

LOCAL PLANNING PANEL MINUTES

Council Chambers Canada Bay Civic Centre 1a Marlborough Street Drummoyne

26 July 2018

Dear Local Planning Panel Member,

A meeting of the Local Planning Panel will be held in the Council Chambers, Canada Bay Civic Centre, Drummoyne, on 26 July 2018.

MINUTES

- 1. Apologies
- 2. Disclosures of Pecuniary and Non-Pecuniary Interest
- 3. Reports

Peter Gainsford General Manager

26 July 2018

TABLE OF CONTENTS

Local Planning Panel Meeting 26 July 2018

ITEM -1	Planning Proposal Briefing Report - PP2018/0001 - 176- 184 George Street, Concord West 1
ITEM -2	34 Melbourne Street, Concord (DA2018/0038); Demolition of a heritage listed dwelling, and construction of an attached dual occupancy
ITEM -3	11 Barney Street Drummoyne; DA2018/0028; Demolition of existing and construction of a two storey attached dual occupancy, swimming pools and strata subdivision
ITEM -4	39 Cooper Street, Strathfield NSW 2135 (DA2017/0315); Conversion of existing ground floor commercial area in an existing mixed use development to ten (10) residential apartments

ITEM -1 PLANNING PROPOSAL BRIEFING REPORT - PP2018/0001 - 176-184 GEORGE STREET, CONCORD WEST

Mark Syke addressed the Panel. Alex Harb addressed the Panel.

RESOLVED

The Panel advised in relation to the Planning Proposal as follows:-

- 1. The Panel notes the contents of the report on the agenda.
- 2. The Panel advises Council that it supports the Planning Proposal in principle noting that it fulfils the strategic intent of strategic plans in particular the Regional Plan, District Plan, the Parramatta Road Strategy and Council's Concord West Precinct Masterplan.
- 3. The Panel supports the submission of the Planning Proposal to the Department of Planning for gateway determination.
- 4. The Panel notes planning being undertaken by Sydney Metro for new stations in either Concord West or North Strathfield.
- 5. The Panel recommends to the Applicant that it would be prudent they prepare an updated Detailed Site Investigation for the site prior to exhibition of the Planning Proposal.
- 6. The Panel notes the flood study undertaken and if these works are completed as required that this would satisfactorily manage flooding issues for the site while noting that neighbouring sites would have similar or worse flooding issues to manage and therefore the Panel would recommend that;
 - (a) Council prepare a detailed design for the proposed mitigation works
 - (b) The proposed discharge outlet to Powells Creek be detailed and submitted to Department of Lands/NSW Office of Water and Fisheries for their approval and acceptance during detailed design stage.
 - (c) Council undertake consultation with Sydney Water, Office of Environmental Heritage as well as the Department of Education and Communities (with respect to changes or works required to the school oval).
- 7. That the Voluntary Planning agreement should be exhibited concurrently with the Planning Proposal.
- 8. The draft Development Contributions Plan and draft Development Control Plan be exhibited concurrently with the Planning Proposal.
- 9. The Panel recommends that the Applicant consider increasing the percentage of affordable housing so as to achieve 5% of total GFA.
- 10. The Panel supports Council's request for delegation from the Department of Planning and Environment to manage the plan making process.

Page 1 of the Minutes of the Local Planning Panel Meeting of City of Canada Bay Council held on 26 July 2018.

11. The Panel is of the view that the upgrade of the George, Pomeroy and Beronga St intersection is important and urges further urgent negotiation between Council, the Department of Education and relevant transport agencies to ensure the works are completed in a timely manner.

VOTING

The voting in respect of this matter was 4/0.

For: Wells, Broyd, Savet Ward, McCaffrey

Against: Nil

ITEM -2 34 MELBOURNE STREET, CONCORD (DA2018/0038); DEMOLITION OF A HERITAGE LISTED DWELLING, AND CONSTRUCTION OF AN ATTACHED DUAL OCCUPANCY

Helen McCaffrey indicated a conflict of interest and excused herself from this Item.

Giuseppe Iannella of 32 Melbourne Street addressed the Panel. Charles Caldareri, owner of 34 Melbourne Street addressed the Panel. Paul Rappoport, heritage consultant for the Owner, addressed the Panel.

RESOLUTION AND STATEMENT OF REASONS

A. Pursuant to Section 4.16 of the Environmental Planning and Assessment Act 1979 (as amended)

THAT the Canada Bay Local Planning Panel resolve to refuse development consent to Development Application No 2018/0038 for the *demolition of a heritage listed dwelling and construction of an attached dual-occupancy* on land at 34 Melbourne Street, Concord as shown on Architectural plans prepared by J.A. Anzini Drafting and Building Services, numbered 170804A3, Issue 1, pages 1 to 20, dated 14 November 2017; Landscape plans prepared by Monaco Designs, numbered 4935, pages 1 to 2, dated 12 December 2017; Statement of Heritage Impact prepared by Heritage 21, Job No 3008E, dated January 2018; and Hydraulic Design prepared by J & F Designs, numbered 5079-1, pages 1 to 3, dated 7 December 2017 for the following reasons;

 Pursuant to Section 4.15(1)(a)(i) of the Environmental Planning and Assessment Act, 1979, the proposed development fails to satisfy objectives (a) and (b) of Clause 5.10 - Heritage Conservation in the Canada Bay Local Environmental Plan 2013 which encourages the conservation of heritage items including its associated fabric, setting and views.

Page 2 of the Minutes of the Local Planning Panel Meeting of City of Canada Bay Council held on 26 July 2018 .

- Pursuant to Section 4.15(1)(a)(iii) of the Environmental Planning and Assessment Act, 1979, the proposed development fails to comply with Part D2 - Development of Heritage Items in the Canada Bay Development Control Plan which outlines that heritage items have been identified as places that should be retained and conserved for future generations.
- 3. Pursuant to Section 4.15(1)(a)(iii) of the Environmental Planning and Assessment Act, 1979, the proposed development fails to comply with the objective to Part D2.11 *Demolition* of the Canada Bay Development Control Plan which prescribes that buildings that are of heritage significance should be retained. The existing dwelling is not so compromised or altered that there is no reasonable prospect of its original fabric, and characteristic form and key features being revealed and conserved. Therefore, the existing dwelling is considered to be of heritage significance and worthy of retention and conservation.
- 4. Pursuant to Section 4.15(1)(a)(iii) of the Environmental Planning and Assessment Act, 1979, the proposed development fails to comply with C1 to Part D2.11 - Demolition of the Canada Bay Development Control Plan which prescribes that buildings that are listed as heritage items should not be demolished. The existing dwelling is not considered structurally unsafe or unsound. Therefore retention and conservation of the heritage item is supported and encouraged.
- 5. Pursuant to Section 4.15(1)(a)(iii) of the Environmental Planning and Assessment Act, 1979, the proposed development fails to comply with E1.1 Part C2 Secondary Building Façade Articulation of the Canada Bay Development Control Plan which prescribes that a garage is not to be located within the primary façade and a secondary façade is to be setback 1.5metres from the primary building façade.
- 6. Pursuant to Section 4.15(1)(a)(iii) of the Environmental Planning and Assessment Act, 1979, the proposed development fails to comply with E2.3 C2 Solar Access of the Canada Bay Development Control Plan which prescribes that direct sunlight to north facing windows of habitable rooms and all private open space areas of adjacent dwellings should not be reduced to less than 3hours between 9am and 3pm on 21 June.
- Pursuant to Section 4.15(1)(a)(iii) of the Environmental Planning and Assessment Act, 1979, the proposed development fails to comply with Appendix 2 – Engineering Specifications on Vehicular Access and Stormwater Management of the Canada Bay Development Control Plan to ensure adequate stormwater collection and disposal and the safe access of vehicles into and out of the subject site.

Page 3 of the Minutes of the Local Planning Panel Meeting of City of Canada Bay Council held on 26 July 2018 .

- 8. Pursuant to Section 4.15(1)(e) of the Environmental Planning and Assessment Act, 1979, and having regard to the above reasons and the submission received objecting to the proposed development, approval of the application is not in the public interest.
- B. The Panel considered the assessment report in Item 2 on the meeting agenda, the information and material presented by submitters or representatives of the submitters, and the applicant/s and their representatives in their address to the Panel meeting, and the matters observed during the site inspection.

The Panel determined to refuse the Development Application subject to the reasons contained in the Recommendation to the assessment report and for the following additional reasons:-

- 1. The house is generally intact, but there is a substantial amount of work to be carried out due to damage caused by the previous tenants and inadequate maintenance over the years.
- 2. The opinion of Council's heritage advisor that the removal of a heritage item from the schedule should only be undertaken after a thorough study and within the context of a comparative analysis. Removing the house sets an undesirable precedent for other houses to be removed from the heritage inventory.
- 3. Cost of repairs required as a result of a lack of maintenance is not a reasonable basis to recommend the demolition of a heritage item, particularly when, in this case, no detailed schedule of works has been provided by a suitably qualified heritage expert to clearly demonstrate that the reconstruction or replacement of elements would be prohibitively expensive.
- 4. All options for conservation and management of the site do not appear to have been fully investigated including alternative development options which involve the retention of the heritage item.

VOTING

The voting in respect of this matter was 3/0.

For: Wells, Broyd, Savet Ward

Against: Nil

ITEM -3 11 BARNEY STREET DRUMMOYNE; DA2018/0028; DEMOLITION OF EXISTING AND CONSTRUCTION OF A TWO STOREY ATTACHED DUAL OCCUPANCY, SWIMMING POOLS AND STRATA SUBDIVISION

Julie Savet Ward indicated a conflict of interest and excused herself from this Item.

Page 4 of the Minutes of the Local Planning Panel Meeting of City of Canada Bay Council held on 26 July 2018 .

Raymond Panetta (applicant and architect) addressed the Panel

RESOLVED

Pursuant to Section 4.16 of the Environmental Planning and Assessment Act 1979 (as amended)

- A. THAT the Canada Bay Local Planning Panel assume the concurrence of the Secretary: Department of Planning and Environment and invoke the provisions of clause 4.6 of the *Canada Bay Local Environmental Plan 2013* and resolve that in the circumstance of the case a strict application of the statutory standards contained in Clause 4.1 in the *Canada Bay Local Environmental Plan 2013* is unnecessary and unreasonable.
- B. THAT the Canada Bay Local Planning Panel as the determining authority, grant consent to Development Application No. DA2018/0028 to Demolition of existing dwelling and construction of a two storey attached dual occupancy, swimming pools and strata subdivision on land at 11 Barney Street, DRUMMOYNE NSW 2047, subject to the following site specific conditions. In granting consent, the Panel has regard to the merit considerations carried out in the assessment report and pursuant to s.4.15 of the Environmental Planning and Assessment Act. On consideration of the merits of the case, the Panel acknowledges the areas of non-compliance arising from the application but notes that it supports the application based on the particular circumstances of the case and does not consider that the consent gives rise to a precedent.

General Conditions

1. DAGCA01 - Approved Plans and Supporting Documents

The development shall be carried out substantially in accordance with the approved stamped and signed plans and/or documentation listed below **except where modified by any following condition**. Where the plans relate to alteration or additions only those works shown in colour or highlighted are approved.

Reference/Dwg No	Title/Description	Prepared By	Date/s

- *Note 1*: Modifications to the approved plans will require the lodgement and consideration by Council of a modification pursuant to Section 4.55 of the Environmental Planning and Assessment Act.
- Note 2: A warning to all Accredited Certifiers. You should always insist on sighting the original Council stamped approved plans/documentation and not rely solely upon the plan reference numbers in this condition. Should the applicant not be able to provide you with original copies, Council will provide you with access to its files so you that may review our original copies of approved documentation.
- Note 3: The approved plans and supporting documentation may be subject to conditions imposed under section 4.17 of the Act modifying or amending the development (refer to conditions of consent which must be satisfied prior to the issue of any Construction Certificate).

(Reason: To confirm and clarify the terms of consent)

2. <u>DAGCA03 - Construction within Boundary</u> All approved construction including but not limited to footings, walls, roof

All approved construction including but not limited to footings, walls, roof barges and guttering are to be constructed wholly within the boundaries of the premises.

(Reason: To ensure compliance with approved plans)

3. DAGCB03 - Front Fence Height

Page 6 of the Minutes of the Local Planning Panel Meeting of City of Canada Bay Council held on 26 July 2018 .

The new front fence is to be a maximum height of 1.2 metres above Council's footpath at any point of measurement, the fence being stepped if necessary to comply with the height requirement.

(Reason: Streetscape)

4. DAGCB06 - Height

The maximum height of the proposed development shall be A.H.D. 37.25 metres and measured at top most ridge line.

(Reason: Compliance)

5. DAGCB07 - Lighting

Any lighting on the site shall be designed so as not to cause a nuisance to other residences in the area or to motorists on nearby roads and to ensure no adverse impact on the amenity of the surrounding area by light overspill. All lighting shall comply with relevant standards in this regard.

(Reason: Protect amenity of surrounding area)

6. DAGCB10 - Site Management

The following procedures apply:

- (a) Implement the site management plan and measures, and provide for erosion and sediment control according to the SSROC "Do It Right On Site" publication;
- (b) Prevent sediment and/or building materials being carried or washed onto the footway, gutter, road, or into Council's stormwater drainage system;
- (c) Ensure soil/excavated material is not transported on wheels or tracks of vehicles or plant and deposited on surrounding roadways;
- (d) Ensure safe access to and from the site including the road reserve and footpath area, crossings by heavy equipment, plant and materials delivery, or static loads from cranes, concrete pumps and the like;
- (e) Ensure safe loading and unloading of excavation machines, building materials, formwork and the erection of the structures within the site;
- (f) Ensure storage on site of all excavated material, construction materials and waste containers during the construction period (except where otherwise approved); and
- (g) Ensure support of any excavation beside any adjoining property or the road reserve is designed by a Chartered Civil Engineer.

(Reason: Environmental protection)

7. DAGCB12 - Street Numbering of Lots and Units

The proposed units and/or new allotments shall be numbered as follows:-

- Northern dwelling - 11A Barney Street, Drummoyne

Page 7 of the Minutes of the Local Planning Panel Meeting of City of Canada Bay Council held on 26 July 2018 .

- Southern dwelling - 11 Barney Street, Drummoyne

Numbering of units/properties shall be conspicuously displayed at the front of the property and shall be maintained in accordance with Council's Street Numbering Policy.

Should the property be strata subdivided, the approved numbering system shall be included in the final plans of strata subdivision.

(Reason: Identification of Property for Emergency Services and Mail Deliveries)

8. DAGCB13 - Swimming Pool /Spa

The approved swimming pool/spa must comply with the *Swimming Pools Act 1992* and relevant standards.

(Reason: Statutory requirement)

9. DAGCB14 - Swimming Pool/ Spa Pump Noise

The swimming pool or spa pump/s must comply with the requirements of Protection of the Environment Operations (Noise Control) Regulation 2008 and shall not:

- (a) emit noise that is audible within a habitable room in any other residential property (regardless of whether any door or window to that room is open):
 - (i) before 8.00am and after 8.00pm on any Saturday, Sunday or public holiday; or
 - (ii) before 7.00am and after 8.00pm on any other day; or
- (b) emit a sound pressure level when measured at the boundary of any other residential property, at a time other than those *specified* in (i) and (ii) above, which exceeds the background ($L_{A90, 15minutes}$) by more than 5dB(A). The source noise level must be measured as a LAeq 15 minute.

(Reason: Amenity and Compliance)

10. DAGCB15 - Telecommunications /TV Antennae

No more than one telecommunications/TV antenna will be provided to each dwelling/building.

(Reason: Environmental amenity)

11. DAGCB16 - Tree Preservation

All street trees and trees on private property that are protected under Canada Bay Council's controls, shall be retained except where Council's prior written consent has been obtained.

Page 8 of the Minutes of the Local Planning Panel Meeting of City of Canada Bay Council held on 26 July 2018 .

(*Reason: Tree preservation*)

12. DAGCB17 - Weed Control

The person having the benefit of the development consent must undertake appropriate measures to ensure that, as a result of demolition; land left vacant does not become an area of weed seed production on the site and to prevent their spread into surrounding bushland or public open space areas.

(Reason: Environmental amenity)

13. ~DAGCD01 - Approved Stormwater Drainage Design

The stormwater drainage system for the proposed development shall be constructed in accordance with the following approved plans and documentation, endorsed with Council's Stamp, and Council's "Appendix 2 -Engineering Specifications of the Canada Bay Development Control Plan", except where amended by other conditions of consent:

Drawing No. /Revision	Title	Prepared by:	Dated:
No.			
C-3293-01, Issue 2	Stormwater Drain	agePavel Kozarovski	04.05.18
	Plan		

Important Note:

• The approved Stormwater Drainage Plan as identified above is for Concept Only. The designer is responsible for providing sufficient information and/or updates to the Stormwater Drainage Plan suitable for Construction Certificate approval.

• Should any changes be required to the approved stormwater drainage plan as referred to above, the amended design shall achieve equivalent performance standards in accordance with Council's "Appendix 2 - Engineering Specifications of the Canada Bay Development Control Plan".

• Construction Certificate Approval does not include approval for works external to the property. Where the proposed design extends beyond the property boundary, separate approval under Section 138 of the Roads Act 1993, must be obtained from Council prior to the commencement of works. The applicant is advised to contact Council for clarification of proposed works for which approval under Section 138 applies.

(Reason: Stormwater management)

Conditions which must be satisfied prior to the commencement of demolition of any building or structure

14. <u>DAPDB01 - Construction Certificate - Prior to the Commencement of any Demolition Works</u>

Where demolition is associated with the erection of a new structure, or an altered portion of or an extension to an existing building, the demolition of any part of a building is "commencement of building work" pursuant of section 6.6 of the Act. In such circumstance all conditions of this consent must be satisfied prior to any demolition work. This includes, but is not limited to, the **issue of a Construction Certificate, appointment of a PCA and Notice of Commencement under the Act**.

(Reason; Statutory Requirement)

15. DAPDB02 - Demolition

Demolition - General

- a. That two (2) working days (i.e. Monday to Friday exclusive of public holidays) prior to the commencement of any demolition work, notice in writing is to be given to the Council. Such written notice is to include:
 - The date when demolition will commence,
 - Details of the name, address and business hours contact telephone number of the demolisher, contractor or developer.
 - The licence number of the demolisher, and relevant WorkCover licenses, (see minimum licensing requirements in (d) below, and
 - Copies of the demolisher's current public liability/risk insurance policy indicating a minimum cover of \$10,000,000.00.
- b. Demolition of buildings and structures must comply with all current and relevant Australian Standards.
- c. Demolition works are restricted as follows:
 - Monday to Saturday inclusive 7:00am 5:00pm
 - Sundays and Public Holidays No work
- d. At least two (2) working days (i.e. Monday to Friday exclusive of public holidays), the developer or demolition contractor must notify adjoining residents prior to demolition commencing advising the following:
 - The date when demolition will commence;
 - Details of the name, address and business hours contact telephone number of the demolisher, contractor or developer;
 - The telephone number of WorkCover's Hotline 13 10 50.

Demolition Involving the Removal of Asbestos

Page 10 of the Minutes of the Local Planning Panel Meeting of City of Canada Bay Council held on 26 July 2018 .

General Information

Homes built or renovated prior to 1987 are likely to contain asbestos. Asbestos is most commonly found within eaves, internal and external wall cladding, ceilings and walls (particularly within wet areas such as bathrooms and laundries), and fences. Unless properly handled, asbestos disturbed or removed during renovations can cause the development of asbestos related diseases, such as asbestosis, lung cancer and mesothelioma.

To ensure work does not cause undue risk please see the following site for further information: www.asbestosawareness.com.au

Asbestos to be removed by licensed asbestos removalist

All works removing asbestos containing materials must be carried out by a suitably licensed asbestos removalist duly licensed with Workcover NSW, holding either a Friable (Class A) or a Non- Friable (Class B) Asbestos Removal License which ever applies AND a current WorkCover Demolition License where works involve demolition.

NOTE:

• Removal of asbestos by a person who does not hold a Class A or Class B asbestos removal license is permitted if the asbestos being removed is $10m^2$ or less of non-friable asbestos (approximately the size of a small bathroom).

Friable asbestos materials must only be removed by a person who holds a current Class A asbestos license.

• To find a licensed asbestos removalist please see <u>www.workcover.nsw.gov.au</u>

Compliance with applicable Legislation, Policies and Codes of Practice

Asbestos removal works are to be undertaken in accordance with the following:

- NSW Work Health and Safety Act and Regulation 2011;
- Safe Work Australia Code of Practice for the Management and Control of Asbestos in the Workplace [NOHSC:2018(2005)]
- NSW Government WorkCover Code of Practice How to Safely Remove Asbestos;
- NSW Government WorkCover Code of Practice How to Manage and Control Asbestos in the Workplace; and

Clearance certificate

Following completion of asbestos removal works undertaken by a licensed asbestos removalist re-occupation of a workplace must not occur until an independent and suitably licensed asbestos removalist undertakes a clearance inspection and issues a clearance certificate.

Page 11 of the Minutes of the Local Planning Panel Meeting of City of Canada Bay Council held on 26 July 2018 .

Notification of asbestos removal works

At least two (2) working days (i.e. Monday to Friday exclusive of public holidays), the developer or demolition contractor must notify adjoining residents prior to the commencement of asbestos removal works. Notification is to include, at a minimum:

- The date and time when asbestos removal works will commence;
- The name, address and business hours contact telephone number of the demolisher, contractor and/or developer;
- The full name and license number of the asbestos removalist/s; and
- The telephone number of WorkCover's Hotline 13 10 50

Warning signs must be placed so they inform all people nearby that asbestos removal work is taking place in the area. Signs should be placed at all of the main entry points to the asbestos removal work area where asbestos is present. These signs should be weatherproof, constructed of light-weight material and adequately secured so they remain in prominent locations. The signs should be in accordance with AS 1319-1994 Safety signs for the occupational environment for size, illumination, location and maintenance.

Barricades

Appropriate barricades must be installed as appropriate to prevent public access and prevent the escape of asbestos fibres. Barricades must be installed prior to the commencement of asbestos removal works and remain in place until works are completed.

(*Reason: To ensure compliance with the relevant legislation and to ensure public and work safety*)

16. DAPDB03 - Site Safety Fencing - Demolition only

Erect site fencing to a minimum height of 1.8m complying with WorkCover Guidelines, to exclude public access to the site throughout the demolition. The fencing **must be erected before the commencement of any demolition work** and maintained.

The site shall be maintained in a clean and orderly condition during demolition works.

Hoardings

If applicable, a separate Hoarding Application for the erection of an A class (fence type) or B class (overhead type) hoarding along the street frontage(s) complying with WorkCover requirements must be obtained including:

• payment to Council of a footpath occupancy fee based on the area of footpath to be occupied and Council's Schedule of Fees and Charges before the commencement of work; and

Page 12 of the Minutes of the Local Planning Panel Meeting of City of Canada Bay Council held on 26 July 2018 .

• provision of a Public Risk Insurance Policy with a minimum cover of \$10 million in relation to the occupation of and works within Council's road reserve, for the full duration of the proposed works, must be obtained with a copy provided to Council.

(Reasons: Statutory Requirement and health and safety)

17. DAPDB04 - Tree Preservation - during demolition

All street trees and trees on private property that are protected under Canada Bay Council's controls, shall be retained and protected during demolition works except where Council's prior written consent has been obtained.

(Reason: Tree Preservation and Protection)

18. DAPDB05 - Erosion and Sediment Control During Demolition

Erosion and sedimentation controls shall be in place **prior to the commencement of demolition works** and shall be maintained throughout the demolition of the building and any regrading of the ground levels, approved removal of vegetation etc. The controls shall be installed in accordance with the details approved by Council and/or as directed by Council officers. These requirements shall be in accordance with Managing Urban Stormwater - soils and Construction produced by Landcom (Blue Book). A copy of the Erosion and Sediment Control Plan must be kept on site during the demolition works and made available to Council officers on request.

(Reason: Environmental protection)

Conditions which must be satisfied prior to the issue of a Construction Certificate

19. DACCB02 - Damage Deposit for Council Infrastructure

A Damage Deposit (calculated in accordance with Council's adopted Fees and Charges) of **\$20,000** shall be paid to Council **prior to the issue of the Construction Certificate**.

This Damage Deposit shall be refunded upon completion of all works, at the Occupation or Final Certificate stage.

Any costs associated with works necessary to be carried out to rectify any damages caused by the development, shall be deducted from the Damage Deposit.

Note: Full panel concrete footpath replacement in areas where connection to all services are required. This includes driveways and road concrete panels. This will stop differential settlement and maintain the integrity of council infrastructure and asset.

Page 13 of the Minutes of the Local Planning Panel Meeting of City of Canada Bay Council held on 26 July 2018 .

(Reason: Protection of Council infrastructure)

20. DACCB03 - Long Service Levy Payments

The payment of a long service levy as required under part 5 of the *Building* and Construction Industry Long Service Payments Act 1986, in respect to this building work, and in this regard, proof that the levy has been paid, is to be submitted to Council **prior to the issue of a Construction Certificate**. Council acts as an agent for the Long Services Payment Corporation and the levy may be paid at Council's Office.

(*Reason: Statutory requirement*)

21. DACCB04 - Section 7.11 Contributions

The following Section 7.11 Development Contributions are required towards the provision of public amenities and services in accordance with the City of Canada Bay s7.11 Development Contributions Plan.

Infrastructure Type	Per Person Contribution	Studio/One bedroom dwelling	Two bedroom dwelling	Three + bedroom dwelling
Community Facilities	\$793.88	\$1,143.17	\$1,627.41	\$2,179.39
Civil Infrastructure	\$770.77	\$1,109.89	\$1,580.03	\$2115.94
Plan Preparation and Administration	\$87.19	\$125.55	\$178.73	\$239.35
Open Space and Recreation	\$5,633.59	\$8,112.24	\$11,548.47	\$15465.32
TOTAL	\$7,285.43	\$10,490.85	\$14,934.64	\$20,000

Based on the following rates, as at March 2018 (CPI 113.6)

Based on the following number of Dwellings and Bedrooms:

No. of Dwellings	No. of Studio &	No. of Two beds	No. of Three or more
	One beds		beds
	0	0	1
TOTAL			\$20,000

Any change in the Consumer Price Index between March 2018 (CPI 113.6) and the date that the Section 7.11 Development Contribution is paid, will be added/subtracted from the amount cited above.

Contributions must be receipted by Council and submitted to the Accredited Certifier **prior to the issue of any Construction Certificate**.

Please present a copy of this condition when paying the contribution at the Customer Service Centre so that it can be recalculated.

Page 14 of the Minutes of the Local Planning Panel Meeting of City of Canada Bay Council held on 26 July 2018 .

A copy of the City of Canada Bay Section 7.11 Development Contributions Plan may be obtained from Council's website.

(*Reason:* To retain a level of service for the existing population and to provide the same level of service to the population resulting from new developments)

22. DACCE01 - Amendments to Approved Plans

The following amendments shall be made to the approved plans prior to the issue of a Construction Certificate:-

Landscape Plan

- a) In order to ensure that the proposed planting achieves effective privacy screening, and the proposed tree plantings are appropriate for the location and the size of the rear yard and courtyard areas within which each tree is proposed to be planted, the landscape plan and planting plan approved in Condition No. 1 shall be amended to:-
 - The Tiger Grass adjoining the western boundary shall be deleted and replaced with planting to form a hedging screen along the entire western boundary consisting of Acmena smithii vaminor (Dwarf Lilli Pilly). This will require the pool plant to be relocated a minimum of 1m from the western boundary. Aminimum of six (6) specimens per dwelling shall be provided.
 - Swap the location of the 2 x Dragon Trees located at the rear of the site with the 2 x Blueberry Ash trees proposed within the side courtyards to each dwelling. For clarity, the landscape plan is to be amended to include the planting of a Dragon Tree in each of the side courtyards and a Blueberry Ash Tree is to be planted in each of the rear yards.

Note: This involves a change to the Development Application plans as submitted to and approved by Council. Any changes in this regard shall be reflected as amended plans to be submitted to the Accredited Certifier **prior to the issue of a Construction Certificate** for the proposed development.

(*Reason: To confirm and clarify the terms of Council's approval*)

23. DACCE02 - Construction Management Plan

Prior to the issue of a Construction Certificate, submit to the Accredited Certifier a Construction Management Plan that clearly sets out the following:

(a) What actions and works that are proposed to ensure safe access to and from the site, and what protection will be provided to the road and footpath area from building activities, crossings by heavy equipment, plant and materials delivery, or static loads from cranes, concrete pumps and the like.

Page 15 of the Minutes of the Local Planning Panel Meeting of City of Canada Bay Council held on 26 July 2018 .

- (b) The proposed method of loading and unloading excavation machines, building materials, formwork, and the erection of any part of the structure within the site.
- (c) The proposed areas within the site to be used for a builder's site office and amenities, the storage of excavated material, construction materials and waste containers during the construction period.
- (d) How it is proposed to ensure that soil/excavated material is not transported on wheels or tracks of vehicles or plant and deposited on surrounding roadways.
- (e) The proposed method of support to any excavation adjacent to adjoining properties, or the road reserve the proposed method of support is to be designed by a Chartered Civil Engineer.
- (f) A Soil and Water Management Plan detailing all sedimentation controls.

(*Reason: Safety, amenity and protection of public infrastructure and the environment*)

24. DACCE04 - Obtaining a Construction Certificate for Building Work

This Development Consent does not constitute approval to carry out construction work. Construction work may only commence **upon the issue of a Construction Certificate, appointment of a Principal Certifying Authority (PCA), and lodgement of Notice of Commencement**.

Please note that if demolition works forms part of the extent of works approved in the same application, then demolition must not commence **prior** to the issue of a Construction Certificate.

(Reason: Information)

25. DACCH00 - Obscure Glazing for Privacy in Wet Areas

All bathroom, ensuite and toilet windows shall be installed with obscure glazing.

(Reason: Amenity)

26. DACCI01 - Damage Report

Prior to the issue of the Construction Certificate, a Damage Report Form shall be completed and submitted to Council. This Damage Report Form is for the evaluation of the existing condition of the road reserve, and shall be filled out and signed by the Applicant and submitted to Council. This form is generally for "minor works" (as defined in the Driveways and Ancillary Works Application Form). For "major works", a Dilapidation Report will be required.

This Form is used to assist Council in determining the refund of any damage

Page 16 of the Minutes of the Local Planning Panel Meeting of City of Canada Bay Council held on 26 July 2018 .

deposits and any likely repairs necessary upon the completion of the development.

When lodging the Damage Report Form, fees are payable in accordance with Council's fees and charges schedule, which will go towards administration and inspection costs.

The cost of repairing any damage to Council property (including the footpath, verge, street trees, kerb, gutter, road pavement or the like) during and/or immediately after construction must be paid to Council or shall be deducted from the damage deposit bond. Repair of damaged Council property by the Applicant or his agent is not permitted unless approved by Council.

For roadways requiring asphaltic concrete works or adjustment works, these shall be done to a minimum width as specified by Council. Minimum dimensions are given in Council's Specification for Driveway Construction or Specification for Restoration Works.

(Reason: Maintain public assets)

27. DACCI03 - Protection of Public Places

The adjoining or adjacent public area is not to be obstructed by any materials, vehicles, refuse skips and the like, under any circumstances unless approved in writing by Council.

If the work involved in the demolition or construction of a building is likely to cause pedestrian or vehicular traffic in a public place to be obstructed or rendered inconvenient, or building involves the closure of a public place, a barrier, fence or hoarding shall be erected **prior to the commencement of any work** subject to approval of a Traffic Management Plan.

An application to occupy public space is to be submitted to Council for approval prior to commencement of works.

Where a hoarding is required, an application for hoarding is also to be submitted to and approved by Council prior to commencement of any work. Hoardings shall be erected to comply with the requirements of WorkCover, the Principal Certifying Authority and with relevant Australian Standards.

(Reason: Safety)

28. DACCI05 - Vehicular Crossings

Full-width, heavy-duty concrete vehicular crossing(s) shall be installed across the footpath at the entrance(s) and/or exit(s) to the site, subject to separate Council approval. In this regard the Applicant must obtain a copy of Council's "Appendix 2 - Engineering Specifications of the Canada Bay

Page 17 of the Minutes of the Local Planning Panel Meeting of City of Canada Bay Council held on 26 July 2018 .

Development Control Plan" and lodge an application for vehicular crossing(s) (available from Council's Customer Services Centre or can be downloaded from Council's website), and pay the appropriate fees and charges **prior to the lodgement of the Construction Certificate**.

(Reason: To ensure appropriate access to the site can be achieved)

29. DACCJ02 - Redundant Vehicular Crossings and Ancillary Works

Where new pavement, repair or reinstatement of footpath or other ancillary works such as kerb and gutter and stormwater pit construction is proposed, the Applicant shall complete a Section 138 Civil Works in the Public Domain Area Application for major works, or for minor works (as defined in the Driveways & Ancillary Works Application) adjacent to the site, an application for "Driveway & Ancillary Works" and submit the application to Council for approval **prior to the issue of a Construction Certificate.** Both forms are available from Council's Customer Services Centre or can be downloaded from Council's website.

All disused or redundant vehicle crossings and laybacks shall be removed and reinstated with concrete kerb and gutter or to the existing edging profile as specified by Council and the footpath area is to be restored to the satisfaction of Council's Utilities & Development Engineer, **prior to the issue of the Occupation Certificate.**

(*Reason: Public infrastructure maintenance*)

30. DACCK01 - Application for a Construction Certificate

The applicant must apply to Council or an Accredited Certifier for a Construction Certificate to carry out the relevant building works that are approved by this consent. The details to be included in the application for a Construction Certificate are:

- (a) Architectural plans and specifications complying with the Building Code of Australia (BCA), relevant Australian Standards, and the development consent and conditions.
- (b) If Council issues the Construction Certificate, engineering details must be submitted for approval for all structural elements, including but not limited to, piers, footings, reinforced concrete slab, first floor joist layout, roof trusses, steel beams and the like. The details must be prepared by a practising consulting structural engineer. Also a certificate from the engineer must be included certifying that the design fully complies with appropriate SAA Codes and Standards and the Building Code of Australia requirements.

Note: The engineer/s undertaking certification must be listed on the National Professional Engineers Register under the appropriate category.

Page 18 of the Minutes of the Local Planning Panel Meeting of City of Canada Bay Council held on 26 July 2018 .

- (c) If an alternative solution to the "deemed to satisfy" provisions of BCA is proposed, the following details must be lodged:
 - Performance requirements that the alternative solution intends to meet.
 - Assessment methods used to determine compliance with the performance requirements, including if and how each performance objective impacts on other requirements of the BCA; and
 - A statement about the person who prepared the alternate solution, indicating qualifications, experience, insurance details, and membership of an approved accreditation body
 Note: The performance-based application may be required to be reviewed by a suitably qualified independent body at the applicant's expense. Any fees relating to any review are required to be paid prior to the issue of the Construction Certificate.

(Reason: Statutory requirement)

31. DACCK02 - BASIX Commitments

The approved BASIX Certificate shall be submitted to the Accredited Certifier with the application for a Construction Certificate.

Where a change or changes are proposed in the BASIX commitments, the applicant must submit a new BASIX Certificate to the Accredited Certifier and Council. If any proposed change in the BASIX commitments is inconsistent with the development consent the applicant will be required to submit a modification to the development consent to Council under Section 4.55 of the Environmental Planning and Assessment Act 1979.

All commitments in the BASIX Certificate must be shown on the plans accompanying the Construction Certificate **prior to the issue of any Construction Certificate**.

(Reason: Statutory Compliance)

32. DACCL02 - Certification of the Stormwater Drainage System Design

The proposed stormwater design shall be certified by a suitably qualified person, in accordance with Council's "Appendix 2 - Engineering Specifications of the Canada Bay Development Control Plan", and shall be submitted to the Principal Certifying Authority **prior to the issue of the Construction Certificate**.

Certification of the proposed stormwater design shall be obtained from a Chartered Professional Civil Engineer with Institution of Engineers, Australia Corporate Membership and registered on the National Engineers Register (NER) and shall be submitted to the Principal Certifying Authority **prior to**

Page 19 of the Minutes of the Local Planning Panel Meeting of City of Canada Bay Council held on 26 July 2018 .

the issue of the Construction Certificate. (Delete this paragraph if works are for minor residential structures or additions)

(Reason: Adequate stormwater management)

33. DACCL04 - Erosion and sedimentation controls

Erosion and sedimentation controls must be provided to ensure:

- (a) Compliance with the approved Soil and Water Management Plan
- (b) Removal or disturbance of vegetation and top soil is confined to within 3m of the approved building area (no trees to be removed without approval)
- (c) All uncontaminated run-off is diverted around cleared or disturbed areas
- (d) Silt fences or other devices are installed to prevent sediment and other debris escaping from the cleared or disturbed areas into drainage systems or waterways
- (e) All erosion and sediment controls are fully maintained for the duration of demolition/ development works
- (f) Controls are put into place to prevent tracking of sediment by vehicles onto adjoining roadways
- (g) All disturbed areas are rendered erosion-resistant by turfing, mulching, paving or similar
- (h) All water pumped or otherwise removed from excavations or basement areas is filtered to achieve suspended solids/non filterable residue levels complying with the *Australian Water Quality* guidelines for Fresh and Marine Waters
- (i) Pumped or overland flows of water are discharged so as not to cause, permit or allow erosion before the commencement of work (and until issue of the occupation certificate).

Details of the proposed soil erosion and sedimentation controls to be implemented on site must be submitted **with the Construction Certificate Application**. Under no circumstances may any works commence prior to these details being approved by the Accredited Certifier and the controls being in place on the site

(Reason: Environmental protection)

34. DACCL05 - Grated Drain to Garage

A grated trench drain shall be provided across each driveway at the street boundary. Unless otherwise designed by a Qualified Civil Engineer, the dimensions of the trench grate shall not be less than 200mm wide by 150mm deep at the shallow end, and have a "bottom" slope of 2 %. This trench drain shall be connected to an approved drainage system. The grated drain calculation shall be in accordance with AS/NZS3500.

Page 20 of the Minutes of the Local Planning Panel Meeting of City of Canada Bay Council held on 26 July 2018 .

The above information must be indicated on all relevant drawings to be submitted with the Construction Certificate.

(Reason: Environmental protection)

35. DACCL06 - Rainwater Harvesting

A rainwater harvesting system shall be provided in accordance with either the BASIX minimum requirements, any relevant Council Rainwater Re-use Policy and/or "Appendix 2 - Engineering Specifications of the Canada Bay Development Control Plan", whichever is applicable. A detailed stormwater plan showing the proposed re-use system shall be submitted and approved by Council or an Accredited Certifier **prior to the issue of the Construction Certificate**.

(Reason: Compliance and Amenity)

36. DACCL07 - Silt Arrestors and Gross Pollutant Traps

Silt and gross pollutant traps shall be fitted in all stormwater pits, designed in accordance with Council's "Appendix 2 - Engineering Specifications of the Canada Bay Development Control Plan" and to the satisfaction of Council or an Accredited Certifier. Details are to be submitted with the design **prior to the issue of the Construction Certificate**.

(Reason: Environmental Protection)

Conditions which must be satisfied prior to the commencement of any development work

37. DAPCB01 - Appointment of Principal Certifying Authority

No work shall commence in connection with this Development Consent until:

- (a) A construction certificate for the building work has been issued by: (i) the consent authority; or
 - (ii) an accredited certifier; and
- (b) the person having the benefit of the development consent has:
 - (i) appointed a principal certifying authority for the building work, and
 - (ii) notified the principal certifying authority that the person will carry out the building work as an owner-builder, if that is the case, and
- (b1) the principal certifying authority has, no later than 2 days before the building work commences:
 - (i) notified the Council of his or her appointment, and
 - (ii) notified the person having the benefit of the development consent of any critical stage inspections and other inspections that are to be carried out in respect of the building work, and

Page 21 of the Minutes of the Local Planning Panel Meeting of City of Canada Bay Council held on 26 July 2018 .

- (b2) the person having the benefit of the development consent, if not carrying out the work as an owner-builder, has:
 - (i) appointed a principal contractor for the building work who must be the holder of a contractor licence if any residential building work is involved, and
 - (ii) notified the principal certifying authority of such appointment, and
 - (iii) unless that person is the principal contractor, notified the principal contractor of any critical stage inspections and other inspections that are to be carried out in respect of the building work, and
- (c) the person having the person having the benefit of the development consent has given at least 2 days notice to the Council of the person's intention to commence the erection of the building.
- Note: If the principal certifying authority is the Council, the nomination will be subject to the payment of a fee for the service to cover the cost of undertaking all necessary inspections and the issue of the appropriate certificates.

Under the Environment Planning and Assessment (Quality of Construction) Act, 2003, a sign must be erected in a prominent position on the work site showing the name, address and telephone number of the principal certifying authority; the name of the principal contractor (if any) for the building work and a telephone number at which that person may be contacted outside working hours. That sign must also state that unauthorised entry is prohibited. The sign must not be removed until all work has been completed.

(*Reason: Statutory requirements*)

38. DAPCB02 - Construction Certificate

No work shall commence until you:

- (a) Obtain a Construction Certificate from either the City of Canada Bay Council or an Accredited Certifier - a fee applies for this service; and
- (b) Lodge with the City of Canada Bay Council any Construction Certificate obtained from an Accredited Certifier (together with associated plans and documents) - a fee applies for this service

(Reason: Statutory Requirement)

39. DAPCB04 - Home Building Compensation Fund

No residential building work within the meaning of the *Home Building Act 1989* may commence until:

(a) A contract of insurance in accordance with Part 6 of the Home Building Act 1989 is entered into and in force, where such a contract is required under that Act (this is a prescribed condition of consent

Page 22 of the Minutes of the Local Planning Panel Meeting of City of Canada Bay Council held on 26 July 2018 .

pursuant to clause 98 1(b) *Environmental Planning and Assessment Regulation 2000*;

- (b) The PCA is satisfied that the principal contractor for the work is the holder of the appropriate licence and is covered by the appropriate insurance, in each case if required by the Home Building Act 1989 (unless the work is to be carried out by an owner-builder);
- (c) If the work is to be carried out by an owner builder, that the owner builder is the holder of any owner-builder permit required under the *Home Building Act 1989*;
- (d) Written notice of the following information has been provided to Council (this is a prescribed condition of consent pursuant to clause 98B of the *Environmental Planning and Assessment Regulation* 2000):
 - (i) In the case of work for which a principal contractor is required to be appointed:
 - The name and licence number of the principal contractor, and
 - The name of the insurer by which the work is insured under Part 6 of the *Home Building Act 1989*,
 - (ii) In the case of work to be done by an owner-builder:
 - The name of the owner-builder, and
 - If the owner-builder is required to hold an owner-builder permit under the *Home Building Act 1989*, the number of the owner-builder permits.

Where Council is not the PCA, the PCA is responsible for notifying Council of the above matters.

Where arrangements for doing residential building work change **while the work is in progress** so that the above information becomes out of date, the PCA (where not the Council) must provide Council with written notice of the updated information.

(Reason: Statutory requirement)

40. DAPCB05 - Notice of commencement

No work shall commence until you submit a notice of commencement (form will be attached with issue of a Construction Certificate or available from our website) giving Council:

- (a) Not less than two (2) days' notice of the date on which it is proposed to commence work associated with this Development Consent;
- (b) Details of the appointment of a Principal Certifying Authority (either Canada Bay Council or another Accredited Certifier)
- (c) Details of the name, address and licence details of the Builder.

(Reason: Statutory Requirement)

Page 23 of the Minutes of the Local Planning Panel Meeting of City of Canada Bay Council held on 26 July 2018 .

41. DAPCB06 - Site Safety Fencing

Erect site fencing to a minimum height of 1.8m complying with WorkCover Guidelines, to exclude public access to the site throughout the construction works. The fencing **must be erected before the commencement of any work and maintained**.

The site shall be secured in accordance with Clause 146 of the Environmental Planning and Assessment Regulation 2000. The site shall be maintained in a clean and orderly condition during demolition and construction works.

Hoardings

If applicable, a separate Hoarding Application for the erection of an A class (fence type) or B class (overhead type) hoarding along the street frontage(s) complying with WorkCover requirements must be obtained including:

- payment to Council of a footpath occupancy fee based on the area of footpath to be occupied and Council's Schedule of Fees and Charges before the commencement of work; and
- provision of a Public Risk Insurance Policy with a minimum cover of \$10 million in relation to the occupation of and works within Council's road reserve, for the full duration of the proposed works, must be obtained with a copy provided to Council.

(Reasons: Statutory Requirement and health and safety)

42. DAPCB07 - Principal Certifying Authority (PCA) Sign

Prior to commencement of any work, signage must be erected in a prominent position on the work site identifying:

- The Principal Certifying Authority (PCA) by showing the name, address and telephone number of the PCA;
- The Principal Contractor by showing the Principal Contractor's name, address and telephone number (outside of work hours) for that person.
- The sign must state that unauthorised entry to the work site is prohibited. Any such sign is to be maintained while the work is being carried out, but must be removed when the work has been completed.

This clause does not apply to building work, subdivision work or demolition work that is carried out inside an existing building that does not affect the external walls of the building.

(Reason: Statutory Requirement)

43. DAPCB10 - Notice of Requirements from Sydney Water

A Section 73 Compliance Certificate under the Sydney Water Act 1994 must be obtained. Application must be made through Sydney Water or an authorised Water Servicing Coordinator (WSC). An assessment will be made to determine the availability of water and sewer services, which may require

Page 24 of the Minutes of the Local Planning Panel Meeting of City of Canada Bay Council held on 26 July 2018 .

extension, adjustment or connection to Sydney Water mains. Please refer to Sydney Water's website at <u>www.sydneywater.com.au/section 73</u> or call 1300 082 746 to learn more about applying through an authorised WSC or Sydney Water.

Following application, Sydney Water will assess the development and if required will issue a "Notice of Requirements" letter detailing all requirements that must be met. Please apply early as building of water and services can be time consuming and may impact on other parts of your development such as building, driveway or landscape design.

The Notice of Requirements must be submitted to the Accredited Certifier **before the commencement of works.** A Section 73 Compliance Certificate must be obtained before the issue of an Occupation Certificate.

(Reason: To comply with statutory requirements)

44. <u>DAPCC01 - Erosion & Sediment Control: Minor works - Prior to</u> <u>construction</u>

Erosion and sedimentation controls shall be in place **prior to the commencement of site works**; and maintained throughout construction activities until the site is landscaped and/or suitably revegetated. The controls shall be in accordance with the details approved by Council and/or as directed by Council Officers. These requirements shall be in accordance with Managing Urban Stormwater - Soils and Construction produced by Landcom (Blue Book).

A copy of the Erosion and Sediment Control Plan must be kept on site at all times during construction and made available to Council officers on request.

Erosion and sediment control measures as detailed in the submitted Erosion and Sediment Control Plan must be installed and operating **prior to and during all construction works**.

(Reason: Environmental protection)

45. DAPCC02 - Soil & Water Management during Construction

Landcom's "*Managing Urban Stormwater - Soil and Conservation*" August 1998 outlines the general requirements for the preparation of a soil and water management plan. All works shall be conducted in accordance with a soil and water management plan that has been submitted and approved by the Accredited Certifier **prior to the commencement of works**. A copy of the plan shall be kept on-site and made available to Council's Officers on request. All erosion and sediment control measures must be maintained in a functional condition throughout the duration of the works.

Page 25 of the Minutes of the Local Planning Panel Meeting of City of Canada Bay Council held on 26 July 2018 .

(*Reason: Environmental protection*)

Conditions which must be satisfied during any development work

46. DADWA02 - Construction Hours

No construction or any other work related activities shall be carried out on the site outside the hours of 7.00 am to 5.00 pm Mondays to Saturdays. No work to occur on Sundays and public holidays.

Where the development involves the use of jackhammers/ rock breakers and the like or other heavy machinery, such equipment may only be used between the hours of 7.00 am - 5.00 pm Monday to Friday only.

(*Reason: Safety and amenity*)

47. DADWA03 - Disruption of Traffic

During any construction works on the public road that is associated with this approval, the Applicant must provide appropriate signage and traffic control facilities as per the requirements of AS 1742.3 and the RTA "Traffic Control at Works Sites" manual.

(Reason: Safety and information)

48. DADWA04 - Dust Control

Small Works

Where a dust nuisance is likely to occur, suitable screens and/or barricades shall be erected during the demolition, excavation and building works. If necessary, water sprays shall be used on the site to reduce the emission of dust. Screening shall consist of minimum 2 metres height of shade cloth or similar material secured to a chain wire fence of the like and shall be modified as directed by the City of Canada Bay Council should it fail to adequately control any dust nuisance.

Major Works

The following measures must be implemented (in part or in total) as directed by the City of Canada Bay Council to control the emission of dust:

- (a) Dust screens must be erected around the perimeter of the site and be kept in good repair for the duration of the work.
- (b) All dusty surfaces must be wet down and any dust created must be suppressed by means of a fine water spray. Water used for dust suppression must not be contaminated or allowed to enter the stormwater system.
- (c) All stockpiles of materials that are likely to generate dust must be kept damp or covered.
- (d) All stockpiles of soil or other materials shall be placed away from drainage lines, gutters or stormwater pits or inlets.
- (e) All stockpiles of soil or other materials likely to generate dust or odours

Page 26 of the Minutes of the Local Planning Panel Meeting of City of Canada Bay Council held on 26 July 2018 .

shall be covered.

(f) All stockpiles of contaminated soil shall be stored in a secure area and be covered if remaining more than 24 hours or as directed by the City of Canada Bay Council.

(Reason: Environmental amenity)

49. DADWA06 - Prevention of Nuisance

All possible and practical steps shall be taken to prevent nuisance to the inhabitants of the surrounding neighbourhood from windblown dust, debris, noise and the like during the demolition, excavation and building works.

(*Reason: Health and amenity*)

50. DADWB03 - Construction Management Plan

All development activities and traffic movements must be carried out in accordance with the approved Construction Management Plan.

All controls in the Plan must be maintained at all times. A copy of the Plan must be kept on site at all times and made available to the Accredited Certifier and Council on request.

(Reason: Compliance with condition of consent)

51. DADWB04 - Damage to Adjoining Properties

All precautions must be taken to prevent any damage likely to be sustained to adjoining properties. Adjoining owner property rights must be observed at all times. Where damage occurs to adjoining property all necessary repair or suitable agreement for necessary repairs are to be undertaken by the applicant in consultation with, and with the consent of, the affected property owner.

(Reason: Structural safety)

52. DADWB05 - Stamped Plans

Stamped plans, specifications, documentation and the consent shall be available on site at all times during construction.

(Reason: To ensure compliance with approved plans)

53. DADWB06 - Site requirements during demolition and construction

All of the following are to be satisfied/complied with during demolition, construction and any other site works:

- (a) All demolition is to be carried out in accordance with Australian Standards AS 2601-2001.
- (b) Demolition must be carried out by a registered demolition contractor.
- (c) A single entrance is permitted to service the site for demolition and construction. The footway and nature strip at the service entrance

Page 27 of the Minutes of the Local Planning Panel Meeting of City of Canada Bay Council held on 26 July 2018 .

must be planked out with close boarded, hardwood timber footpath protection pads. The pad shall cover the entire width of the footpath opening for the full width of the fence.

- (d) No blasting is to be carried out at any time during construction of the building.
- (e) Care must be taken during demolition/ excavation/ building/ construction to prevent any damage to adjoining buildings.
- (f) Adjoining owner property rights and the need for owner's permission must be observed at all times, including the entering onto land for the purpose of undertaking works.
- (g) Any demolition and excess construction materials are to be recycled wherever practicable.
- (h) The disposal of construction and demolition waste must be in accordance with the requirements of the Protection of the Environment Operations Act 1997.
- (i) All waste on the site is to be stored, handled and disposed of in such a manner as to not create air pollution (including odour), offensive noise or pollution of land and/or water as defined by the Protection of the Environment Operations Act 1997. All excavated material should be removed from the site in the approved manner and be disposed of lawfully to a tip or other authorised disposal area.
- (j) Section 143 of the Protection of the Environment Operations Act 1997 requires waste to be transported to a place which can lawfully accept it. All non-recyclable demolition materials are to be disposed of at an approved waste disposal depot in accordance with legislation.
- (k) All materials on site or being delivered to the site are to generally be contained within the site. The requirements of the Protection of the Environment Operations Act 1997 must be complied with when placing/stockpiling loose material, disposing of concrete waste, or other activities likely to pollute drains or water courses.
- (1) Details as to the method and location of disposal of demolition materials (weight dockets, receipts etc.) should be kept on site as evidence of approved methods of disposal and recycling.
- (m) Any materials stored on site must be stored out of view or in such a manner so as not to cause unsightliness when viewed from nearby lands or roadways.
- (n) Public footways and roadways adjacent to the site must be fully maintained and cleared of obstructions during construction unless prior separate approval from Council is obtained including payment of relevant fees.
- (o) Building operations such as brick cutting, washing tools or paint brushes, and mixing mortar not be performed on the roadway or public footway or any other locations which could lead to the discharge of materials into the stormwater drainage system.
- (p) All site waters during excavation and construction must be contained on site in an approved manner to avoid pollutants entering into

Page 28 of the Minutes of the Local Planning Panel Meeting of City of Canada Bay Council held on 26 July 2018 .

waterways or Council's stormwater drainage system.

(*Reason: To ensure that demolition, building and any other site works are undertaken in accordance with relevant legislation and policy and in a manner which will be non-disruptive to the local area.*)

54. DADWD01 - Road Opening Permit

Pursuant to Section 138 of the Roads Act, should any work on the verge, footpath, public road reserve or public reserve (open space) be required, approval will need to be obtained from Council. In this regard the Applicant is to contact Council's Customer Services Centre to apply for a Road Opening Permit, for works in relation to the excavation of the verge (e.g. for the purpose of installation of services such as private stormwater, private gas line, private sewer, private water pipe, etc.). This Permit is to be obtained **prior to any works on the verge, footpath, public road reserve or public reserve being undertaken.**

Important Note: Road Opening Permits do not include driveways, laybacks, footpath and major stormwater drainage construction which are covered separately by the Driveways and Ancillary Works Application (for minor domestic works) or a Section 138 Works Application (for major or public works).

(Reason: Maintain public asset)

55. DADWG01 - Obstruction of Road or Footpath

The use of the road or footpath for the storage of any building materials, waste materials, temporary toilets, waste bins or any other matter is not permitted unless approved in accordance with Council's Waste Skip Bin Policy. A Penalty Infringement Notice may be issued for any offence.

(Reason: Protection of infrastructure, safety & information)

56. DADWG02 - Protection of Public Places

If the work involved in the demolition or construction of a building is likely to cause pedestrian or vehicular traffic in a public place to be obstructed or rendered inconvenient, or building involves the closure of a public place, a hoarding or fence shall be erected. Hoardings shall be erected to comply with the requirements of WorkCover and the Principal Certifying Authority.

(Reason: Safety)

57. DADWH01 - Compliance with Building Code of Australia

All building work must be carried out in accordance with the provisions of the Building Code of Australia. <u>Note</u>: Applicants who have lodged an objection and who have been granted exemption under clause 187(6) &

Page 29 of the Minutes of the Local Planning Panel Meeting of City of Canada Bay Council held on 26 July 2018 .

188(4) of the *Environmental Planning and Assessment Regulation 2000*, must comply with the Building Code of Australia in all other respects.

(Reason: Prescribed statutory control)

58. DADWH02 - Critical Stage Inspections - General

Critical stage inspections must be called for by the Principal Contractor or Owner Builder as required by the Principal Certifying Authority (PCA), any PCA Service Agreement, the Act and the Regulation.

Work must not proceed beyond each critical stage until the PCA is satisfied that work is proceeding in accordance with this consent, the Construction Certificate(s) and the Act. 'Critical Stage Inspections' means the inspections prescribed by the Regulations for the purposes of section 6.5 of the Act or as required by the PCA and any PCA Service Agreement.

Note 1: The PCA may require additional inspections beyond mandatory critical stage inspections in order that the PCA be satisfied that work is proceeding in accordance with this consent.

Note 2: The PCA may, in addition to inspections, require the submission of Compliance Certificates, survey reports or evidence of suitability in accordance with Part A2.2 of the BCA in relation to any matter relevant to the development.

(Reason: Statutory requirement)

59. DADWH06 - Inspection Records & Compliance Certificates

The PCA or accredited certifier undertaking each of the inspections must make a **record of each inspection** in accordance with Clause 162B of the Environmental Planning and Assessment Regulations 2000 and, if the person is not the PCA, forward a copy to the PCA.

A copy of any **compliance certificates** issued in respect of the building work and any documents referred to in the certificate must be provided to Council within two (2) days of the certificate being issued.

A compliance certificate must be issued where:

- (a) Either:
 - (i) Council is appointed the PCA; or
 - (ii) Council is the PCA but agrees to an accredited certifier undertaking certain inspection/s, and
- (b) The PCA or accredited certifier is of the opinion that the stage of work he or she has inspected is satisfactory.

(Reason: Statutory Requirement)

60. DADWI02 - Survey Report - Minor Development

Page 30 of the Minutes of the Local Planning Panel Meeting of City of Canada Bay Council held on 26 July 2018 .

In order to ensure compliance with approved plans, a Survey Certificate to Australian Height Datum shall be prepared by a Registered Surveyor as follows:-

- (a) At the completion of the first structural floor level indicating the level of that floor and the relationship of the building to the boundaries.
- (b) At the completed height of the building, prior to the placement of concrete inform work, or the laying of roofing materials.
- (c) At completion, the relationship of the building and any penetrations thereto, to the boundaries.

Progress certificates in response to points (a) through to (c) shall be provided to the Council or the Principal Certifying Authority at the time of carrying out relevant progress inspections. Under no circumstances will work be allowed to proceed should such survey information be unavailable or reveal discrepancies between the approved plans and the proposed works.

(Reason: To ensure compliance with approved plans)

Conditions which must be satisfied prior to the issue of any Occupation Certificate relating to the use of the building or part

61. DAOCB01 - Certification of Engineering Works

Prior to occupation, the following documents must be submitted to the Principal Certifying Authority.

- a) A Certificate from a Chartered Professional Engineer with Institution of Engineers, Australia Corporate Membership and registered on the National Engineers Register (NER) under the appropriate professional category, and
- b) "Work As Executed" drawings of the engineering works prepared by a Registered Surveyor or equivalent.

The abovementioned Certificate is to certify that:

- (i) the stormwater drainage system, and/or
- (ii) the car parking arrangement and area including circulating ramps, and/or
- (iii) any related footpath works, and/or
- (iv) the basement mechanical pump and well system, and/or
- (v) the proposed driveway and layback, and/or
- (vi) other civil works have been constructed in accordance with the Council approved plans and details and satisfies the design intent and complies with the appropriate SAA Codes relevant Standards and Council's Policies and Specifications.

Where Council is not the Principal Certifying Authority, two (2) copies of the above documents are to be provided to Council **prior to the issue of any Occupation Certificate**. These documents are to be retained on Council's

Page 31 of the Minutes of the Local Planning Panel Meeting of City of Canada Bay Council held on 26 July 2018 .

Construction Certificate file.

(Reason: Asset management)

62. DAOCB03 - Street Numbering Strategy

The Principal Certifying Authority must be satisfied that the Council approved Street Numbering Strategy has been carried out on site **prior to the issue of any Occupation Certificate**.

The approved Street Numbering Strategy must not be altered in any way without prior consent of Council.

(*Reason: Compliance*)

63. DAOCC01 - Civil Works on the Footway

The Applicant is required to carry out the following works:

- Reconstruct sections of cracked or defective footpath along the full frontage of the site, and/or
- Reconstruct existing public drainage pit/pipe system, and/or
- Construct a new vehicular crossing, and/or
- Remove any redundant vehicular crossings and replace with kerb and gutter to match the adjoining.

The above works must be completed to the written satisfaction of Council **prior to issue of any Occupation Certificate**.

Note: The above works will require the submission of the relevant application for the works to be undertaken.

Where the Applicant nominates Council to undertake the civil and stormwater works, they must contact Council's Manager Construction, City Services in order to obtain an estimated cost for construction and contract to undertake the works.

(Reason: To preserve Council's assets and amenity)

64. DAOCD01 - Occupation Certificate (section 6.9 of the Act)

A person must not commence occupation or use (*or change of use where an existing building*) of the whole or any part of a new building (within the meaning of section 6.10 of the *Act*) unless an Interim Occupation Certificate or Final Occupation Certificate has been issued in relation to the building or part.

The Principal Certifying Authority is required to be satisfied, amongst other things, that:

• All required inspections (including each applicable mandatory critical

Page 32 of the Minutes of the Local Planning Panel Meeting of City of Canada Bay Council held on 26 July 2018 .

stage inspection) have been carried out; and

• Any preconditions to the issue of the certificate required by a development consent have been met.

Note: New building includes an altered portion of, or an extension to, an existing building.

(*Reason: Statutory requirement*)

65. DAOCD02 - Evidence of Lawful Asbestos Disposal

An Occupation Certificate for a development involving the removal of asbestos must not be issued until such time the applicant provides the principal certifying authority with a copy of receipt/s confirming lawful disposal of asbestos waste.

<u>NOTE:</u> Asbestos waste must be disposed at a waste management facility licensed by the NSW Environment Protection Authority (EPA) to accept such waste. Please see Appendix F of City of Canada Bay's Asbestos Policy, Contact NSW EPA on 131 555 or visit www.epa.nsw.gov.au for a list of waste management facilities licensed to accept asbestos waste.

(Reason: Health and Safety)

Conditions which must be satisfied prior to the issue of any Subdivision Certificate

66. DASCA03 - Prior to Issue of Subdivision Certificate

Prior to the issuing of any Subdivision Certificate under section 37A of *the Strata Schemes (Freehold Development) Act 1973,* and section 66A of *the Strata Schemes (Leasehold Development) Act 1986,* and in accordance with section 29A of *the Strata Schemes (Freehold Development) Regulation 2007 and section 30A of the Strata Schemes (Leasehold Development) Regulation 2007,* the PCA is required to be satisfied that:

- (a) the floors, external walls and ceilings depicted in the proposed strata plan for the building correspond to those of the building as constructed, and
- (b) the floors, external walls and ceilings of the building as constructed correspond to those depicted in the building plans that accompanied the construction certificate for the building, and
- (c) any facilities required by the relevant development consent (such as parking spaces, terraces and courtyards) have been provided in accordance with those requirements.

As construction of the building nears completion, or after it has been completed, a Council or accredited certifier must inspect the building, and the

Page 33 of the Minutes of the Local Planning Panel Meeting of City of Canada Bay Council held on 26 July 2018 .

common property areas around the building, so as to be satisfied, as required by section 66AA of the Act, that the above requirements have been met.

The Council or accredited certifier should also be satisfied that:

- (d) All required inspections (including each applicable mandatory critical stage inspection) have been carried out; and
- (e) Any preconditions to the issue of the certificate required by a development consent or complying development certificate have been met.

(Reason: Statutory Requirements)

67. DASCA04 - Application for Subdivision Certificate

An application for a Subdivision Certificate shall be lodged with Council or an Accredited Certifier for approval to enable the subdivision plans to be submitted to and registered with Land and Property Information (formerly Land Titles Office). Should the Subdivision Certificate application be lodged with Council, a final plan of subdivision and six (6) copies shall be included with the application.

(Reason: To comply with statutory requirements)

68. DASCA05 - Section 73 Certificate from Sydney Water

A Section 73 Compliance Certificate under the Sydney Water Act 1994 must be obtained <u>before the issue of the Subdivision Certificate</u>. Application must be made through Sydney Water or an authorised Water Servicing Coordinator (WSC). Please refer to Sydney Water's website at <u>www.sydneywater.com.au/section 73</u> or call 1300 082 746 to learn more about applying through an authorised WSC or Sydney Water.

The original of the Section 73 Certificate must be presented to the Accredited Certifier **prior to the issue of Subdivision Certificate.**

Please note: Council will require a copy of the Section 73 Certificate in addition to sighting the original before issuing the Subdivision Certificate.

(*Reason: To comply with statutory requirements*)

Conditions which must be satisfied prior to the issue of a Final Occupation Certificate

69. DAFOB05 - Wash down of Brickwork

Prior to occupation or use, the brickwork shall be thoroughly cleaned down on all sides. All necessary precautions shall be taken to ensure that this work does not affect neighbouring properties.

Page 34 of the Minutes of the Local Planning Panel Meeting of City of Canada Bay Council held on 26 July 2018 .

(Reason: Visual amenity and environmental health)

70. <u>DAFOE01 - Certification of the Constructed Stormwater Drainage</u> <u>System</u>

The constructed stormwater drainage system shall be certified by a Chartered Professional Civil Engineer with Institution of Engineers, Australia Corporate Membership and registered on the National Engineers Register (NER), in accordance with Council's "Appendix 2 - Engineering Specifications of the Canada Bay Development Control Plan", **prior to issue of the Final Occupation Certificate**.

(Reason: Adequate stormwater management)

71. <u>DAFOE02 - Covenant & Restriction as to User for Stormwater</u> <u>Controlled Systems</u>

Prior to occupation and the issuing of an Occupation Certificate, the Applicant shall register a Positive Covenant and a Restriction as to User, under section 88E and or section 88B of the Conveyancing Act as appropriate in favour of Council ensuring the ongoing retention, maintenance and operation of the stormwater facility (in regards to the on-site stormwater detention system (OSD), mechanical pump-out system, charged lines (which are related to the OSD system), etc.).

Easement Registration

Where any drainage line or service conduit is to traverse any property other than that which it serves, an appropriate easement will be required. In this case, the applicant shall register an easement of width as specified in Council's "Engineering requirements for Developments, Technical Specification", over the proposed stormwater drainage line or service concurrently with any subdivision registration.

The wording on the 88B Instrument is to make reference to the Council file where the Construction plans and the "Work-as-Executed", (as built), plans are held. Typical wording can be obtained from Council's "Engineering requirements for Developments, Technical Specification" document.

(Reason: Compliance and adequate maintenance of drainage system)

72. DAFOE03 - OSD Identification Plate

Prior to issue of Final Occupation Certificate, the applicant shall install an identification plate near or onto the control structure of the On-site Stormwater Detention system (OSD). This is to advise the registered proprietor of their responsibility to maintain the OSD facility and not to tamper with it in any manner without the written consent of Council.

The applicant can obtain the OSD identification plate from the Council at a cost.

Page 35 of the Minutes of the Local Planning Panel Meeting of City of Canada Bay Council held on 26 July 2018 .

(*Reason: To ensure that the OSD system is installed and identified in accordance with this approval*)

Conditions which must be satisfied during the ongoing use of the development

73. DAOUC17 - Noise Complaints Relating to Equipment

Following installation of the pool pump and installation of the air conditioning unit, should substantiated complaints or breaches of noise regulations occur, a suitably qualified acoustic consultant shall be engaged, with the Council and the owner of the premises agreeing on the acoustical consultant, to measure noise emanating from the building/premises and to recommend appropriate action. The reasonable cost of such appointment shall be borne by the owner and any works recommended by the acoustic consultant shall also be borne by the owner and carried out within a time frame set by Council.

(Reason: Amenity and Noise Control)

74. <u>DAOUC18 - Noise - air conditioners/swimming pool pumps/ spa pump in</u> <u>residential buildings</u>

Air Conditioners

The air conditioner/s must comply with the requirements of *Protection of the Environment Operations (Noise Control) Regulation 2008* and shall not:

- (a) emit noise that is audible within a habitable room in any other residential property (regardless of whether any door or window to that room is open):
 - (i) before 8.00am and after 10.00pm on any Saturday, Sunday or public holiday; or
 - (ii) before 7.00am and after 10.00pm on any other day; and
- (b) emit a sound pressure level when measured at the boundary of any other residential property, at a time other than those *specified* in (i) and (ii) above, which exceeds the background ($L_{A90, 15minutes}$) by more than 5dB(A). The source noise level must be measured as a LAeq 15 minute.

Swimming Pool Pump/ Spa Pump

The swimming pool or spa pump/s must comply with the requirements of Protection of the Environment Operations (Noise Control) Regulation 2008 and shall not:

- (a) emit noise that is audible within a habitable room in any other residential property (regardless of whether any door or window to that room is open):
 - (i) before 8.00am and after 8.00pm on any Saturday, Sunday or public holiday; or
 - (ii) before 7.00am and after 8.00pm on any other day; or

Page 36 of the Minutes of the Local Planning Panel Meeting of City of Canada Bay Council held on 26 July 2018 .

(b) emit a sound pressure level when measured at the boundary of any other residential property, at a time other than those *specified* in (i) and (ii) above, which exceeds the background ($L_{A90, 15minutes}$) by more than 5dB(A). The source noise level must be measured as a LAeq 15 minute.

(Reason: Noise Control and Amenity)

75. DAOUC19 - Compliance with Noise Control Legislation

The applicant shall ensure that all activities within the premises comply with the relevant sections of the Protection of the Environment Operations Act 1997 and Regulations; the NSW Environment Protection Authority Industrial Noise Policy (2000) and relevant Australian Standards on Noise Control on Construction, Maintenance and Demolition Sites.

(Reason: Noise Control and Amenity)

Advisory Notes

a) DAANN01 - Dial Before You Dig

Underground assets may exist in the area that is subject to your application. In the interests of health and safety and in order to protect damage to third party assets please contact Dial Before You Dig at www.1100.com.au or telephone 1100 before excavating or erecting structures. (This is the law in NSW). If alterations are required to the configuration, size, form or design of the development upon contacting the Dial Before You Dig service, an amendment to the development consent (or a new development application) may be necessary. Individuals owe asset owners a duty of care that must be observed when working in the vicinity of plant or assets. It is the individual's responsibility to anticipate and request the nominal location of plant or assets on the relevant property via contacting the Dial Before You Dig service in advance of any construction or planning activities.

Telecommunications Act 1997 (Commonwealth)

Telstra (and its authorised contractors) are the only companies that are permitted to conduct works on Telstra's mobile network and assets. Any person interfering with a facility or installation owned by Telstra is committing an offence under the Criminal Code Act 1995 (Cth) and is liable for prosecution. Furthermore, damage to Telstra's infrastructure may result in interruption to the provision or essential services and significant costs. If you are aware of any works or proposed works which may affect or impact on Telstra's assets in any way, you are required to contact: Telstra's Network Integrity Team on Phone Number 1800 810 443.

b) DAANN02 - Dividing Fences

Page 37 of the Minutes of the Local Planning Panel Meeting of City of Canada Bay Council held on 26 July 2018 .

The erection of dividing fences under this consent does not affect the provisions of the *Dividing Fences Act* 1991. Under this Act, all relevant parties must be in agreement prior to the erection of any approved dividing fence/s under this consent.

Council has no regulatory authority in this area and does not adjudicate civil disputes relating to the provision of or payment for the erection of dividing fences.

If there is a neighbour dispute about the boundary fence and you are seeking mediation, you may contact the Community Justice Centre or if legal advice or action is required, you may contact the Chamber Magistrate.

c) DAANN04 - Lapsing of Consent

In accordance with Section 4.53 of the Environmental Planning and Assessment Act 1979 (as amended), this Development Consent lapses five (5) years after the date from which it operates unless building, engineering or construction work has physically commenced. A Construction Certificate must be obtained and the works commenced in accordance with the approved plans and specifications within five (5) years from the date of this Development Consent.

d) **DAANN05 - Owner Builders**

Under the *Home Building Act 1989* any property owner who intends undertaking construction work to a dwelling or dual occupancy over the value of \$5,000 must complete an approved education course and obtain an owner-builder permit from the Office of Fair Trading. See www.fairtrading.nsw.gov.au.

e) DAANN06 - Process for Modification

The plans and/or conditions of this Consent are binding and may only be modified upon <u>written</u> request to Council under Section 4.55 of the Environmental Planning and Assessment Act, 1979 (as amended). The request shall be accompanied by the appropriate fee and application form. You are not to commence any action, works, contractual negotiations, or the like, on the requested modification unless and until the written authorisation of Council is received by way of an amended consent.

f) DAANN07 - Review of Determination

In accordance with the provisions of Section 8.2 of the Environmental Planning and Assessment Act 1979 (as amended) the applicant can request Council to review this determination. The request must be made within a period of 6 months from the date shown on this determination. A fee, as prescribed under Council's current Management Plan - Fees and Charges, is payable for such a review.

g) DAANN08 - Right of Appeal

Page 38 of the Minutes of the Local Planning Panel Meeting of City of Canada Bay Council held on 26 July 2018 .

Section 8.7 and 8.10 of the Environmental Planning and Assessment Act 1979 (as amended), gives the applicant the right to appeal to the Land and Environment Court within six (6) months after the date on which you receive this notice. Section 97 does not apply to the determination of a development application for State significant development or local designated development that has been the subject of a Commission of Inquiry.

h) **DAANN10 - Skips on Council Footpath**

The applicant must apply to Council's Customer Services Centre and pay the respective minimum ten (10) day application fees and deposit, should a miniskip type or larger builder's waste container be required to be left on Council's footpath, nature strip or roadway for the removal of any builder's waste etc. These fees must be paid prior to the container's placement. In the event of the container being removed within the ten day period, and the Council being notified, a pro-rata refund will be made. If the container is to remain at the site for longer than ten days, a further fee must be paid before the ten day period expires. No consultation is necessary if placing the container within the property to which this application is related. However, caution should be exercised in placing the bin to ensure no damage occurs to Council property.

i) **DAANN11 - WorkCover Requirements**

<u>The Work Health and Safety Act 2011</u> and subordinate regulations, codes of practice and guidelines control and regulate the development industry. Further information can be obtained from WorkCover NSW's website at <u>http://www.workcover.nsw.gov.au/newlegislation2012/your-industry/construction/Pages/default.aspx</u> or through their head office: WorkCover NSW, 92-100 Donnison Street, GOSFORD 2250 Postal address: WorkCover NSW, Locked Bag 2906, LISAROW 2252, Phone (02) 4321 5000, Fax (02) 4325 4145.

C. STATEMENT OF REASONS

The Panel considered the assessment report in Item 3 on the meeting agenda, the information and material presented by submitters or representatives of the submitters, and the applicant/s and their representatives in their address to the Panel meeting, (delete this sentence if no speakers) and the matters observed during the site inspection.

The Panel determined to approve the *Development Application* subject to the conditions contained in the Recommendation to the assessment report for the following reasons:-

1. The Panel has regard to the merit considerations carried out in the assessment report and pursuant to Section 4.15 of the Environmental Planning and Assessment Act.

Page 39 of the Minutes of the Local Planning Panel Meeting of City of Canada Bay Council held on 26 July 2018 .

- 2. The development is consistent with the aims and objectives of the Canada Bay Local Environmental Plan 2013.
- 3. The proposal is consistent the relevant controls contained in the Canada Bay Development Control Plan 2017 and any variations to these controls have been appropriately justified in the assessment report.
- 4. The proposal has been designed to appropriately mitigate potential impacts on adjoining properties and the surrounding area.

VOTING

The voting in respect of this matter was 3/0.

For: Wells, Broyd, McCaffrey

Against: Nil

ITEM -4 39 COOPER STREET, STRATHFIELD NSW 2135 (DA2017/0315); CONVERSION OF EXISTING GROUND FLOOR COMMERCIAL AREA IN AN EXISTING MIXED USE DEVELOPMENT TO TEN (10) RESIDENTIAL APARTMENTS

Simon Thorne, architect, addressed the Panel. Charlie Elachi on behalf of the owner addressed the Panel.

RESOLVED

Pursuant to Section 4.16 of the Environmental Planning and Assessment Act 1979 (as amended)

- A. THAT the Canada Bay Local Panning Panel defer consideration of Development Application No. DA2017/0315 for the conversion of an existing ground floor commercial area in an existing mixed use development to ten (10) residential apartments on land at No. 39 Cooper Street STRATHFIELD NSW 2135, to allow for the submission of amended plans that reconsider the design to achieve a greater level of amenity and liveability and improve the areas of private open space and to address the following matters:-
 - 1. In relation to Units A.01 A.04, the relative depth noting the 18 metre design depth under the ADG as an indicative target and the outdoor open space particularly for A.04.
 - 2. In relation to Units A.05 and A.06 to consider alternatives to resolve the layout particularly for A.05.

Page 40 of the Minutes of the Local Planning Panel Meeting of City of Canada Bay Council held on 26 July 2018 .

- 3. It is noted that Unit A.07 is under the minimum unit size at 66sqm and should be enlarged.
- 4. In relation to Units B.02 and B.03, the entry way is jagged and appears obscure to someone entering these units.
- B. THAT the amended plans be lodged with Council within 4 weeks from the date of this resolution and that Council prepare a supplementary planning assessment report for consideration by the Panel.

VOTING

The voting in respect of this matter was 4/0.
