

APPENDIX 2 – Consistency with the *Greater Sydney Region Plan, South District Plan* and Council's *Local Strategic Planning Statement 2040*

Amended Planning Proposal

Georges River Local Environmental Plan

(PP2019/0004)

June 2020 – For Finalisation

Deleted: March

South District Plan Planning Priority	South District Plan Action	Greater Sydney Region Plan Objective	LSPS Priority	LSPS Action	Comment
S1. Planning for a city supported by infrastructure	2. Sequence growth across the three cities to promote north-south and east-west connections. 3. Align forecast growth with infrastructure	O1. Infrastructure supports the three cities O2. Infrastructure aligns with forecast growth – growth infrastructure compact O3. Infrastructure adapts to meet future needs O4. Infrastructure use is optimised	P1. We have a range of frequent, efficient transport options to connect people, goods, services, businesses and educational facilities P4. Collaboration supports innovation and delivers infrastructure, services and facilities P6. Everyone has access to efficient digital connectivity P10. Homes are supported by safe, accessible, green, clean, creative and diverse facilities, services and spaces	A17. Adopt a policy statement that zoning changes will be contingent on the existing or suitable infrastructure provision and services A18. Investigate appropriate infrastructure funding options where there is an uplift in density A43. Investigate the provision of additional housing and jobs along new transport links as new infrastructure is committed/funded by the State Government	The intent of this Planning Proposal is to harmonise the existing Hurstville and Kogarah LEPs into a principal Georges River LEP so that a consistent approach is applied to planning and development across the LGA, whilst introducing new controls and providing flexibility to development, consistent with the objectives of the District Plan. The proposed uplifts are limited to rezoning 5 areas of the LGA (<u>known as the Housing Investigation Areas</u>) to accommodate new housing and encourage housing diversity. The areas proposed to be up-zoned are located within walking distance to transport infrastructure, such as train stations and frequent bus services, and existing commercial centres (consistent with LSPS Action A43). The LEP is supported by a range of specialist reports including the <i>Infrastructure Integration Gap Analysis and Roadmap</i>, which assists Council in identifying infrastructure required to support housing and employment to achieve Council's vision in the LSPS. The outcomes of this analysis will be implemented in the staged approach of the Georges River Principal LEP. In accordance with LSPS Actions A17 and A18, a local provision, Clause 6.10, "Essential services", is proposed in the <i>GRLEP 2020</i> to ensure any future development applications demonstrate that there is sufficient essential services and infrastructure in place to service new development. When and as required, infrastructure may need to be augmented and upgraded by individual developers. This Planning Proposal <u>was placed on public exhibition in accordance with the conditions of the Gateway Determination and a number of State Government agencies were invited to review and provide comment. Transport for NSW provided the following comments in relation to infrastructure:</u> <u>Support has been indicated for the introduction of a minimum non-residential floor space control within the LGA's business zones as this will provide more employment around existing transport nodes, thereby assisting in achieving a 30 minute city.</u> <u>Support has also been indicated for the upzoning of the 5 Housing Investigation Areas to provide more housing choice and contribute towards the LGA's housing targets.</u>
S3. Providing services and social infrastructure to meet people's changing needs	8. Deliver social infrastructure that reflects the needs of the community now and in the future 9. Optimise the use of available public land for social infrastructure	O6. Services and infrastructure meet communities' changing needs	P4. Collaboration supports innovation and delivers infrastructure, services and facilities P6. Everyone has access to efficient digital connectivity P10. Homes are supported by safe, accessible, green, clean, creative and diverse facilities, services and spaces	A17. Adopt a policy statement that zoning changes will be contingent on the existing or suitable infrastructure provision and services A28. As part of major redevelopments explore mechanisms and precincts to deliver additional infrastructure including education, cultural sporting and aquatic facilities, public	This Planning Proposal is consistent with LSPS Actions A17 and A28, as it zones hospitals and educational establishments SP2 Infrastructure to retain land for these important infrastructure. This Planning Proposal also proposes 'entertainment facility' at Jubilee Stadium as an additional permitted use through Schedule 1 of the <i>GRLEP 2020</i>. Jubilee Stadium is recognised in the LSPS as one of Council's key infrastructure and permitting entertainment facilities at Jubilee will enable the Stadium to be consolidated as a regional sporting and entertainment hub with a range of recreation and entertainment options for local residents and visitors.

Deleted: 9

Deleted: , when on public exhibition, will be available to

Deleted: that are responsible for the planning and provision of infrastructure to review and provide comment. During this exhibition period, agencies will have the opportunity

Deleted: to comment on the proposed amendments and advise if there are any matters for consideration.¶

South District Plan Planning Priority	South District Plan Action	Greater Sydney Region Plan Objective	LSPS Priority	LSPS Action	Comment
				spaces, multi-purpose community hubs	
S4. Fostering healthy, creative, culturally rich and socially connected communities	10. Deliver healthy, safe and inclusive places for people of all ages and abilities that support active, resilient and socially connected communities	O7. Communities are healthy, resilient and socially connected O8. Greater Sydney's communities are culturally rich with diverse neighbourhoods O9. Greater Sydney celebrates the arts and supports creative industries and innovation	P1. We have a range of frequent, efficient transport options to connect people, goods, services, businesses and educational facilities P2. Everyone can navigate and experience the LGA in safety P3. Roads, footpaths and cycleways are safe, accessible and free of congestion P7. Residential suburbs will be protected and retained unless identified as areas of change or investigation P19. Everyone has access to quality, clean, useable, passive and active, open and green spaces and recreation places	A17. Adopt a policy statement that zoning changes will be contingent on the existing or suitable infrastructure provision and services A60. Introduce a broader range of land uses in the IN2 Industrial Zone in Council's LEP 2020	This Planning Proposal is consistent with LSPS Action A17, as it provides additional housing through the up-zoning of existing low density residential areas in highly accessible areas which are serviced by shops, schools, open space and community facilities. The 5 areas proposed to be up-zoned are located within walking distance to transport infrastructure, such as train stations and frequent bus services, encouraging alternate modes of transportation, such as the use of public transport, walking and cycling. The Planning Proposal will also directly support Action A60 of the LSPS, by providing appropriate controls to foster a diverse range of industries within the IN2 Zone. Through Clause 6.17 "Creative industries in Zone IN2", it is proposed to permit a range of uses, which do not compete with industrial or commercial land uses within the IN2 Zone, including creative and innovative industries, such as media, advertising, fine arts and craft, design, film and television, music, publishing, performing arts, cultural and heritage institutions.
S5. Providing housing supply, choice and affordability with access to jobs, services and public transport	16. Prepare local or district housing strategies 17. Prepare Affordable Rental Housing Target Schemes following development of implementation arrangements	O10. Greater housing supply O11. Housing is more diverse and affordable	P7. Residential suburbs will be protected and retained unless identified as areas of change or investigation P9. A mix of well-designed housing for all life stages caters for a range of lifestyle needs and incomes P10. Homes are supported by safe, accessible, green, clean, creative and diverse facilities, services and spaces P19. Everyone has access to quality, clean, useable, passive and active open and green spaces and recreation spaces	A43. Investigate the provision of additional housing and jobs along new transport links as new infrastructure is committed/funded by the State Government A44. Provide zones and development controls that confine higher density development to centres along public transport corridors in Council's LEPs A47. Complete a Local Housing Strategy that includes planning for District Plan housing targets, a hierarchy of residential zones, providing targets for inclusive housing and addressing housing diversity	Through the supporting <i>Evidence Base</i> for the <i>Local Housing Strategy</i>, it is identified that the five-year housing supply target can already be met under existing LEP controls. However, there is a deficiency in the supply of medium density development to support the varying needs of the LGA's population profile. This Planning Proposal seeks to create additional housing supply across the LGA in accordance with LSPS Actions A43 and A44 through the harmonisation of existing LEP controls and the up-zoning of 5 existing low density residential areas to medium density and high density to create opportunities for additional housing (approx. 650 dwellings) in locations close to transport and centres. The Planning Proposal also incorporates a new local provision – Clause 6.14, "Development for the purposes of dual key dwellings in Zones R2 and R3". The purpose of this clause is to assist in providing housing choice through the provision of rental housing. As dual key dwellings would be wholly contained with the existing building envelope, they would have no impact on the streetscape character of low and medium density neighbourhoods. Stage 2 of the staged LEP approach will focus on providing additional housing choice, supply and diversity through providing inclusive and affordable housing and also investigating the possibility of big house conversions and build to rent options (LSPS Action A47).

South District Plan Planning Priority	South District Plan Action	Greater Sydney Region Plan Objective	LSPS Priority	LSPS Action	Comment
S6. Creating and renewing great places and local centres, and respecting the District's heritage	21. Use place-based planning to support the role of centres as a focus for connected neighbourhoods 22. Use flexible and innovative approaches to revitalise high streets in decline	O12. Great places that bring people together O13. Environmental heritage is identified, conserved and enhanced	P2. Everyone can navigate and experience the LGA in safety P3. Roads, footpaths and cycleways are safe, accessible and free of congestion P4. Collaboration supports innovation and delivers infrastructure, services and facilities P8. Place-based development, quality building design and public art deliver liveable places P11. Aboriginal and other heritage is protected and promoted P13. Planning, collaboration and investment delivers employment growth and attractive, lively, accessible and productive centres P15. All local centres are supported to evolve for long-term viability	A58. Complete the Heritage Review for the Hurstville LEP and implement recommendations in Council's Comprehensive LEP 2020 A59. Introduce controls in Council's LEP 2020 to ensure the provision of non-residential floor space in the LGA's commercial centres A64. Ensure ongoing review of the zoning and development controls of all centres with the aim of providing sufficient employment floor space to meet future population and employment projections A67. Investigate broader employment uses in all business zones in Council's LEP 2020	A commercial centres strategy is currently being prepared to support the staged approach to preparing the new LEP. Part 1 of the <i>Commercial Centres Strategy</i> develops a centres hierarchy and looks at the inconsistencies and deficiencies of the existing LEPs that need to be overcome in Stage 1 of the LEP (this Planning Proposal). As a result, this Planning Proposal seeks to harmonise the permissible land uses and encourage other key uses such as enabling markets and artisan food and drink industries in business zones, consistent with LSPS Action A67. Part 1 of the Strategy also identifies an appropriate mix of commercial and residential floor space in mixed use developments. In response, this Planning Proposal introduces a minimum non-residential FSR requirement for shop top housing developments to minimise the net loss of employment floor space across all centres through redevelopment. The Planning Proposal also includes Clause 6.15 "Development in certain business zones" to maintain existing and encourage additional commercial uses at street level, consistent with LSPS Action A59. Part 2 of the <i>Commercial Centres Strategy</i> will examine centres and place making in Stage 3 of the LEP process where specific objectives and built form guidelines will be tailored to each of the 48 centres so that these become active places for the community and visitors, consistent with LSPS Action A64. In accordance with LSPS Action A58, Council has undertaken a review of the heritage items under the <i>Hurstville LEP</i>. The <i>Heritage Review</i> recommends three heritage items be removed as they no longer have any heritage significance either due to redevelopment or demolition. The <i>Review</i> also seeks administrative amendments to the descriptions of 19 items to clarify that both the built and setting elements are part of the heritage item's significance. All existing heritage items listed within the former Kogarah LGA are to be retained. The Planning Proposal incorporates the amendments recommended in the <i>Heritage Review</i> in Schedule 5 (Environmental Heritage) of the <i>GRLEP 2020</i>.
S8. Growing and investing in health and education precincts and Bankstown Airport trade gateway as economic catalysts for the District	25. Facilitate health and education precincts	O21. Internationally competitive health, education, research and innovation precincts	P1. We have a range of frequent, efficient transport options to connect people, goods, services, businesses and educational facilities P3. Roads, footpaths and cycleways are safe, accessible and free of congestion P4. Collaboration supports innovation and delivers infrastructure, services and facilities P9. A mix of well-designed housing for all life stages	A47. Complete a Local Housing Strategy that includes planning for District Plan housing targets, a hierarchy of residential zones, providing targets for inclusive housing and addressing housing diversity A59. Introduce controls in Council's LEP 2020 to ensure the provision of non-residential floor space in the LGA's commercial centres A65. Introduce zoning and controls in Council's LEP 2020 that enable tourist and visitor accommodation,	This Planning Proposal seeks to formalise the significance of existing health and education uses by zoning all land owned by major health service providers and school organisations SP2 Hospital and SP2 Educational Establishment. This will ensure these landholdings are retained for health and education uses. The land use planning framework enables and encourages the future expansion of these services, whilst protecting the land from competing pressures of residential and commercial development within the LGA, including in the Kogarah and Hurstville Strategic Centres, consistent with LSPS Action A73. The Planning Proposal also seeks to include a non-residential FSR in the LGA's centres, in accordance with LSPS Action 59, to ensure that employment floor space, which could be used for health and educational purposes, is retained and enhanced within the LGA to support local jobs for local people. The <i>Inclusive Housing Strategy</i>, which was prepared to support this Planning Proposal, consistent with LSPS Action A47, identifies and assesses the existing housing issues within the LGA. The Strategy identifies a need for additional housing around Kogarah to support low and medium income households, seniors, people with a disability, students and key workers. This Planning Proposal is

Deleted: 14

South District Plan Planning Priority	South District Plan Action	Greater Sydney Region Plan Objective	LSPS Priority	LSPS Action	Comment
			caters for a range of lifestyle needs and incomes P12. Land is appropriately zoned for ongoing employment growth P13. Planning, collaboration and investment delivers employment growth and attractive, lively, accessible and productive centres	medi-hotels and carer accommodation in and adjacent to medical precincts A69. Encourage new housing for professional and key workers in the Kogarah Health and Education Precinct and the Riverwood Planned Precinct A73. Develop an Investment Attraction Strategy for Kogarah Centre creating a desirable place for the growth of the education and health economies, facilitating innovation and looking for opportunities beyond, particularly in the professional services sector	consistent with the Strategy and LSPS Action A69, given it provides opportunities for additional dwellings and increases housing choice in central locations, supporting the function of the Kogarah Health and Education Precinct. LSPS Action 65 identifies a vision to provide quality “medi-hotels” outside of hospitals for people receiving treatment and their families, where doctors and nurses are able to drop by for check-ups where required. However, “medi-hotels” is not a Standard Instrument LEP definition. The current market is providing such accommodation in Kogarah through the permissibility of “serviced apartments” (under the group term “tourist and visitor accommodation”). It is proposed to retain “tourist and visitor accommodation” as a permissible land use in the B4 Zone to ensure the planning framework continues to support the provision of these types of accommodation.
S9. Growing investment, business opportunities and jobs in strategic centres	31. Use flexible and innovative approaches to revitalise high streets in decline 32. Review the current planning controls and create capacity to achieve the job targets for each of the District’s strategic centres 35. Strengthen Hurstville as a strategic centre 36. Strengthen Kogarah as a strategic centre	O22. Investment and business activity in centres	P8. Place-based development, quality building design and public art deliver liveable places P12. Land is appropriately zoned for ongoing employment growth P13. Planning, collaboration and investment delivers employment growth and attractive, lively, accessible and productive centres P14. Hurstville, Beverly Hills and Kogarah are supported to grow safe night-time entertainment, dining and other recreational opportunities P15. All local centres are supported to evolve for long-term viability	A59. Introduce controls in Council’s Comprehensive LEP 2020 to ensure the provision of non-residential floor space in the LGA’s commercial centres	The Planning Proposal is consistent with Action 59 of the LSPS, as it proposes a new local provision – Clause 6.15 “Development in certain business zones”. This clause prohibits residential and tourism and visitor accommodation at the ground floor of any new development within the B1, B2, B4 and B6 zones. This clause will encourage non-residential land uses such as retail on the ground floor, providing opportunities for greater activation. The proposed controls promote and encourage job creation within both the Hurstville and Kogarah strategic centres. In accordance with LSPS Action A59, the Planning Proposal proposes minimum non-residential floor space ratio controls for the LEP’s various business zones, including the B4 zoned land of the Hurstville and Kogarah Strategic Centres. These new provisions will ensure that any new development will include a minimum amount of non-residential floor space, mostly in the form of either commercial or retail development. This will encourage and promote job creation which may attract new businesses to the centres or support existing health and education infrastructure within the Kogarah centre. Additional retail will transform these centres, providing increased activation opportunities, which could also enhance the night-time economy. Furthermore, it is proposed to retain the B3 zone in the Hurstville Strategic Centre to ensure there is sufficient land zoned for ongoing employment growth and to assist in realising the vision for Hurstville. This approach will support local employment growth and provide additional jobs and services close to existing and future residential development. The translation of Deferred Matter sites under the <i>HLEP 1994</i> into the <i>GRLEP 2020</i> will also facilitate further growth in investment, business opportunities and jobs in the Hurstville strategic centre.

Deleted: 14

South District Plan Planning Priority	South District Plan Action	Greater Sydney Region Plan Objective	LSPS Priority	LSPS Action	Comment
S10. Retaining and managing industrial and urban services land	39. Retain and manage industrial and urban services land, in line with the Principles for managing industrial and urban services land, in the South District by safeguarding all industrial zoned land from conversion to residential development, including conversion to mixed-use zones. In updating local environmental plans, councils are to conduct a strategic review of industrial lands 40. Consider office development in industrial zones where it does not compromise industrial or urban services activities 42. Facilitate the contemporary adaptation of industrial and warehouse buildings through increased floor to ceiling heights	O23 Industrial and urban services land is planned, retained and managed	P12. Land is appropriately zoned for ongoing employment growth	A60. Introduce a broader range of land uses in the IN2 Industrial Zone in Council's LEP 2020	The Planning Proposal seeks to increase the maximum building height for the IN2 Light Industrial zone to improve development viability and encourage industrial development. The proposed controls provide for a flexibility of uses, attracting investment and redevelopment of industrial lands. In addition, the increase in height controls will promote increased industrial floor space as the current FSR of 1:1 cannot be achieved within the existing height limit of 10m. The Planning Proposal also seeks to increase minimum subdivision lot sizes to prevent the fragmentation of industrial land and retain large lot sizes to provide employment opportunities and allow the operation of a diverse range of industrial uses, such as warehousing which requires large floor plates. Pursuant to LSPS Action A60, it is also proposed to permit creative and innovative industries, food and drink premises, and restaurants and cafes within the IN2 zone to provide flexibility in land uses within the zone, promote job creation and meet the needs of those who work within or visit the industrial precincts.
S11 Supporting growth of targeted industry sectors	46. Consider opportunities to implement place-based initiatives to attract more visitors, improve visitor experiences and ensure connections to transport at key tourist attractions 47. Consider opportunities to enhance the tourist and visitor economy in the District, including a coordinated approach to tourism activities, events and accommodation 48. Create capacity for tourist accommodation in appropriate locations through local environmental plans	O24 Economic sectors are targeted for success	P8. Place-based development, quality building design and public art deliver liveable places P15. All local centres are supported to evolve for long-term viability	A26. Consolidate Netstrata Jubilee Stadium as a regional sporting and entertainment hub, a premier sporting precinct with a range of recreation and entertainment options A54. Encourage temporary events through Council's LEP 2020	The <i>GRLEP 2020</i> provides opportunities to implement place-based initiatives to attract more visitors, improve visitor experiences and ensure connections to transport at key tourist attractions. The <i>GRLEP 2020</i> enhances the tourist and visitor economy in the District by permitting "tourist and visitor accommodation" in the B3 zoned area within the Hurstville Strategic Centre to support the significant presence of international students and visitors. The Planning Proposal, consistent with LSPS Action A54, also proposes a coordinated approach to tourism activities, events and accommodation, including a 52 day maximum period for a temporary use in any zone. This will encourage temporary events and diverse facilities. It is also proposed to add a new additional permitted use in Schedule 1 of the LEP to permit "entertainment facilities" at Jubilee Stadium, which is a major piece of Council infrastructure. This is consistent with LSPS Action A26, which states that Jubilee Stadium is a regional sporting and entertainment hub, with a range of recreation and entertainment options.
S12. Delivering integrated land	51. Integrate land use and transport plans to deliver the	O14. <i>A Metropolis of Three Cities</i> – integrated land use	P1. We have a range of frequent, efficient transport	A43. Investigate the provision of additional housing and	In response to LSPS Action A43, the Planning Proposal seeks to up-zone 5 areas for additional residential development. These areas are within the vicinity of

Deleted: introduce "office premises" as a permissible land use in the IN2 Light Industrial zone. To manage the amount of office floor space provided within the IN2 zone to ensure sufficient industrial floor space is retained for industrial uses and industrial and urban services activities are not compromised by office development, restrictions are placed on the amount of office floor space permitted through Clause 6.15 "Office premises in Zone IN2". ¶¶
¶¶
It is also proposed to

South District Plan Planning Priority	South District Plan Action	Greater Sydney Region Plan Objective	LSPS Priority	LSPS Action	Comment
use and transport planning and a 30-minute city	30-minute city 52. Investigate, plan and protect future transport and infrastructure corridors 54. Support innovative approaches to the operation of business, educational and institutional establishments to improve the performance of the transport network 58. Plan for urban development, new centres, better places and employment uses that are integrated with, and optimise opportunities of, the public value and use of Sydney Metro and other city-shaping projects 59. Protect transport corridors as appropriate, including the F6 extension	and transport creates walkable and 30-minute cities O16. Freight and logistics network is competitive and efficient O17. Regional connectivity is enhanced	options to connect people, goods, services, businesses and educational facilities P2. Everyone can navigate and experience the LGA in safety P3. Roads, footpaths and cycleways are safe, accessible and free of Congestion P19. Everyone has access to quality, clean, useable, passive and active open and green spaces and recreation places	jobs along new transport links as new infrastructure is committed/funded by the State Government	existing infrastructure corridors to promote the efficient utilisation of transport infrastructure that reinforces the objective of creating walkable 30-minute cities. At this stage, there are no up-zonings proposed around uncommitted/unfunded transport links, such as the Kogarah to Parramatta, or Hurstville mass transit infrastructure. The Planning Proposal also supports innovative approaches to the operation of education establishments as it seeks to enable the permissibility of early education and care facilities in highly accessible locations, such as within town centres, in close proximity to employment. This is in response to the strong growth in the number of residents in the young workforce age group choosing to reside in the LGA's strategic and local centres. It also reduces the dependency on private vehicle ownership by co-locating services in central locations.
S13. Protecting and improving the health and enjoyment of the District's waterways S14. Protecting and enhancing bushland, biodiversity and scenic and cultural landscapes and better managing rural areas S15. Increasing urban tree canopy cover and delivering Green Grid connections	60. Protect environmentally sensitive areas of waterways and the coastal environment area 61. Enhance sustainability and liveability by improving and managing access to waterways, foreshores and the coast for recreation, tourism, cultural events and water-based transport 62. Improve the health of catchments and waterways through a risk based approach to managing the cumulative impacts of development including coordinated monitoring of outcomes 63. Work towards reinstating more natural conditions in	O25. The coast and waterways are protected and healthier O27. Biodiversity is protected, urban bushland and remnant vegetation is enhanced O28. Scenic and cultural landscapes are protected O29. Environmental, social and economic values in rural areas are protected and enhanced O30. Urban tree canopy cover is increased O32. The Green Grid links parks, open spaces, bushland and walking and cycling paths	P10. Homes are supported by safe, accessible, green, clean, creative and diverse facilities, services and spaces P16. Our waterways are healthy and publicly accessible P17. Tree canopy, bushland, landscaped settings and biodiversity are protected, enhanced and promoted P19. Everyone has access to quality, clean, useable, passive and active open and green spaces and recreation places	A88. Develop and implement the Tree Management Policy to increase urban tree canopy and biodiversity across the LGA A89. Develop and implement a Significant Tree Register of public and private land to protect significant Trees A90. Develop a biodiversity strategy informed by the LGA-wide biodiversity study	In response to LSPS Actions 88-90, this Planning Proposal proposes the following local provisions to improve the health of natural waterways, protect environmentally sensitive areas, increase the tree canopy and enhance the landscaped setting within the LGA: - Clause 6.4: "Stormwater management": - the objective of this clause is to minimise the impacts of urban stormwater on urban land, native bushland and receiving waters. - Clause 6.5: "Foreshore area and coastal hazards and risks": - the objective of this clause is to protect people and property from coastal hazards like sea level rise, ensure development will not impact on natural foreshore processes and encourage opportunities for public access to and along the foreshore. - Clause 6.6: "Riparian lands and waterways": - the objective of this clause is to protect and maintain the LGA's riparian lands and waterways including considerations of water quality, ecological processes and Aboriginal cultural heritage values. - Clause 6.7: "Foreshore scenic protection area" – the objective of this clause is to protect, maintain and improve the scenic amenity, significant views, diversity and condition of native vegetation and habitats, and environmental, social and character values of the Georges River foreshore in line with the overarching principles of this LEP.

	highly modified urban waterways 64. Protect and enhance biodiversity 65. Identify and protect scenic and cultural landscapes 66. Enhance and protect views of scenic and cultural landscapes from the public realm 68. Limit urban development to within the Urban Area 69. Expand urban tree canopy in the public realm 70. Progressively refine the detailed design and delivery of the Greater Sydney Green Grid, opportunities for connections and walking and cycling links for transport				- Clause 6.11: "Design excellence" – the objective of this clause is to deliver a high standard of sustainable architecture and urban design. In particular, the application of this clause includes development in the FSPA to ensure development respects the significant environmental, social and character values of the Georges River foreshore. - Clause 6.12: "Environmental sustainability in certain business, industrial and residential zones" – the objective of this clause is to ensure that development in industrial, business and high density residential zones is consistent with principles of best practice environmentally sensitive design. - Clause 6.13: "Landscaped areas in residential and environmental protection zones" – the objective of this clause is to ensure that the landscaped character of residential suburbs is preserved, minimise urban run-off by maximising permeable areas, minimise the visual impact of development, and ensure that vegetation which contributes to biodiversity and tree canopy is retained. This clause aims to reduce the urban heat island effect by increasing urban vegetation and permeable surfaces. - Clause 6.19: "Tree protection and landscaping in Zones R2 and R3" – the objective of this clause is to ensure any development undertaken on land in the R2 Low Density Residential and the R3 Medium Density Residential zones maintains and enhances the landscaped character of the neighbourhood and contributes to the tree canopy of the LGA. S16. Delivering high quality open space	71. Maximise the use of existing open space and protect, enhance and expand public open space	O31. Public open space is accessible, protected and enhanced	P10. Homes are supported by safe, accessible, green, clean, creative and diverse facilities, services and spaces P19. Everyone has access to quality, clean, useable, passive and active open and green spaces and recreation places	A103. When increasing residential density through rezoning, innovative solutions will be required for public open space to be provided in accordance with the Greater Sydney's Commission <i>South District Plan's</i> standard and consideration will be given to opportunities to purchase land for open space	This Planning Proposal seeks to create additional housing supply across the LGA located in proximity to social infrastructure such as open space, consistent with LSPS Action 103. This Planning Proposal also identifies additional properties to be acquired for local open space to expand and improve access to existing open space, supporting existing and future residents of the LGA. New properties identified in the <i>GRLEP 2020</i> to be acquired for open space include: 26 – 30 Culwulla Street, South Hurstville which is situated in a housing investigation area will enable the creation of a larger park to facilitate improved access and amenity. 7 Hedley Street, Riverwood and 13 – 15 Keith Street, Peakhurst (Peakhurst Park) to enable expansion of the park in an area identified for housing growth and facilitate improved access to the park. Map excerpts of these properties identified for local open space acquisition are provided in Appendix 7. <u>It should be noted that in response to the submissions received during public exhibition, the proposed open space acquisition located at 11-21 Monaro Avenue, Kingsgrove has been removed from this amended Planning Proposal. In</u>	Deleted: <#>11 – 21 Monaro Avenue (Peter Lowe Reserve) to facilitate improved access to the park, safety and public surveillance.¶

South District Plan Planning Priority	South District Plan Action	Greater Sydney Region Plan Objective	LSPS Priority	LSPS Action	Comment
					<u>accordance with the resolution of the Georges River Local Planning Panel at its meeting dated 25 and 26 June 2020. Council will continue to pursue and investigate all opportunities to provide open space including the provision of additional land in the vicinity of Peter Low Reserve in recognition of the existing need for additional open space in the northern portion of the LGA as part of the preparation of the future 2021/2022 stages of the Georges River LEP.</u>
S17. Reducing carbon emissions and managing energy, water and waste efficiency	72. Support initiatives that contribute to the aspirational objective of achieving net zero emissions by 2050, especially through the establishment of low-carbon precincts in Planned Precincts, Collaboration Areas and Urban Transformation projects 74. Protect existing and identify new locations for waste recycling and management	O33. A low-carbon city contributes to net-zero emissions by 2050 and mitigates climate change O34. Energy and water flows are captured, used and re-used O35. More waste is re-used and recycled to support the development of a circular economy	P18. An environmentally friendly approach is applied to all new development	A91. Provide provisions in Council's LEP 2020 to ensure development in business, industrial and high density residential zones is consistent with principles of sustainable practice and environmentally sensitive design	In accordance with LSPS Action A91, this Planning Proposal includes a new local provision, Clause 6.12 "Environmental sustainability in certain business, industrial and residential zones", to promote urban design and best practice environmentally sustainable development principles. Council's initiative to promote waste efficiency is also addressed by the inclusion of design considerations for waste management facilities in Clause 6.11 "Design excellence".
S18. Adapting to the impacts of urban and natural hazards and climate change	78. Support initiatives that respond to the impacts of climate change 79. Avoid locating new urban development in areas exposed to natural and urban hazards and consider options to limit the intensification of development in existing urban areas most exposed to hazards 80. Mitigate the urban heat island effect and reduce vulnerability to extreme heat	O36. People and places adapt to climate change and future shocks and stresses O37. Exposure to natural and urban hazards is reduced O38. Heatwaves and extreme heat are managed	P18. An environmentally friendly approach is applied to all new development P20. Development is managed to appropriately respond to hazards and risks	A84. Expand the Foreshore Scenic Protection Area across the LGA through Council's LEP 2020 A88. Develop and implement the Tree Management Policy to increase urban tree canopy and biodiversity across the LGA	The proposed controls under the <i>GRLEP 2020</i> which include the provisions associated with the foreshore scenic protection area (LSPS Action A84), minimum lot sizes and the proposed landscaped controls in residential and environmental protection zones, focus on the protection of the natural landscape including the tree canopy (LSPS Action A88), which will as a result mitigate the urban heat island effect and reduce vulnerability to extreme heat. The proposed Clause 6.11: "Design excellence" contains a requirement for developments to incorporate water sensitive urban design elements. The <i>GRLEP 2020</i> also includes provisions relating to the foreshore area and coastal hazards that seek to mitigate the impacts of sea level rise and tidal inundation as a result of climate change. The proposed up-zonings that will result in residential intensification under this Planning Proposal are located in existing urban areas and are not located in areas known to be prone to natural or urban hazards such as bushfire or sea level rise. <u>To mitigate the urban heat island effect, the proposed Clause 6.19: "Tree protection and landscaping in Zones R2 and R3" is introduced to mandate the provision of at least one tree on every site and the provision of two replacement trees for every tree that is approved to be removed. This clause will also enable Council to to enforce the removal of exotic tree species and the provision of locally endemic species as replacements.</u>
S19. Preparing local strategic planning	81. The Greater Sydney Commission will require a local environmental plan	O39. A collaborative approach to city planning	Not applicable – the preparation of the LSPS responds to this District Plan	Not applicable – the preparation of the LSPS responds to this District Plan	This Planning Proposal has been directly informed by the <i>Greater Sydney Region Plan</i> , the <i>South District Plan</i> and Council's draft <i>LSPS 2040</i> , which was on public exhibition between 26 June 2019 and 7 August 2019.

statements informed by local strategic planning	review		Priority.	Priority.	This Planning Proposal has been informed by an extensive evidence base comprising of specialist reports that have been prepared in response to the knowledge gaps identified through Council's LEP review process. These strategies and studies respond to the four themes of infrastructure and collaboration, liveability, productivity, and sustainability that underpin the <i>Greater Sydney Region Plan</i> and <i>South District Plan</i>. The full suite of relevant strategies and studies are listed in the LSPS. The LSPS proposes a staged approach to preparing the comprehensive Georges River LEP due to the detailed investigations required to support the full suite of changes proposed in the LSPS. The staged approach to preparing the Georges River LEP is outlined as follows: • Stage 1 – Housing and Harmonisation (this Planning Proposal) ◦ Harmonise the existing LEPs ◦ Seek to achieve housing targets through up-zoning certain areas • Stage 2 – Housing Choice (scheduled for 2021) ◦ Seek to promote inclusive and affordable housing ◦ Investigate big house conversions and build to rent • Stage 3 – Jobs and Activation (scheduled for 2022) ◦ Review development standards in centres ◦ Infrastructure delivery mechanisms ◦ Hurstville City Centre and Beverly Hills Local Centre masterplanning • Stage 4 – Housing and Future Growth (scheduled for 2025 and beyond) ◦ Undertake a new housing strategy as required
S20. Monitoring and reporting on the delivery of the Plan	82. Development performance indicators in consultation with state agencies and councils that ensure the 10 Directions to inform inter-agency, State and local government decision-making.	O40. Plans are refined by monitoring and reporting	P5. The community is involved in planning our future	A34. Engage the community on land use, development and infrastructure provision and consider the feedback in decision-making	As outlined above, Council has taken a staged approach in preparing the Georges River LEP to provide the opportunity for additional investigations and studies to be conducted which may subsequently result in other land use changes and/or future actions. Each stage of the LEP will be subject to a public exhibition process, enabling the community to make submissions and be involved in the planning process.
