

Gateway Determination

Planning proposal (Department Ref: PP-2021-3579): to increase the floor space ratio and building height controls and add an additional local provision for 203-231 Bronte Road and 94-98 Carrington Road, Waverley.

I, the Director, Eastern and South Districts at the Department of Planning, Industry and Environment, as delegate of the Minister for Planning and Public Spaces, have determined under section 3.34(2) of the *Environmental Planning and Assessment Act 1979* (the Act) that an amendment to the Waverley Local Environmental Plan (LEP) 2012 to increase the floor space ratio and building height controls and add an additional local provision for 203-231 Bronte Road and 94-98 Carrington Road, Waverley should proceed subject to the following conditions:

1. The planning proposal (including relevant attachments) is to be revised prior to public exhibition to address the matters set out below:
 - i. remove any reference to a 10% height variation and replace with a more general provision describing that a variation in height may be considered due to site topography and where the development does not result in any unreasonable massing or amenity impacts;
 - ii. provide a more detailed assessment against the relevant directions and actions in the Waverley Local Strategic Planning Statement;
 - iii. include correct reference to the Waverley Community Strategic Plan 2018-2029;
 - iv. provide shadow diagrams to describe the impact on the adjoining residential properties to the south, including the impact on the northern windows and private open space areas;
 - v. provide further information to illustrate solar access to the future residential dwellings within the concept scheme (for example, 'view from the sun' diagrams); and
 - vi. update the project timeline to reflect the timeframe allowed to complete the LEP.
2. The planning proposal is to contain a provision for a site-specific development control plan (DCP) to consider:
 - i. promoting movement, legibility and wayfinding through the site;
 - ii. ensuring safety and security, activation and casual surveillance;
 - iii. amenity of the courtyard, including solar access;
 - iv. a staging plan for future development; and
 - v. consideration of environmental impacts such as overshadowing, solar access and visual and acoustic privacy.

3. Prior to the finalisation of the planning proposal:
 - i. provide confirmation from an appropriately qualified consultant that the whole site is suitable in its contaminated state (or will be made suitable after remediation), for all the purposes for which the land in the zone is permitted to be used; and
 - ii. include a stage 1 preliminary site investigation of the Reece Plumbing site (229 and 231 Bronte Road, and 98 Carrington Road) in accordance with the requirements of section 9.1 Direction 2.6 Remediation of Contaminated Land.
3. Public exhibition is required under section 3.34(2)(c) and schedule 1 clause 4 of the Act as follows:
 - (a) the planning proposal must be made publicly available for a minimum of **28 days**; and
 - (b) the planning proposal authority must comply with the notice requirements for public exhibition of planning proposals and the specifications for material that must be made publicly available along with planning proposals as identified in section 6.5.2 of *A guide to preparing local environmental plans* (Department of Planning and Environment, 2018).
4. Consultation is required with the following public authorities/organisations under section 3.34(2)(d) of the Act and/or to comply with the requirements of relevant section 9.1 Directions:
 - Ausgrid;
 - Environment Protection Authority;
 - Heritage NSW;
 - Sydney Water; and
 - Transport for NSW.

Each public authority/organisation is to be provided with a copy of the planning proposal and any relevant supporting material and given at least 21 days to comment on the proposal.

5. A public hearing is not required to be held into the matter by any person or body under section 3.34(2)(e) of the Act. This does not discharge Council from any obligation it may otherwise have to conduct a public hearing (for example, in response to a submission or if reclassifying land).
6. The planning proposal authority is authorised as the local plan-making authority to exercise the functions under section 3.36(2) of the Act subject to the following:
 - (a) the planning proposal authority has satisfied all the conditions of the Gateway determination;
 - (b) the planning proposal is consistent with section 9.1 Directions or the Secretary has agreed that any inconsistencies are justified; and
 - (c) there are no outstanding written objections from public authorities.

7. The planning proposal must be placed on exhibition no later than 3 months from the date of the Gateway determination.
8. The planning proposal must be reported to council (or Planning Panel) for a final recommendation no later than 7 months from the date of the Gateway determination.
9. The time frame for completing the LEP is to be **9 months** following the date of the Gateway determination.

Dated 27 day of May 2021.
