

To provide greater flexibility in the management and use of Council's property portfolio, Council is proposing all its 'community' land holdings be classified as 'operational' lands. The legislative requirements set down for the administration of community lands are onerous, restrictive and result in additional cost and resource burden for Council. This additional cost does not translate into improved community or service delivery outcomes but rather curtails Council's capacity to manage its lands efficiently. The reclassification of this land will ensure it can continue to be used and managed for the purpose for which it was acquired, or to enable the lease or disposal of the land. Currently Council has not identified any of the properties for disposal.

To provide greater flexibility in the management and use of Council's property portfolio, Council is proposing all its 'community' land holdings be classified as 'operational' lands. The legislative requirements set down for the administration of community lands are onerous, restrictive and result in additional cost and resource burden for Council. This additional cost does not translate into improved community or service delivery outcomes but rather curtails Council's capacity to manage its lands efficiently. The reclassification of this land will ensure it can continue to be used and managed for the purpose for which it was acquired, or to enable the lease or disposal of the land. Currently Council has not identified any of the properties for disposal.

To provide greater flexibility in the management and use of Council's property portfolio, Council is proposing all its 'community' land holdings be classified as 'operational' lands. The legislative requirements set down for the administration of community lands are onerous, restrictive and result in additional cost and resource burden for Council. This additional cost does not translate into improved community or service delivery outcomes but rather curtails Council's capacity to manage its lands efficiently. The reclassification of this land will ensure it can continue to be used and managed for the purpose for which it was acquired, or to enable the lease or disposal of the land. Currently Council has not identified any of the properties for disposal.

Reason (Overall) for Change of Classifications	The reclassification of Council's community landholdings is in accordance with Council's Property Strategy which is built upon ensuring adequate and well maintained property infrastructure is available for core Council services. A sustainable property portfolio will meet the diverse needs of the community whilst generating an on-going commercial revenue stream for Council which can be reinvested into improved property assets which are aligned with future service delivery needs.
17. Current Classification	Community
18. Proposed New Classification	Operational
19. Specific Reason for Reclassification	Vacant Land
20. Council's Ownership	Yes
21. Council's Interest in the Land	Fee Simple
22. Acquisition Details	Transfer
23. Reason for Acquisition	Reserve
24. Agreements Over the Land	No
25. Identification of Gain or Loss from Reclassification	Nil
26. Identify Asset Management Objectives	Council's Property Strategy sets a framework to ensure existing assets are aligned with service delivery objectives and asset use is optimised to reduce cost and improve efficiency. Any divestment of surplus and non-performing assets will provide Council with additional capital for reinvestment into improved property assets aligned with future service delivery needs.
27. Identify any Agreement for Sale or Lease of Land	No
28. Relevant Plan Making Matters Under EP&A Act	All relevant matters including zoning and current and proposed use are included
29. Copy of Practice Note Department of Planning PN09-003	Included – attached to Planning Proposal.
30. Definition of Public Land Check List	"public land" means any land (including a public reserve) vested in or under the control of the council, but does not include: (a) a public road, or (b) land to which the Crown Lands Act 1989 applies, or (c) a common, or (d) land subject to the Trustees of Schools of Arts Enabling Act 1902, or (e) a regional park under the National Parks and Wildlife Act 1974.
31. Definition of Public Reserve Check List	"public reserve" means: (a) a public park, or

(b) any land conveyed or transferred to the council under section 340A of the Local Government Act 1919 , or
(c) any land dedicated or taken to be dedicated as a public reserve under section 340C or 340D of the Local Government Act 1919 , or
(d) any land dedicated or taken to be dedicated under section 49 or 50, or
(e) any land vested in the council, and declared to be a public reserve, under section 37AAA of the Crown Lands Consolidation Act 1913 , or
(f) any land vested in the council, and declared to be a public reserve, under section 76 of the Crown Lands Act 1989 , or
(g) a Crown reserve that is dedicated or reserved:
(i) for public recreation or for a public cemetery, or
(ii) for a purpose that is declared to be a purpose that falls within the scope of this definition by means of an order published in the Gazette by the Minister administering the Crown Lands Act 1989 ,
being a Crown reserve in respect of which a council has been appointed as manager of a reserve trust for the reserve or for which no reserve trust has been established, or
(h) land declared to be a public reserve and placed under the control of a council under section 52 of the State Roads Act 1986 , or
(i) land dedicated as a public reserve and placed under the control of a council under section 159 of the Roads Act 1993

To provide greater flexibility in the management and use of Council's property portfolio, Council is proposing all its 'community' land holdings be classified as 'operational' lands. The legislative requirements set down for the administration of community lands are onerous, restrictive and result in additional cost and resource burden for Council. This additional cost does not translate into improved community or service delivery outcomes but rather curtails Council's capacity to manage its lands efficiently. The reclassification of this land will ensure it can continue to be used and managed for the purpose for which it was acquired, or to enable the lease or disposal of the land. Currently Council has not identified any of the properties for disposal.

To provide greater flexibility in the management and use of Council's property portfolio, Council is proposing all its 'community' land holdings be classified as 'operational' lands. The legislative requirements set down for the administration of community lands are onerous, restrictive and result in additional cost and resource burden for Council. This additional cost does not translate into improved community or service delivery outcomes but rather curtails Council's capacity to manage its lands efficiently. The reclassification of this land will ensure it can continue to be used and managed for the purpose for which it was acquired, or to enable the lease or disposal of the land. Currently Council has not identified any of the properties for disposal.

To provide greater flexibility in the management and use of Council's property portfolio, Council is proposing all its 'community' land holdings be classified as 'operational' lands. The legislative requirements set down for the administration of community lands are onerous, restrictive and result in additional cost and resource burden for Council. This additional cost does not translate into improved community or service delivery outcomes but rather curtails Council's capacity to manage its lands efficiently. The reclassification of this land will ensure it can continue to be used and managed for the purpose for which it was acquired, or to enable the lease or disposal of the land. Currently Council has not identified any of the properties for disposal.

To provide greater flexibility in the management and use of Council's property portfolio, Council is proposing all its 'community' land holdings be classified as 'operational' lands. The legislative requirements set down for the administration of community lands are onerous, restrictive and result in additional cost and resource burden for Council. This additional cost does not translate into improved community or service delivery outcomes but rather curtails Council's capacity to manage its lands efficiently. The reclassification of this land will ensure it can continue to be used and managed for the purpose for which it was acquired, or to enable the lease or disposal of the land. Currently Council has not identified any of the properties for disposal.

To provide greater flexibility in the management and use of Council's property portfolio, Council is proposing all its 'community' land holdings be classified as 'operational' lands. The legislative requirements set down for the administration of community lands are onerous, restrictive and result in additional cost and resource burden for Council. This additional cost does not translate into improved community or service delivery outcomes but rather curtails Council's capacity to manage its lands efficiently. The reclassification of this land will ensure it can continue to be used and managed for the purpose for which it was acquired, or to enable the lease or disposal of the land. Currently Council has not identified any of the properties for disposal.

To provide greater flexibility in the management and use of Council's property portfolio, Council is proposing all its 'community' land holdings be classified as 'operational' lands. The legislative requirements set down for the administration of community lands are onerous, restrictive and result in additional cost and resource burden for Council. This additional cost does not translate into improved community or service delivery outcomes but rather curtails Council's capacity to manage its lands efficiently. The reclassification of this land will ensure it can continue to be used and managed for the purpose for which it was acquired, or to enable the lease or disposal of the land. Currently Council has not identified any of the properties for disposal.
