**Record Number:** DOC2019/0920591

Hi Lisa,

In supporting this planning proposal Council resolved to retain the area zoned E2 on the site in order to protect the mapped EECs on site. More recent surveys have identified that there are areas zoned RU1 that also contain EECs. As such I am comfortable with amending the planning proposal, as a requirement of the Gateway, to rezone the areas identified as containing EECs to E2 rather than R2 as this approach would be consistent with the intent of Council's resolution.

Cheers,

Ed
