I, the Director Regions, Southern at the Department of Planning and Environment, as delegate of the Minister for Planning, have determined under section 3.34(2) of the *Environmental Planning and Assessment Act 1979* (the Act) that an amendment to the Shoalhaven Local Environmental Plan (LEP) 2014 to allow for a community title subdivision of large lot rural residential development and environmental conservation on Lot 3 DP846470, 48 Jervis Bay Road, Falls Creek should proceed subject to the following conditions:

1. Technical studies on flora and fauna assessment; onsite wastewater management plan; water quality and stormwater management; and bushfire hazard assessment are to be prepared and included in the planning proposal prior to public exhibition.
2. The explanation of the provisions and maps are to be updated, following the completion of the technical studies, into a revised planning proposal prior to public exhibition.

  - (a) the planning proposal must be made publicly available for a minimum of **28 days**; and
  - (b) the planning proposal authority must comply with the notice requirements for public exhibition of planning proposals and the specifications for material that must be made publicly available along with planning proposals as identified in section 5.5.2 of *A guide to preparing local environmental plans* (Department of Planning and Environment 2016).
4. Consultation is required with the following public authorities under section 3.34(2)(d) of the Act and/or to comply with the requirements of relevant section 9.1 Directions:

  - Department of Primary Industries Water
  - Shoalhaven Water

- Endeavour Energy and
- Jervis Bay Marine Park.
