

COUNCIL ASSESSMENT OF DEPARTMENT OF PLANNING AND ENVIRONMENT'S 'A GUIDE TO PREPARING PLANNING PROPOSALS'

The Planning Proposal is considered to be generally in accordance with the requirements under Section 3.33 of the *Environmental Planning and Assessment Act 1979* and the Department of Planning and Environment (August 2016) '*A Guide to Preparing Planning Proposals*'. This document establishes six parts for consideration of a Planning Proposal:

PART 1 – OBJECTIVES OR INTENDED OUTCOMES

The objectives submitted by the proponent in support of the Planning Proposal to amend *Willoughby Local Environmental Plan 2012* are as follows:

- b) Provide an increased floor space and building height that improves viability of redevelopment.
- c) Ensure that environmental and amenity impacts associated with increased development yield are not unreasonably increased having regard to the desired future character of the locality and likely future redevelopment of neighbouring properties in accordance with the *Chatswood CBD Planning and Urban Design Strategy*.
- d) Enable more economic and efficient use of land and inclusion of additional affordable housing accessible to retail, public transport and other services.
- e) Provide affordable housing on a site that currently is not required to provide affordable housing.
- f) Provide for a significant area of landscaped outdoor open space and plaza area that will be accessible to the general community as well as persons residing or working within the buildings and visitors to the site.
- g) Provide active street frontages to both street frontages on Help Street and McIntosh Street and Cambridge Lane surrounding the site.

PART 3 – JUSTIFICATION

Questions to consider when demonstrating the justification

Section A - Need for the Planning Proposal

1) Is the Planning Proposal a result of any strategic study or report?

The Planning Proposal arises from the endorsement by Council of the *Chatswood CBD Planning and Urban Design Strategy*, which recommends land use, increased building height and development density for land within the Chatswood CBD and the expanded CBD boundaries.

The subject site is located within the expanded CBD boundaries and is identified as mixed use, with an increase in maximum building height to 90 metres and increase in floor space ratio up to 6:1 subject to satisfaction of other Strategy requirements.

The *Chatswood CBD Planning and Urban Design Strategy* has increased the CBD boundaries to include this location because it is close to the Chatswood City Centre, with significant transport infrastructure and urban services.

The increased commercial and residential density is intended to accommodate anticipated demand for employment and housing in the Willoughby Local Government Area.

Analysis supporting the application has been provided with the Planning Proposal.

2) Is the Planning Proposal the best means of achieving the objectives or intended outcomes, or is there a better way?

It is considered that the Planning Proposal is the best means of achieving the objectives and outcomes discussed above.

It is considered that this Planning Proposal may be assessed following Council endorsement of the Strategy and prior to formal amendments to *Willoughby Local Environmental Plan 2012* which may take two or three years to finalise.

Section B - Relationship to strategic planning framework

3) Is the planning proposal consistent with the objectives and actions of the applicable regional, sub-regional or district plan or strategy (including any exhibited draft plans or strategies)?

The Planning Proposal is consistent with the strategic objectives of the *Greater Sydney Region Plan* and the *North District Plan*, as well as the more detailed requirements of the *Chatswood CBD Planning and Urban Design Strategy*.

The *Greater Sydney Region Plan* and the *North District Plan* were released by the Greater Sydney Commission in March 2018. The *Greater Sydney Region Plan* will rebalance growth and deliver its benefits more equally and equitably to residents across Greater Sydney.

The *Greater Sydney Region Plan* is built on a vision of three cities where most residents live within 30 minutes of their jobs, education and health facilities, services and great places. Delivering a metropolis of three cities will be guided by 10 overarching directions, which provide interconnected infrastructure, productivity, liveability and sustainability benefits to all residents.

The North District forms a large part of the Eastern Harbour City and its economy is focused on the Harbour CBD which includes North Sydney as well as the strategic centres such as Chatswood within the Eastern Economic Corridor.

The Chatswood strategic centre comprises a mix of uses including retail, office, residential as well as community and health. Entertainment facilities and a vibrant night-time economy contribute to the amenity. Job targets for Chatswood as a strategic centre has informed the scale of growth and land use and infrastructure planning. Maintaining and growing a high quality commercial core will facilitate the continued growth of the centre as a major employment hub.

Chatswood remains a Strategic Centre located in the Eastern Economic Corridor. Chatswood is earmarked as a centre that should be attracting significant investment

and business activity in strategic centres to provide jobs growth; creating conditions the conditions for residential development within strategic centres but not at the expense of the attraction and growth of jobs, retailing and services; where appropriate, strategic centres should define commercial cores informed by an assessment of their need.

The *Chatswood CBD Planning and Urban Design Strategy* providing a response to the above strategic plans.

The Planning Proposal is considered consistent with the *Greater Sydney Region Plan* and *North District Plan* released March 2018 for the following reasons:

- The proposal provides a floorspace 6:1 FSR (including 5:1 FSR with a 4% affordable housing component, and 1:1 commercial floor space), an amount generally envisioned under the *Chatswood CBD Planning and Urban Design Strategy*.
- The commercial component supports and strengthens the commercial core of Chatswood by increasing the availability of jobs in an identified strategic centre with good access to existing and planned public transport services. The proposal will also provide more employment opportunities to local residents.
- The proposal will assist in meeting the housing supply targets in a location identified as Mixed Use in the Strategy.
- The additional housing is provided in a location close to existing and proposed transport and urban services infrastructure.
- The additional housing is in a location that is a walkable or cyclable distance to the Chatswood CBD centre.

The Department of Planning and Environment (August 2016) '*A Guide to Preparing Planning Proposals*' establishes specific assessment criteria to assist a Relevant Planning Authority.

Assessment Criteria

a) Does the proposal have strategic merit? Is it:
