produce nuisance odour, which can be an amenity issue for landowners and residents in proximity to these facilities. The use is proposed to be prohibited in the zone.
water recycling facilities	c	x	c	Recycled water is commonly used for parks and toilet systems in Australia, including a large development in the Bayside LGA. Given the current development climate, and since water restrictions are becoming more common, it is a use that is proposed to be permitted with consent.
(Land use terms within waste or resource management facility group term)				
waste or resource management facilities	x	c	x	Only certain waste or resource management facilities are considered appropriate in the zone. Accordingly, the waste or resource management facilities group term is proposed to be prohibited.
resource recovery facilities	x	x	x	
waste disposal facilities	x	x	x	
waste or resource transfer stations	x	c	c	This use is considered appropriate for the zone, as it supports residential land uses and proposals for this type of use could be of a scale that are appropriate for the zone.
(Land use terms within water supply system group term)				
water supply systems	c	x	c	These uses are considered appropriate in the zone. Accordingly, all land uses classified under the group term are proposed to be permitted with consent.

(Other Land use terms relating to infrastructure)				
car parks	c	c	c	

electricity generating works	c	x	c	Council acknowledges that the Infrastructure SEPP permits electricity generating works in certain prescribed zones. The B2 Local Centre zone is one of those prescribed zones. The use is therefore proposed to be permitted with consent.
freight transport facilities	x	x	x	
passenger transport facilities	c	c	c	
port facilities	x	x	x	
roads	o*	c*	c	This use is mandated as permitted with or without consent in the standard instrument. As roads can introduce impacts on both private and government agency/council-owned land, they should not be permitted <i>without</i> consent. Council needs to determine, and consider, road locations and any associated planning impacts, in order to maintain decision-making on road locations across the LGA.

service stations	c	c	c	
sex services premises	c	x	c	In order to ensure increased opportunities for this type of development, it is proposed to expand the permissibility to all industrial zones, and is therefore proposed to be permitted with consent in this zone.
veterinary hospitals	c	x	c	Given the lack of available zones for this land use, and the objectives of the zone, it is considered an appropriate use for the zone, and is proposed to be permitted with consent.
wholesale supplies	c	c	c	
(Land use terms within rural industry group term)				
rural industries (e.g., use of composting facilities and works)	c	x	x	These uses are inappropriate and do not meet the objectives of IN2 light industrial zone. Therefore, the rural industries group term, and all land uses classified under the rural industries group term, are proposed to be prohibited.
agricultural produce industries	c	x	x	
livestock processing industries	c	x	x	
sawmill or log processing industries	c	x	x	
stock & sale yards	c	x	x	
(Land use terms within industry group term)				
industries	c	x	c	While the group term is proposed to be permitted with consent, only certain uses under this group term are considered appropriate in the zone.
heavy industries	x	x	x	
hazardous industry	x	x	x	
offensive industry	x	x	x	
light industries	c	c	c	
high technology industries	c	c	c	
home industry	c	c	c	
artisan food and drink industry	c	x	c	This is an appropriate use, as land within the zone is typically of a scale and location that enables the use as an ancillary function within large light industrial floorplates. The use meets the objectives of light industrial zones, therefore is proposed to be permitted with consent.
general industries	c	x	x	This use is considered inappropriate for a <i>light</i> industrial zone, therefore is proposed to be prohibited.
(Land use term outside industry group term)				
boat building and repair facilities	c	c	c	
vehicle body repair workshops	c	c	c	
vehicle repair stations	c	c	c

(Land use terms outside storage premises group term)				
depots	c	c	c	
warehouse or distribution centres	c	c	c	
local distribution centre	c	c	c	
(Land use within sewerage system group term)				

sewerage systems	c	c	c	All land uses classified under the group term sewerage systems are proposed to be permitted with consent, as they are considered to be appropriate within the zone.
bio solids treatment facilities	c	x	c	Given that nuisance odours can be an issue with biosolid processing facilities, and it is proposed to be prohibited in most other zones, biosolid treatments facilities are proposed to be permitted with consent in this industrial zone. The nature of the use is more akin to industries and externalities produced by developments within industrial areas.
sewage reticulation systems	c	c	c	The nature of the use is more akin to industries and externalities produced by developments within industrial areas. Furthermore, the scale of this use means that many of the site areas required to accommodate the use may only be available within this zone.
sewage treatment plants	c	x	c	The nature of the use is more akin to industries and externalities produced by developments within industrial areas. Furthermore, the scale of this use means that many of the site areas required to accommodate the use may only be available within this zone.
water recycling facilities	c	x	c	Recycled water is commonly used for parks and toilet systems in Australia, including a large development in the Bayside LGA. Given the current development climate, and since water restrictions are becoming more common, it is a use that is proposed to be permitted with consent. This is particularly relevant to large floorplate sites that require vast amounts of water for their industrial operations.
(Land use terms within waste or resource management facility group term)				
waste or resource management facilities	c	c	c	These uses are appropriate and meet the objectives of the zone. Accordingly, all land uses classified under the group term sewerage systems are proposed to be permitted with consent.
resource recovery facilities	c	x	c	
waste disposal facilities	c	x	c	
waste or resource transfer stations	c	c	c	
(Land use terms within water supply system group term)				
water supply systems	c	x	c	These uses are appropriate and meet the objectives of the zone. Accordingly, all land uses classified under the group term water supply systems are proposed to be permitted with consent.
water reticulation systems	c	x	c	
water storage facilities	c	x	c	
water treatment facilities	c	x	c	
(Land use term within air transport facility group term)				
air transport facilities	c	x	x	These uses are inappropriate and do not meet the objectives of the zone. Therefore, the air transport facilities group term and all land uses classified under the air transport facilities group term are proposed to be prohibited. Council acknowledges that the Infrastructure SEPP permits air transport facilities with consent, provided that it is on land within the boundaries of an existing transport facility, and is ancillary to the listed air transport facilities under the SEPP.
airport	c	x	x	
heliport	c	x	x	
(Land use term outside air transport facility group term)				
airstrips	x	x	x	
helipads	c	x	x	This land use is inappropriate and does not meet the objectives of the zone, therefore is proposed to be prohibited.
(Other Land use terms relating to infrastructure)				

car parks	c	c	c	
electricity generating works	c	x	x	This land use is inappropriate in a <i>light</i> industrial zone, and does not meet the objectives of the zone, therefore is proposed to be prohibited.
freight transport facilities	c	x	c	This use appropriate for the zone, particularly when considering the proximity of industrial land within the Bayside LGA to the airport and port, and the support function that industrial land provides to the trade gateway.
port facilities	c	x	x	This use is considered appropriate in the W3 Working Waterways zone, therefore it is proposed to be prohibited from industrial zones.
passenger transport facilities	c	x	c	This land use is appropriate and meets the objectives of light industrial zones, therefore is proposed to be permitted with consent. The zone provides suitably sized allotments for this land use, and the location assists to mitigate vehicle movement conflicts with, and amenity impacts upon, residential areas.
roads	o*	c*	c	This is a use that is mandated as either (i) permitted with consent; or (ii) without consent in the standard instrument in the zone. As roads can introduce impacts on both private and government agency/council-owned land, they are proposed to be changed to require consent in this zone. Council needs to determine road locations and planning impacts in order to have greater autonomy over land use planning decisions for this use.
transport depots	c	x	c	This land use is appropriate and meets the objectives of light industrial zones, therefore is proposed to be permitted with consent. The zone provides suitably sized allotments for this land use, and the location assists to mitigate vehicle movement conflicts with, and amenity impacts upon, residential areas.
truck depots	c	x	c	This land use is appropriate and meets the objectives of light industrial zones, therefore is proposed to be permitted with consent. The zone provides suitably sized allotments for this land use, and the location assists to mitigate vehicle movement conflicts with, and amenity impacts upon, residential areas.

correctional centres	c	x	x	This land use is inappropriate and does not meet the objectives of light industrial zones, therefore is proposed to be prohibited. Council acknowledges that the Infrastructure SEPP permits correctional centres on land that is within the boundaries of an existing correctional complex, and is undertaken by, or on behalf of, a public authority.
emergency services facilities	c	c	c	
industrial training facilities	c	c	c	
information and education facilities	c	x	c	This land use is appropriate and meets the objectives of light industrial zones, therefore is proposed to be permitted with consent.
