792 Seaham Road – Odour Assessment Monitoring Methodology Peer Review

1. Introduction

This letter presents the odour assessment monitoring methodology peer review findings of the RCA Australia document *PROPOSED METHODOLOGY FOR REVISED ODOUR ASSESSMENT, 792 SEAHAM ROAD, SEAHAM #RCA ref 15111a-102/0*.

2. Review Findings

2.1 Section 1 Preliminary Work

Section 1 describes the preliminary work involved in the assessment and is satisfactory.

2.2 Section 2 Site Surveys and Odour Monitoring

Section 2 describes the odour monitoring regime. The section includes:

- Where the monitoring is proposed
- When the monitoring is proposed
- Identifies potential limitations to the sampling regime
- Identifies the standards and methods which will be utilised.

Section 2 is satisfactory.

2.3 Section 3 Assessment Compilation and Reporting

Section 3 describes the reporting methodology based on the outcomes of the odour monitoring results and is satisfactory.

3. Recommendations and Conclusion

Generally, the proposed odour sampling and reporting methodology are satisfactory and can be utilised for monitoring of odour impacts from similar odour sources on other sites.

Should you have any further questions regarding this letter, please do not hesitate to contact Greg Collins on 0488512224 or greg@raptconsulting.com.au.

Thank you,

A handwritten signature in dark ink that reads "Greg Collins". The signature is written in a cursive style with a distinct loop at the end of the name.
