Ramboll Australia Pty Ltd prepared this preliminary site investigation (PSI) report with all reasonable skill, care and diligence under its existing terms of engagement and in accordance with our understanding and interpretation of current regulatory standards. The conclusions presented in this report represent Ramboll's professional judgment based upon the information available and conditions existing as of the date of the reporting. In performing its assignment, Ramboll must rely upon publicly available information, information provided by the client and information provided by third parties. Accordingly, the conclusions in this report are valid only to the extent that the information provided to Ramboll was accurate and complete. This review is not intended as legal advice, nor is it an exhaustive review of site conditions.

Ramboll makes no representations or warranties, express or implied, about the conditions of the site. A site inspection was undertaken by Ramboll of external areas of the building only as no access was possible to internal area and no intrusive sampling or facility compliance audit has been undertaken. We cannot therefore preclude the presence of materials that may be hazardous. Site conditions may change over time. This report is based on conditions encountered at the site at the time of reporting and Ramboll disclaims responsibility for any changes that may have occurred after this time.

Ramboll's conclusions are based on the proposed development for commercial purposes. No consideration of change of site use was factored into the assessment.

This report has been prepared exclusively for use by Milligan Group Pty Ltd (Milligan), and such other persons or entities whose reliance is explicitly authorised in writing by Ramboll in a Reliance Letter. Specific assumptions and limitations identified by Ramboll as being relevant are set out in the report.

EXECUTIVE SUMMARY

This Preliminary Site Investigation (PSI) has been prepared by Ramboll Australia Pty Ltd (Ramboll) in support of a Planning Proposal to amend the Sydney Local Environmental Plan 2012 (Sydney LEP). This report has been prepared on behalf of Milligan Group Pty Ltd (the Proponent) and its related entities and consultants, representatives and agents and FT Sydney Pty Ltd as trustee for FT Sydney Unit Trust. It relates to an amalgamated site at 15-21 Hunter Street and 105-107 Pitt Street (the site).

The purpose of this Planning Proposal is to amend the site's Floor Space Ratio (FSR) development standard, and the Maximum Building Height to align with the Martin Place Sun Access Plane contained within the concurrent Central Sydney Planning Proposal.

This Planning Proposal supports the City of Sydney Council's draft Central Sydney Planning Strategy (Draft CSPS) by unlocking additional employment generating floor space within a designated tower cluster. The proposed Sydney LEP amendment is part of the broader redevelopment plan for the site to facilitate a new commercial office tower. It will also facilitate significant public benefits through additional site activation and embellishment of the public domain.

The Planning Proposal is accompanied by amendments to the Sydney Development Control Plan 2012 (Sydney DCP). The site specific DCP amendments reflect the proposed outcome to provide a podium tower scheme.

This is reflected in the accompanying reference design prepared by Bates Smart which serves as a baseline proof of concept for this Planning Proposal. This 2,108m^2 strategic site presents a unique opportunity to deliver a landmark premium commercial office tower that will exhibit design excellence and offer significant employment opportunities for global Sydney.

The uplift being sought is consistent with the strategic intent of the draft CSPS, which contains the City's requirements and expectations for projects pursuing this pathway. Following the Planning Proposal, the planning approval pathway involves a competitive design process and a detailed Development Application. As such, this report reflects the concept stage of the proposal, and may be embellished as the detailed design and required works evolve.

The main objectives of the PSI were to identify indicators of potential site contamination from current and/or historical sources and assess whether the potential site contamination requires further investigation and/or management to make the site suitable for the future redevelopment for commercial land use and to assess the suitability of the site in accordance with State Environmental Planning Policy No.55.

The scope of work of the PSI comprised: a desktop review of historical information and other relevant publicly available information; a site inspection; and preparation of this report. Ramboll has identified the following main potential sources of contamination at the site:

- **Historical filling at the site.** Details of the construction of the site buildings and underlying soil strata beneath the site are unknown. Review of historical aerial photographs were limited to images post 1942. There is potential for contaminated fill material may have been used to level the site.
- **Building materials.** The site buildings have been located onsite since the early 1900s with various demolition and renovations undertaken overtime. Details of building materials potentially containing asbestos or polychlorinated biphenyl (PCBs) are not available. A hazardous material assessment has not been made available for the site.
- **Potential migration of contamination from off-site properties.** The following up-gradient properties with known or suspected contamination have been identified:

- Motor garage and service station – a number of historical service stations which handle and store a range of petroleum hydrocarbon oils and fuels on site were located hydraulically upgradient and cross gradient from the site; and
- Dry cleaners – several dry cleaning facilities which may handle and store a range of chlorinated hydrocarbon solvents have been located hydraulically upgradient and cross gradient from the site.

Ramboll notes that the proposed development requires additional excavation into sandstone bedrock for basement construction at the site, requiring the removal of all fill material and any potential historical site infrastructure above.

Ramboll has assessed the site in respect to SEPP 55 guidelines and the suitability of the land for the proposed development. Ramboll cannot rule out the possibility that identified activities on surrounding sites may have resulted in subsurface contamination at the subject site. However, based on the findings of this PSI, the potential risk for significant contamination at the subject site is considered low and that the site is suitable for the proposed redevelopment for continued commercial use with the understanding that all fill and demolition waste is to be disposed offsite with appropriate management controls in place during demolition and subsequent earthworks. These management controls would include the assessment and classification of all waste generated and disposed offsite and the implementation of a detailed unexpected finds protocol. It is considered at this stage, that a detailed site investigation (DSI) is not required.

Based on the available data obtained for the site and the proposed redevelopment, the risks to human health and the environment are considered low, subject to appropriate management of site works including excavated soils. Appropriate management has been detailed in the Recommendations section of this report.

1. INTRODUCTION

This Preliminary Site Investigation (PSI) has been prepared by Ramboll Australia Pty Ltd (Ramboll) in support of a Planning Proposal to amend the Sydney Local Environmental Plan 2012 (Sydney LEP). This report has been prepared on behalf of Milligan Group Pty Ltd (the Proponent) and its related entities and consultants, representatives and agents and FT Sydney Pty Ltd as trustee for FT Sydney Unit Trust. It relates to an amalgamated site at 15-21 Hunter Street and 105-107 Pitt Street (the site).

The purpose of this Planning Proposal is to amend the site's Floor Space Ratio (FSR) development standard, and the Maximum Building Height to align with the Martin Place Sun Access Plane contained within the concurrent Central Sydney Planning Proposal.

This Planning Proposal supports the City of Sydney Council's draft Central Sydney Planning Strategy (Draft CSPS) by unlocking additional employment generating floor space within a designated tower cluster. The proposed Sydney LEP amendment is part of the broader redevelopment plan for the site to facilitate a new commercial office tower. It will also facilitate significant public benefits through additional site activation and embellishment of the public domain.

The Planning Proposal is accompanied by amendments to the Sydney Development Control Plan 2012 (Sydney DCP). The site specific DCP amendments reflect the proposed outcome to provide a podium tower scheme.

This is reflected in the accompanying reference design prepared by Bates Smart which serves as a baseline proof of concept for this Planning Proposal. This 2,108m^2 strategic site presents a unique opportunity to deliver a landmark premium commercial office tower that will exhibit design excellence and offer significant employment opportunities for global Sydney.

The uplift being sought is consistent with the strategic intent of the draft CSPS, which contains the City's requirements and expectations for projects pursuing this pathway. Following the Planning Proposal, the planning approval pathway involves a competitive design process and a detailed Development Application. As such, this report reflects the concept stage of the proposal, and may be embellished as the detailed design and required works evolve.

In relation to contaminated land assessment in this PSI, Ramboll understands that the proposed development requires excavation into sandstone bedrock for basement construction which includes the removal of all residual fill material and historical site infrastructure up to the site's boundary.

The site will be the subject of a Development Application (DA) with anticipated condition(s) related to a site contamination assessment. Ramboll has reviewed concept plans as presented in the document titled *"Hunter and Pitt, Discussion with City of Sydney Council"* dated 4 June 2020.

1.1 Objectives

This PSI represents the first stage of the site assessment process, as defined in Schedules A and B2 of the *National Environment Protection Council (Assessment of the Site Contamination) Measure* (NEPM, 2013).

The objectives of the PSI were to:

- Identify indicators of potential site contamination from current and/or historical sources and potential contaminants of concern that may present a constraint to the proposed development.
- Provide an opinion on the suitability for the site for the proposed works in accordance with State Environmental Planning Policy No.55 (SEPP 55).

1.2 Scope of Work

The scope of work performed to meet objectives of this PSI comprised:

- A review of published data associated with the site to establish the site history, environmental setting and known contamination status, this included a review of the following documentation:
    - historical aerial photographs for the area provided by the Department of Finance, Services and Innovation (1942, 1943, 1949, 1955, 1961, 1965, 1970, 1982, 1986, 1991, 1994) and Google Inc™ (2000, 2009, 2014 and 2016);
    - historical Certificate(s) of Title for site;
    - the NSW Environment Protection Authority (EPA) contaminated sites listed in the contaminated land record of notices by the NSW EPA under Section 58, notified under Section 60 of the Contaminated Land Management Act 1997 NSW; and licensed premise or unlicensed premise regulated by the NSW EPA under the Protection of the Environment Operations Act 1997 NSW within a 1 kilometres (km) radius of the site;
    - the NSW Government's groundwater bore database for groundwater bores within a 1km radius of the site to assist in gaining an understanding of regional hydrogeology;
    - acid sulfate soils risk maps;
    - Council Local Environment Plan (LEP);
    - NSW Land & Property Information maps;
    - zoning maps / local development plans;
    - available geological, hydrogeological and topographic maps for the site; and
    - electronic (web-based) search tools for site historical information.
- Completion of an inspection of the outside of the site to assist with the identification of potential on-site and off-site sources of contamination, evaluate and ground truth information obtained from the desktop review of the site history and to understand the general condition of the site and surrounding area; and
- Preparation of this report.

The scope of work did not include preliminary soil and groundwater sampling.

This assessment was undertaken and outcomes documented in accordance with the requirements of the following legislation and guidance documents:

- *NSW Contaminated Land Management Act 1997*;
- National Environment Protection Council (NEPC), *National Environment Protection (Assessment of Site Contamination) Measure 1999*, as amended 2013 (NEPM, 2013);
- NSW EPA, *Guidelines for the Site Auditor Scheme (3rd Edition)* (NSW EPA, 2017); and
- NSW EPA, Consultants Reporting on Contaminated Land, Contaminated Land Guidelines (NSW EPA, 2020).

.

2. SITE INFORMATION

2.1 Site Identification

Site identification details are provided in **Table 2.1** and the location of the site and layout is shown in **Appendix 1**.

.

Table 2.1: Site Particulars

Information	Description	
Street Address:	15-23 Hunter Street and 105-107 Pitt Street Sydney, NSW 2000	
Identifier:	15-23 Hunter Street	Lot A DP 109825, Lot 1 DP 630190, Lot B DP 109825, Lot 1 DP 59754
	105 Pitt Street	Lot 1 DP 63968
	107 Pitt Street	
Site Area:	Total Lot area 2,108 square metres (m^2) (0.21 Hectares (Ha))	
Local Government:	City of Sydney	
Suburb:	Sydney	
Registered Proprietor(s) & Occupations where available:	15-23 Hunter Street	Megaboom Fund Pty Ltd
	105 Pitt Street	Megaboom Fund Pty Ltd
	107 Pitt Street	# Australian Executors Trustees Limited
Zoning:	B8 Metropolitan Centre (Source: Sydney Local Environmental Plan, 2012)	
Current Site Use:	Commercial/Industrial	
Proposed Site Use	Commercial/Industrial	
Surrounding land use	Commercial/Industrial	

2.2 Current Site Use

The site currently comprises multiple multi-story commercial concrete buildings. The buildings onsite are summarised below:

- **15-17 Hunter Street and 19-21 Hunter Street** – Located to the west, both buildings comprise two 3-4 story buildings that are occupied by mixed businesses including food stores, and a backpacker lodging. The building at 15-17 Hunter Street was built in 1877 while 19 - 21 Hunter Street was constructed at a later date and appeared more contemporary.
- **105-107 Pitt Street** - Comprises of an approximately 8-story commercial building with food stores on ground level.

3. SITE SETTING AND SURROUNDING ENVIRONMENT

3.1 Site Setting

The site is located in a metropolitan area within the Sydney Central Business District (CBD). The site is situated on the southern side of Hunter Street and the western side of Pitt Street.

3.1.1 Topography and drainage

The elevation of the site ranges from 12 m Australian Height Datum (AHD) within the southern corner, dropping to 10 m AHD towards the northern boundary along Hunter Street. Surface water from the site is anticipated to run offsite into municipal infrastructure to the north, ultimately discharging into Sydney Harbour. The 'Tank Stream', a naturally occurring enclosed freshwater tributary water way, runs beneath the site and ultimately discharges into the stormwater system. The site is located within the extensive Sydney Harbour Catchment.

3.1.2 Hydrology

The closest natural surface water body to the site is Sydney Harbour (Circular Quay) located approximately 600m to the north of the site. A review of The National Dataset of Australia's Ramsar Wetlands (published by Department of the Environment and Energy) available online (https://nationalmap.gov.au/) indicates there are no known wetlands at or within 500 m of the site.

3.1.3 Ecological Constraints

A search of ecological constraint datasets was undertaken for native vegetation, Ramsar wetlands, groundwater dependent ecosystems atlas, inflow dependent ecosystems likelihood, NSW BioNet species sightings (refer to **Appendix 2**).

A review of these registers indicated that there are no ecological constraints likely to be impacted by the proposed redevelopment.

3.1.4 Geology

The site and its surrounding area are underlain by the Hawkesbury Sandstone which is described as medium to coarse grained quartz sandstone with very minor shale and laminate lenses (NSW Geological Survey, 1983).

The soil landscape is characterised by the Gymea soil landscape which typically comprise undulating to rolling rises and low hills on Hawkesbury Sandstone (Department of Conservation and Land Management, 1989). Where present, soils are shallow to moderately deep (30-100cm), yellow earths and earthy sands on crests and inside benches; shallow (<20cm siliceous sands on leading edges of benches; localised podzolic soils and yellow podzolic soils on shale lenses; shallow to moderately deep (<100cm) siliceous sands and leached sands along drainage lines.

Within a 500m radius of the site, three boreholes have been drilled approximately 450m to the west of the site (refer to **Appendix 2**). Borelogs detailed silty sand and clay fill to a maximum of 4.5 metres below ground level (m bgl) underlain by sand.

3.1.5 Acid sulfate soils (ASS)

A search conducted by Lotsearch of the Atlas of Australian Acid Sulfate Soils issued by Commonwealth Scientific and Industrial Research Organisation (CSIRO) identified the site within an area of 'Extremely Low (1-5%)' probability of occurrence of ASS.

3.1.6 Hydrogeology

Given the proximity of the site to Sydney Harbour (Circular Quay) located approximately 600m north and the local stratigraphy, it is expected that groundwater will be present as discontinuous lenses within soil/rock interface, and bedrock fractures at depth. Groundwater is considered to be

recharged through infiltration locally (where surface pavements allow) and flow in a northern direction towards Sydney Harbour.

The Hydrogeology Map of Australia provided by the Geosciences Australia describes the aquifers on-site as 'porous, extensive highly productive aquifers'. The search indicated that there are no Botany Groundwater Management Zones within a 1 kilometre (km) radius of the site.

As part of this assessment, Ramboll referred to records held by the NSW Department of Primary Industries to identify registered groundwater bores at and within the vicinity of the site. Three boreholes were identified within a 500m radius of the site, approximately 455 and 460m to the west of the site and were installed as shallow groundwater monitoring bores. No standing water level (SWL) has been recorded however based on the depth of the groundwater monitoring bores (approximately 5m bgl) it is considered groundwater to be present less than 5m bgl.

A copy of the search results is provided in **Appendix 2**.

3.2 Surrounding Land Use

The main land uses surrounding the site are primarily commercial. Potentially sensitive receptors downgradient to the site is Sydney Harbour located approximately 600m to the north. Surrounding land uses are described in **Table 3.1.**

Table 3.1: Current Use of Adjacent Properties

Direction	Property/Land Use
North	Hunter Street occupied by multi story commercial buildings and Australia Square beyond. The Tank Stream is also located to the north of the site.
East	Pitt Street followed by multi story commercial properties beyond.
South	Commercial buildings and Hunter Connection located further to the south. The Tank Stream is also noted passing beneath the site and to the south.
West	Commercial properties, Hunter Connection with George Street and Wynyard Station beyond.

4. REVIEW OF HISTORICAL AND GOVERNMENT RECORDS

4.1 Historical Aerial Photographs

A search of the available aerial imagery for the site was conducted by Lotsearch (**Appendix 2**). Historical aerial photographs were obtained and reviewed as listed in **Table 4.**.

Table 4.1: Historical Aerial Photographs

Year	Description
1943	The site is located within a commercial area of the Sydney CBD. The site is already developed with commercial buildings occupying the site.
1965	No identifiable changes are recorded at the site over this period. Larger commercial buildings are identified within the surrounding area. Australia Square is currently under construction.
1970	No identifiable changes are recorded within the site over this period. A general increase in larger commercial buildings are identified within the surrounding area including the City Bank building to the east and Australia Square to the north. Directly opposite to the north of the site, a smaller multi-storey has been developed.
1982	The Currency House has been built on the corner of Hunter and Pitt Street. No other significant changes are observed at the site or surroundings.
1991 - 2019	Between 1991 and 1994 it appears the two site buildings on Pitt Street have been constructed. No further changes are identified at the site from the historical aerial photographs. Building development has continued in the surrounding areas

4.2 Historical Title Search

A historical Certificates of Title search for Lot 1 DP630190, SP60693 Lot A DP109825, Lot 1 DP59754, Lot 1 DP63968, Lot 1 DP1039996 and SP69888 was undertaken and is supplied in **Appendix 2**.

A review of the historical Certificates of Title identified former commercial owners of the lots including banks, brokers and investors. The review did not identify any potentially significant contaminating owners/operators.

4.3 Environmental Protection Licence

Based on the search conducted by Lotsearch of the NSW Environment Protection Authority (EPA) database under Schedule 1 of the *Protection of the Environment Operations Act 1997*, the site is not subject to: environmental protection licences; applications, notices, audits or pollution studies and reduction programs.

The search identified three licenced and three delicenced activities within 500m of the site. A copy of the search results is provided in **Appendix 2.**

A summary of the licensed and delicensed activities is provided in **Table 4.2**

Table 4.2: Licensed and delicensed activities

Organisation	Name	Address	Activity	Distance from the site	Direction
Licensed Activities					
John Holland Pty Ltd	Sydney Metro City & Southwest Tunnels and Excavation Works	Locations Between Chatswood Railway Station and Sydenham Railway Station, Sydney, NSW 2000	Concrete Works, Railway Systems Activities	43m	North East
Acciona Infrastructure Australia Pty Ltd	CBD And South East Light Rail	CBD And South East Light Rail Alignment and Ancillary Sites	Land-Based Extractive Activity	63m	West
Sydney Trains		PO Box K349, Haymarket, NSW1238	Railway Systems Activities	179m	South East
Delicensed Activities					
Australian Red Cross Society	Australian Red Cross Blood Service	153 Clarence Street	Hazardous, Industrial or Group A Waste Generation or Storage	333m	South West
South Eastern Sydney And Illawarra Area Health Service	Sydney Hospital & Sydney Eye Hospital	8 Macquarie Street	Hazardous, Industrial or Group A Waste Generation or Storage	398m	South East
The Hospitals Contribution Fund of Australia Ltd	HCF House	403 George Street	Hazardous, Industrial or Group A Waste Generation or Storage	438m	South

No licenced activities, past or current have been identified specifically at the site. The previously held licences relate to activities associated with medical related activities which are not considered to potentially impact the site.

Three current licences are held for activities undertaken within 500 m of the site. These are noted to be associated with rail activities that include the Light Rail, Sydney Trains and Sydney Metro excavation works. These licences do not pose a risk to the site due to the proximity and the nature of rail works.

4.4 NSW EPA Records

A search of the 'List of NSW contaminated sites notified to EPA' and the 'Contaminated Land: Record of Notices' was undertaken by Lotsearch (refer to **Appendix 2**). The results indicated the site or surrounding sites within a 500 m radius are not listed as a contaminated site notified to EPA nor listed on the Contaminated Land: Record of notices database.

4.5 Additional Government Searches

4.5.1 Former Gasworks

A search of NSW EPA List of Former Gasworks was undertaken. The search indicated that there are no known gasworks at or within 500 m of the site. Two nearby gas works were historically located at Millers Point which are now being regulated by the EPA and remediated for redevelopment. A copy of the search results is provided in **Appendix 2**. These former gas works are not considered to pose a risk to the site.

4.5.2 Waste management facilities

The National Waste Management Database (refer to **Appendix 2**) was reviewed in relation to the site which identified no known operational landfills, waste transfer stations or waste reprocessing facilities at or within 500 m of the site.

4.5.3 EPA PFAS Investigation Program

NSW EPA per- and poly-fluoroalkyl substances (PFAS) investigation and management programs search was conducted by Lotsearch (refer to **Appendix 2**). The search did not identify any records within a 1 km buffer of the site.

4.5.4 Dry Cleaners, Motor Garages & Service Stations

A search of historical dry cleaners, motor garages and service stations search between 1948 and 1993 was undertaken from the Historical Business Directories (refer to **Appendix 2**).

The search identified 12 motor garages and dry cleaners within a 500m radius up/cross gradient of the site. A former motor garage was registered at the property approximately 19m south west of the site between 1946 to 1962.

4.6 Summary of Site History

In summary, a review of government and historical records identified that commercial buildings onsite have been present since the early 1900s with demolition and renovations occurring overtime. The following potential historical sources of contamination from **offsite** properties:

- Various dry-cleaning companies and motor service stations were identified presumably up/cross-gradient to the site. Many of these activities in surrounding premises ceased trading greater than 30 years ago and significant redevelopment has occurred over this period. Although minor, these former activities could potentially have caused residual contamination at the site from the use of oils, lubricants, fuels, solvents.

Based on the land use history, particularly age and surrounding redevelopment, the risk of significant contamination from on-site and off-site sources to be present is considered **low**.

5. PREVIOUS INVESTIGATIONS

As of July 2020, Ramboll are not aware of any previous investigations prepared for the subject site and/or adjacent properties. Additionally, no previous investigations were reviewed by Ramboll as part of this PSI.

6. SITE INSPECTION

A site inspection was conducted by Daniel Robinson of Ramboll on 23 June 2020. The site inspection involved a walkover of the street level of the outside of the site to identify any visible signs of contamination such as discolouration or staining on the surface of soil or water, presence of any stockpiled material, imported soil or fill material. The inspection was also to evaluate, and ground truth information obtained from the desktop review of the site history and to understand the general condition of the site and surrounding area. During the site inspection, access to the buildings was limited due to the existing tenants, site operations as well as construction activities in Currency House.

Photographs taken during the site inspection are provided in **Appendix 3** and the site layout can be viewed in **Appendix 1**. Observations made during the site inspection are summarised below:

- On the corner of Hunter and Pitt Street, the National Australia Bank branch occupies the ground floor level of "Currency House". At the time of the site inspection, this was under renovation and store frontage boarded up. The entrance to the office tower was on Hunter Street and was elevated from the surrounding street level.
- Ground floor of 15 – 17 Hunter Street (building along within the western portion of the site) comprises of two food outlets and the entrance to the Comfort Hotel. The Comfort Hotel occupies the first and second storey of the building above ground level which houses short term accommodation.
- 19 – 21 Hunter Street to the east contains a 'City Convenience' store and 'Massage King' a retail premise on the ground floor. Massage King also offered dry cleaning services, however, site personnel reported all dry-cleaning was transported to an offsite facility and the Hunter Street store served as a pickup/drop off point.
- 19-21 Hunter Street appeared to comprise of three commercial levels above the ground floor which were occupied by gym training operations that included 'Vision Personal Training' (Level 1), 'F45' (Level 2) and 'Balance Yoga' (Level 3).
- The ground floor of the buildings along Hunter Street and access into the premises between 15 and 21 Hunter Street appeared to have not been renovated for several years. The appearance of the buildings and age suggests the possibility of hazardous building materials (in the form of asbestos, polychlorinated biphenyl (PCB), and lead paints) may be present within these structures.
- The corner of Pitt and Hunter Street was paved. Heading west along Hunter Street, the pavement was covered with asphalt. Service pits were identified along the Hunter Street footpath and on the western boundary of the site along Hunter Street. Fire service pipes were located on the external walls of the building.
- Along Pitt Street, a small alley was located behind Currency House which sloped down to the entrance to a carpark beneath. At the end of this alley way, a small fenced off storage area was observed to contain polyvinyl chloride (PVC) pipes and garbage bins. Access to the rear of the Hunter Street buildings was observed.
- Commercial buildings occupied 105-107 Pitt Street. Food retail stores were located at street level and stairs descended to the main foyer for office access beneath the restaurant buildings. The fitout of the Pitt Street buildings appeared newly renovated and unlikely to contain hazardous materials such as asbestos, lead paint or PCBs.
- The site surface was observed generally flat along the Hunter and Pitt Street frontages. A slight slope along the driveway access into the Pitt Street basements was observed within the Alleyway.

- The majority of the site is occupied by buildings and concrete hardstand. No exposed surface soils were observed present at the site. No oil staining was observed around the vicinity of the site.
- A valve cap identified within the foot path of Pitt Street had temporary markings identifying an internal leak. This valve appeared to be associated with water services and was adjacent to a hydrant booster.

.

7. PRELIMINARY CONCEPTUAL SITE MODEL

A preliminary Conceptual Site Model (CSM) was developed based on the type, location, migration pathways and potential receptors of contamination from the current and previous activities within and around the site. The dispersal and migration of contaminants will generally be controlled by sub surface conditions (e.g. soil type, permeability) and water flow / gradient differential.

7.1 Activities and Areas of Potential Concern

Based on the review of the information in previous information, additional information and the site inspection, the areas and contaminants of potential concern (CoPC) within the site are summarised in **Table 7.1** below.

Table 7.1: Activities and Areas of Potential Concern

Study Area	Potential Contamination Sources	Main CoPC
Fill from development (historical)		
The overall site	The site is relatively flat and at the same elevation as surrounding sites. The nearest borehole record is located 450 m to the west which identified silty sand fill to approximately 4.5 m bgl. Details of the site prior construction are unknown and potentially contaminating fill material may have been used to level the site.	Heavy metals, PAHs, asbestos, Total Recoverable Hydrocarbons (TRH), Benzene, Toluene, Ethylbenzene, Xylene (BTEX), PCBs
Hazardous Building Materials (historical)		
Site building	Buildings have been present on the site since the early 1900s with demolition and renovations undertaken overtime. Based on the absence of a hazardous materials register, potential asbestos-containing material, lead paint and PCBs cannot be ruled out and could potential be onsite.	PCBs, asbestos, lead
Up/cross-gradient land use (historical) – Surrounding properties		
Motor garages and service stations	Service stations handle and store a range of fuels on site. Inappropriate disposal of wastes and spills may cause soil and groundwater contamination.	TRH, BTEX, Petroleum Aromatic Hydrocarbons (PAHs), lead
Dry Cleaning facilities	Dry cleaning facilities handle and store a range of dry-cleaning solvents. Poor disposal methods of waste water containing solvents were common historically.	Volatile chlorinated hydrocarbons

7.2 Potential Receptors

Current potential sensitive receptors include:

- Human receptors with the site, including current and future site occupants and workers during the proposed redevelopment;
- Soil and groundwater beneath and down-gradient to the site;
- Ecological receptors within and down-gradient to the site; and
- Surface water bodies including Sydney Harbour.

7.3 Potential Exposure Pathways

The possible pathways by which sensitive receptors may be exposed to contamination present within the site are listed below:

- Direct contact with contamination in soils (in the case of workers involved in earthworks);
- Dermal contact and inhalation of contaminated dust arising from construction activities (in the case of site visitors, workers and adjacent property owners);
- Direct contact with potentially contaminated groundwater (in the case of workers that may come into contact with groundwater during any large excavations);
- Migration of offsite contaminants through the Tank Stream; leaching of contaminants and vertical migration into groundwater; and
- Surface water run-off.

8. CONCLUSIONS AND RECOMMENDATIONS

8.1 Conclusion

Ramboll has identified the following possible sources of contamination at the site:

- **Historical filling at the site.** Details of the construction of the site buildings and underlying soil strata beneath the site are unknown. Review of historical aerial photographs were limited to images post 1942.
- **Building materials.** The site buildings have been located onsite since the early 1900s with various demolition and renovations undertaken overtime. Details of building materials potentially containing asbestos or PCBs are not available. A hazardous material assessment has not been made available for the site.
- **Potential migration of contamination from off-site properties.** The following up-gradient properties with businesses operating potentially contaminating activities include:
    - Motor garage and service station –historical service stations which handle and store a range of petroleum hydrocarbon oils and fuels were located hydraulically upgradient and cross gradient from the site, the last registered business was 55 years ago in 1965; and
    - Dry cleaners – several dry cleaning facilities which may handle and store a range of chlorinated hydrocarbon solvents have been located hydraulically upgradient and cross gradient from the site.

Ramboll notes that the proposed development requires excavation into sandstone bedrock for basement construction at the site, requiring the removal of all fill material above. During these works it is possible that former fuel storage in the form of an underground storage tank(s) may be identified at pre-existing basement level associated with heating or generator backup power. Ramboll considers that the likelihood of encountering significant quantities of fuel storage to be low.

Ramboll has assessed the site in respect to SEPP 55 guidelines and the suitability of the land for the proposed development. Ramboll cannot rule out the possibility that identified activities on the adjacent sites may have resulted in subsurface contamination at the subject site. However, based on the findings of this PSI, the potential risk for contamination at the subject site is considered low and that the site is suitable for redevelopment for continued commercial use with appropriate management controls in place during demolition and subsequent earthworks. These management controls would include the assessment and classification of all waste generated and disposed offsite and the implementation of a detailed unexpected finds protocol. It is considered at this stage, based on the information reviewed by Ramboll, that a detailed site investigation (DSI) is not required.

8.2 Recommendations

Based on the available data obtained for the site and the proposed redevelopment, the risks to human health and the environment are considered low, subject to appropriate management of site works including excavated soils. Appropriate management comprises the following measures:

- a hazardous building materials survey including an inspection for any historical fuel storage in the basement be obtained and/or conducted prior to demolition of the building, with appropriate clearances for asbestos as required, to provide adequate information for appropriate handling of materials during and post demolition;
- management control measures should be implemented during excavation of soils; and
- bulk excavation works across all proposed excavation areas should be undertaken with ongoing visual and olfactory monitoring to assess the presence of unexpected finds of contaminated fill material (e.g. TRH/hydrocarbon contamination, asbestos containing material (ACM)), which should be segregated.

- All material to be disposed off site requires a 'suitably qualified person' to undertake waste classification in accordance with the *Waste Classification Guidelines, Part 1: Classifying Waste* (NSW EPA, 2014).

852	Former AGL Gasworks	30 - 34 Hickson Road	Millers Point	Gasworks	Regulation under CLM Act not required	Current EPA List	Premise Match	570m	North West
1262	Interpro House (OSP 46581)	447 Kent Street	Sydney	Other Petroleum	Regulation under CLM Act not required	Current EPA List	Premise Match	726m	South West

The values within the EPA site management class in the table above, are given more detailed explanations in the table below:

EPA site management class	Explanation
Contamination being managed via the planning process (EP&A Act)	The EPA has completed an assessment of the contamination and decided that the contamination is significant enough to warrant regulation. The contamination of this site is managed by the consent authority under the Environmental Planning and Assessment Act 1979 (EP&A Act) planning approval process, with EPA involvement as necessary to ensure significant contamination is adequately addressed. The consent authority is typically a local council or the Department of Planning and Environment.
Contamination currently regulated under CLM Act	The EPA has completed an assessment of the contamination and decided that the contamination is significant enough to warrant regulation under the Contaminated Land Management Act 1997 (CLM Act). Management of the contamination is regulated by the EPA under the CLM Act. Regulatory notices are available on the EPA's Contaminated Land Public Record of Notices.
Contamination currently regulated under POEO Act	The EPA has completed an assessment of the contamination and decided that the contamination is significant enough to warrant regulation. Management of the contamination is regulated under the Protection of the Environment Operations Act 1997 (POEO Act). The EPA's regulatory actions under the POEO Act are available on the POEO public register.
Contamination formerly regulated under the CLM Act	The EPA has determined that the contamination is no longer significant enough to warrant regulation under the Contaminated Land Management Act 1997 (CLM Act). The contamination was addressed under the CLM Act.
Contamination formerly regulated under the POEO Act	The EPA has determined that the contamination is no longer significant enough to warrant regulation. The contamination was addressed under the Protection of the Environment Operations Act 1997 (POEO Act).
Contamination was addressed via the planning process (EP&A Act)	The EPA has determined that the contamination is no longer significant enough to warrant regulation. The contamination was addressed by the appropriate consent authority via the planning process under the Environmental Planning and Assessment Act 1979 (EP&A Act).

EPA site management class	Explanation
Ongoing maintenance required to manage residual contamination (CLM Act)	The EPA has determined that ongoing maintenance, under the Contaminated Land Management Act 1997 (CLM Act), is required to manage the residual contamination. Regulatory notices under the CLM Act are available on the EPA's Contaminated Land Public Record of Notices.
Regulation being finalised	The EPA has completed an assessment of the contamination and decided that the contamination is significant enough to warrant regulation under the Contaminated Land Management Act 1997. A regulatory approach is being finalised.
Regulation under the CLM Act not required	The EPA has completed an assessment of the contamination and decided that regulation under the Contaminated Land Management Act 1997 is not required.
Under assessment	The contamination is being assessed by the EPA to determine whether regulation is required. The EPA may require further information to complete the assessment. For example, the completion of management actions regulated under the planning process or Protection of the Environment Operations Act 1997. Alternatively, the EPA may require information via a notice issued under s77 of the Contaminated Land Management Act 1997 or issue a Preliminary Investigation Order.

Dry Cleaners, Motor Garages & Service Stations 1948-1993 Road or Area Matches

Dry Cleaners, Motor Garages & Service Stations from UBD Business Directories, mapped to a road or an area, within the dataset buffer. Records are mapped to the road when a building number is not supplied, cannot be found, or the road has been renumbered since the directory was published.

Note: The Universal Business Directories were published between 1948 and 1993. Dry Cleaners, Motor Garages & Service Stations have been extracted from all of these directories except the following years 1951, 1955, 1957, 1960, 1963, 1973, 1974, 1977, 1987.

Atlas of Australian Soils

Soil mapping units and Australian Soil Classification orders within the dataset buffer:

Map Unit Code	Soil Order	Map Unit Description	Distance
Mb2	Kandosol	Dissected sandstone plateau of moderate to strong relief with sandstone pillars, ledges, and slabs-- level to undulating ridges, irregularly benched slopes, steep ridges, cliffs, canyons, narrow sandy valleys: chief soils are (i) on areas of gentle to moderate relief, acid yellow leached earths (Gn2.74) and (Gn2.34) and acid leached yellow earths (Gn2.24)-sometimes these soils contain ironstone gravel; and (ii) on, or adjacent to, areas of strong relief, siliceous sands (Uc1.2), leached sands (Uc2.12) and (Uc2.2), and shallow forms of the above (Gn2) soils. Associated are: (i) on flat to gently undulating remnants of the original plateau surface, leached sands (Uc2.3), siliceous sands (Uc1.2), sandy earths (Uc5.22), and (Gn2) soils as for (i) above (these areas are in part comparable with unit Cb29); (ii) on flat ironstone gravelly remnants of the original plateau surface, (Gn2) soils as for unit Mb5(i); (iii) on gently undulating ridges where interbedded shales are exposed, shallow, often stony (Dy3.41), (Dr2.21), and related soils similar to unit Tb35; (iv) narrow valleys of (Uc2.3) soils flanked by moderate slopes of (Dy3.41) soils; (v) escarpments of steep hills with shallow (Dy) and (Dr) soils between sandstone pillars; and (vi) shallow (Um) soils, such as (Um6.21) on steep hills of basic rocks. As mapped, minor areas of units Mg20, Mm1, and Mw8 are included. Data are limited.	0m
Tb35	Sodosol	Dissected plateau remnants--flat to undulating ridge tops with moderate to steep side slopes: chief soils are hard acidic yellow and yellow mottled soils (Dy3.41), (Dy2.21), and (Dy2.41) and hard acidic red soils (Dr2.21); many shallow profiles occur and profile thickness varies considerably over short distances. Associated are: (Gn3.54), (Gn3.14), and possibly other (Gn3) soils; (Db1.2) soils on some ridges; (Dy5.81) soils in areas transitional to unit Mb2; soils common to unit Mb2; and eroded lateritic remnants. Small areas of other soils are likely. Flat ferruginous shale or sandstone fragments are common on and/or in and/or below the soils of this unit.	582m

Acid Sulfate Soils

15-23 Hunter Street and 105-107 Pitt Street, Sydney, NSW 2000

Environmental Planning Instrument - Acid Sulfate Soils

What is the on-site Acid Sulfate Soil Plan Class that presents the largest environmental risk?

Soil Class	Description	EPI Name
5	Works within 500 metres of adjacent Class 1, 2, 3, or 4 land that is below 5 metres AHD and by which the watertable is likely to be lowered below 1 metre AHD on adjacent Class 1, 2, 3 or 4 land, present an environmental risk	Sydney Local Environmental Plan 2012

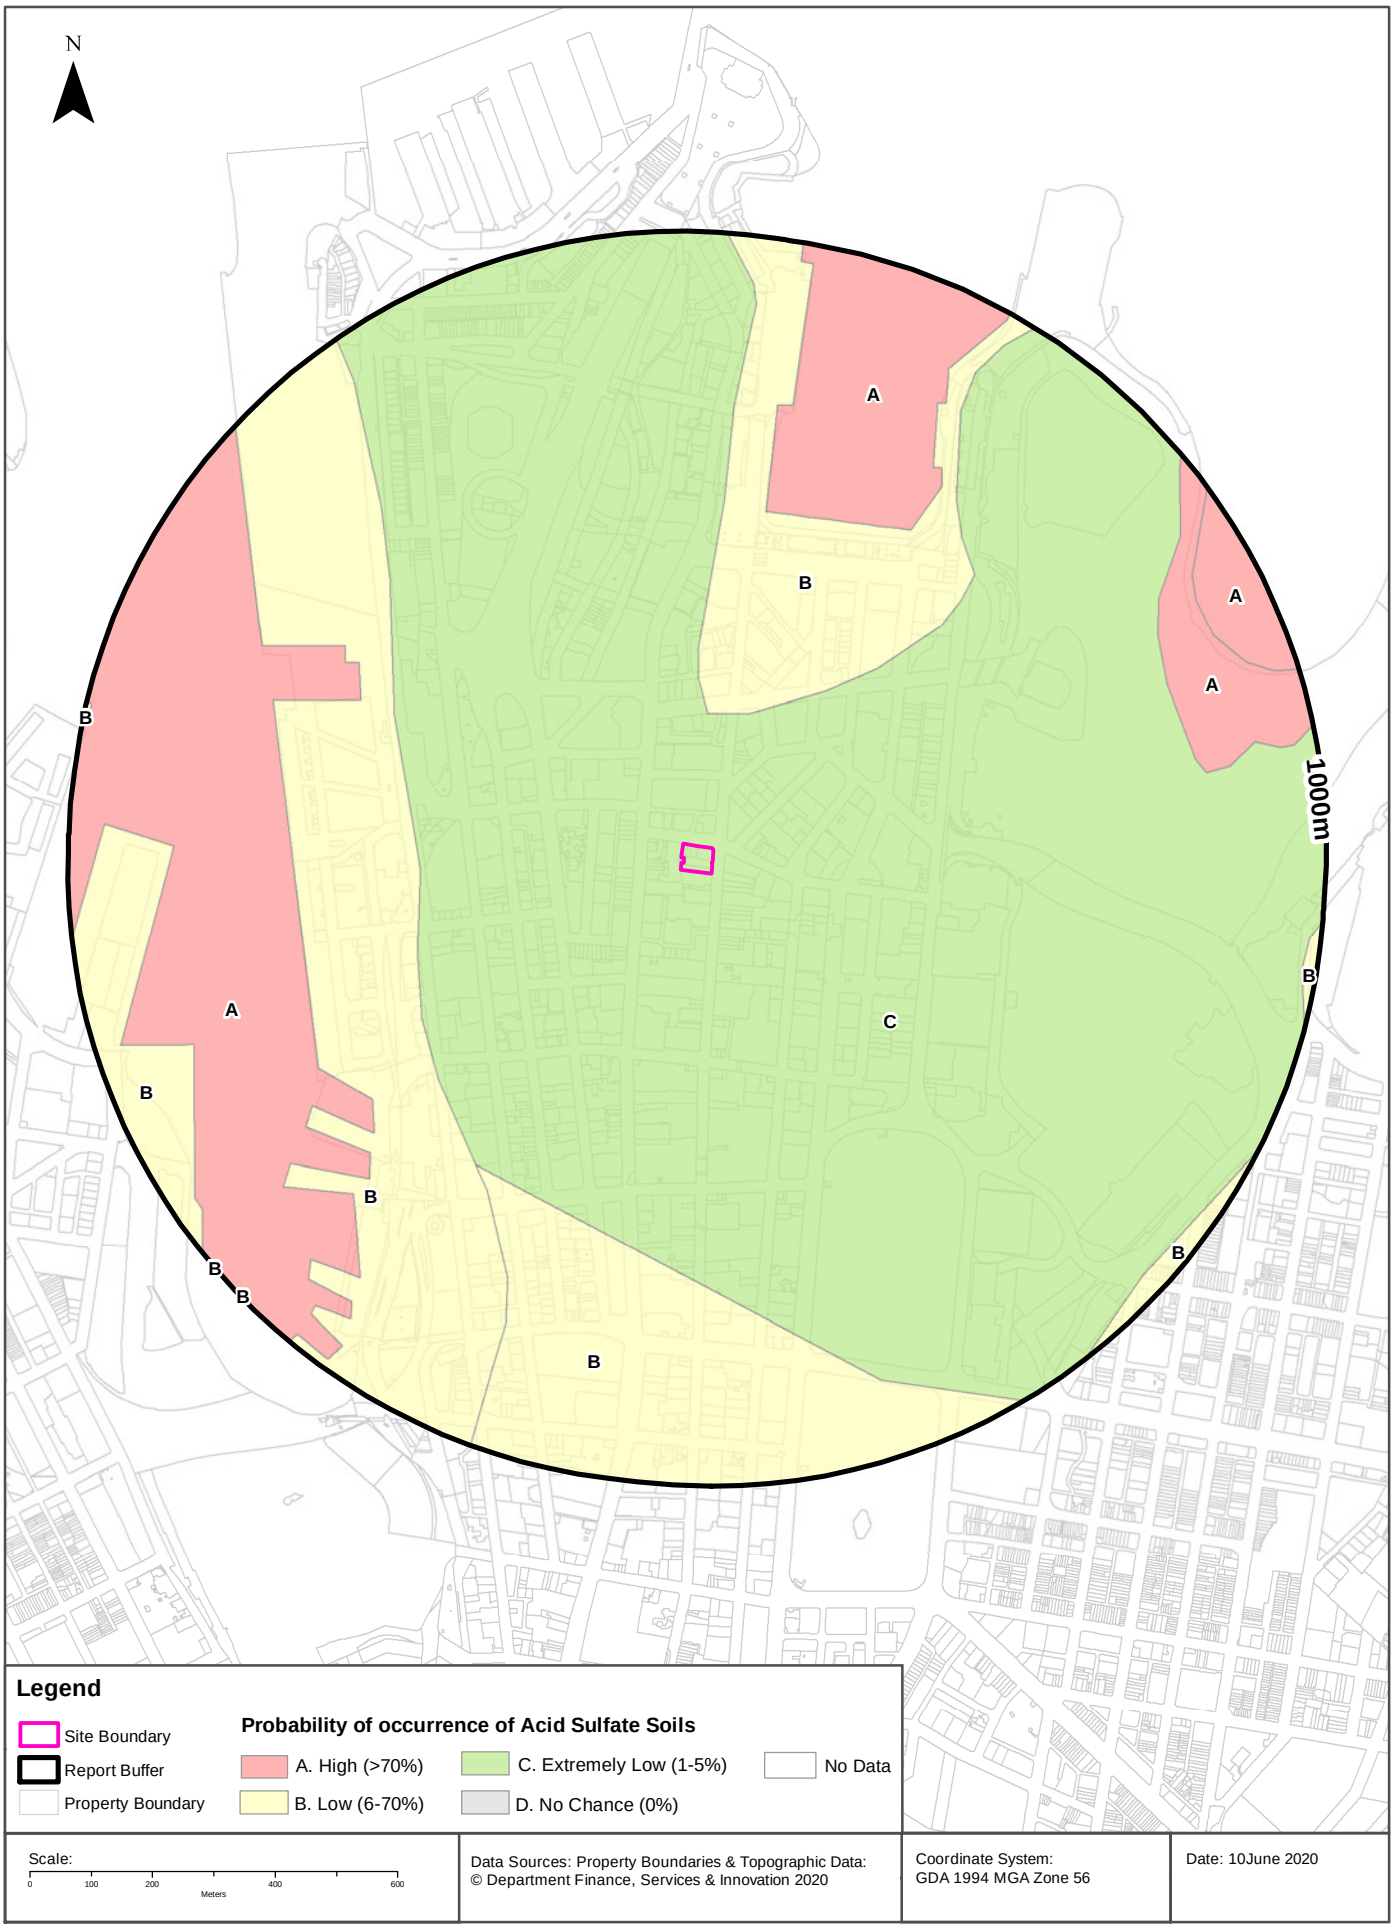

If the on-site Soil Class is 5, what other soil classes exist within 500m?

Soil Class	Description	EPI Name	Distance	Direction
2	Works below natural ground surface present an environmental risk; Works by which the watertable is likely to be lowered present an environmental risk	Sydney Local Environmental Plan 2012	218m	North
1	Any works present an environmental risk	Sydney Local Environmental Plan 2012	425m	West

Location Confidences

Where Lotsearch has had to georeference features from supplied addresses, a location confidence has been assigned to the data record. This indicates a confidence to the positional accuracy of the feature. Where applicable, a code is given under the field heading “LC” or “LocConf”. These codes lookup to the following location confidences:

LC Code	Location Confidence
Premise match	Georeferenced to the site location / premise or part of site
General area or suburb match	Georeferenced with the confidence of the general/approximate area
Road match	Georeferenced to the road or rail
Road intersection	Georeferenced to the road intersection
Feature is a buffered point	Feature is a buffered point
Land adjacent to geocoded site	Land adjacent to Georeferenced Site
Network of features	Georeferenced to a network of features

USE OF REPORT - APPLICABLE TERMS

The following terms apply to any person (End User) who is given the Report by the person who purchased the Report from Lotsearch Pty Ltd (ABN: 89 600 168 018) (Lotsearch) or who otherwise has access to the Report (Terms). The contract terms that apply between Lotsearch and the purchaser of the Report are specified in the order form pursuant to which the Report was ordered and the terms set out below are of no effect as between Lotsearch and the purchaser of the Report.

1. End User acknowledges and agrees that:
   (a) the Report is compiled from or using content (**Third Party Content**) which is comprised of:
      (i) content provided to Lotsearch by third party content suppliers with whom Lotsearch has contractual arrangements or content which is freely available or methodologies licensed to Lotsearch by third parties with whom Lotsearch has contractual arrangements (**Third Party Content Suppliers**); and
      (ii) content which is derived from content described in paragraph (i);
   (b) Neither Lotsearch nor Third Party Content Suppliers takes any responsibility for or give any warranty in relation to the accuracy or completeness of any Third Party Content included in the Report including any contaminated land assessment or other assessment included as part of a Report;
   (c) the Third Party Content Suppliers do not constitute an exhaustive set of all repositories or sources of information available in relation to the property which is the subject of the Report (**Property**) and accordingly neither Lotsearch nor Third Party Content Suppliers gives any warranty in relation to the accuracy or completeness of the Third Party Content incorporated into the report including any contaminated land assessment or other assessment included as part of a Report;
   (d) Reports are generated at a point in time (as specified by the date/time stamp appearing on the Report) and accordingly the Report is based on the information available at that point in time and Lotsearch is not obliged to undertake any additional reporting to take into consideration any information that may become available between the point in time specified by the date/time stamp and the date on which the Report was provided by Lotsearch to the purchaser of the Report;
   (e) Reports must be used or reproduced in their entirety and End User must not reproduce or make available to other persons only parts of the Report;
   (f) Lotsearch has not undertaken any physical inspection of the property;
   (g) neither Lotsearch nor Third Party Content Suppliers warrants that all land uses or features whether past or current are identified in the Report;
   (h) the Report does not include any information relating to the actual state or condition of the Property;
   (i) the Report should not be used or taken to indicate or exclude actual fitness or unfitness of Land or Property for any particular purpose
   (j) the Report should not be relied upon for determining saleability or value or making any other decisions in relation to the Property and in particular should not be taken to be a rating or assessment of the desirability or market value of the property or its features; and
   (k) the End User should undertake its own inspections of the Land or Property to satisfy itself that there are no defects or failures
2. The End User may not make the Report or any copies or extracts of the report or any part of it available to any other person. If End User wishes to provide the Report to any other person or make extracts or copies of the Report, it must contact the purchaser of the Report before doing so to ensure the proposed use is consistent with the contract terms between Lotsearch and the purchaser.
3. Neither Lotsearch (nor any of its officers, employees or agents) nor any of its Third Party Content Suppliers will have any liability to End User or any person to whom End User provides the Report and End User must not represent that Lotsearch or any of its Third Party Content Suppliers accepts liability to any such person or make any other representation to any such person on behalf of Lotsearch or any Third Party Content Supplier.
4. The End User hereby to the maximum extent permitted by law:
   (a) acknowledges that the Lotsearch (nor any of its officers, employees or agents), nor any

of its Third Party Content Supplier have any liability to it under or in connection with the Report or these Terms;

(b) waives any right it may have to claim against Third Party Content Supplier in connection with the Report, or the negotiation of, entry into, performance of, or termination of these Terms; and

(c) releases each Third Party Content Supplier from any claim it may have otherwise had in connection with the Report, or the negotiation of, entry into, performance of, or termination of these Terms.

5. The End User acknowledges that any Third Party Supplier shall be entitled to plead the benefits conferred on it under clause 4, despite not being a party to these terms.
6. End User must not remove any copyright notices, trade marks, digital rights management information, other embedded information, disclaimers or limitations from the Report or authorise any person to do so.
7. End User acknowledges and agrees that Lotsearch and Third Party Content Suppliers retain ownership of all copyright, patent, design right (registered or unregistered), trade marks (registered or unregistered), database right or other data right, moral right or know how or any other intellectual property right in any Report or any other item, information or data included in or provided as part of a Report.
8. To the extent permitted by law and subject to paragraph 9, all implied terms, representations and warranties whether statutory or otherwise relating to the subject matter of these Terms other than as expressly set out in these Terms are excluded.
9. Subject to paragraph 6, Lotsearch excludes liability to End User for loss or damage of any kind, however caused, due to Lotsearch's negligence, breach of contract, breach of any law, in equity, under indemnities or otherwise, arising out of all acts, omissions and events whenever occurring.
10. Lotsearch acknowledges that if, under applicable State, Territory or Commonwealth law, End User is a consumer certain rights may be conferred on End User which cannot be excluded, restricted or modified. If so, and if that law applies to Lotsearch, then, Lotsearch's liability is limited to the greater of an amount equal to the cost of resupplying the Report and the maximum extent permitted under applicable laws.
11. Subject to paragraph 9, neither Lotsearch nor the End User is liable to the other for:
    (a) any indirect, incidental, consequential, special or exemplary damages arising out of or in relation to the Report or these Terms; or
    (b) any loss of profit, loss of revenue, loss of interest, loss of data, loss of goodwill or loss of business opportunities, business interruption arising directly or indirectly out of or in relation to the Report or these Terms,

    irrespective of how that liability arises including in contract or tort, liability under indemnity or for any other common law, equitable or statutory cause of action or otherwise.
12. These Terms are subject to New South Wales law.

WARNING: CREASING OR FOLDING WILL LEAD TO REJECTION

COUNCIL'S CERTIFICATE

CITY OF SYDNEY (Name of Council) having satisfied itself that the requirements of the * Strata Schemes (Freehold Development) Act 1973 or *Strata Schemes (Leasehold Development) Act 1986 have been complied with, approves of the proposed:

~~*strata plan~~
*strata plan of subdivison,

illustrated in the annexure to this certificate.

* ~~The strata plan/strata plan of subdivison is part of a development scheme. The council is satisfied that the plan is consistent with any conditions of any development consent and that the plan gives effect to the stage of the strata development contract to which it relates.~~ D/00/00437

* The council does not object to the encroachment of the building beyond the alignment of See S.P. 60693

* This approval is given on the condition that the use of lot(s) 1 to 5 inclusive (being utility lot/s designed to be used primarily for the storage or accommodation of boats, motor vehicles or goods and not for human occupation as a residence, office, shop or the like) is restricted to the proprietor or occupier of a lot or proposed lot (not being such a utility lot) the subject of the strata scheme concerned as referred to in * section 39 of the Strata Schemes (Freehold Development) Act 1973 or * ~~section 68 of the Strata Schemes (Leasehold Development) Act 1986~~.

Date: 9 November 2001

NEW SOUTH WALES

PRIMARY APPLICATION

SECTION 14, REAL PROPERTY ACT, 1900

$ 5'65

1988 S5
DEPARTMENT OF FINANCE
STAMP $10-00
DUTY COMMISSIONER

Typewriting and handwriting should be clear, legible and in permanent black non-copying ink. No alterations should be made by erasure; the words rejected must be ruled through and verified by signature or initials in the margin.

CAUTION.—Severe penalties are provided by the Crimes Act, 1900, and the Real Property Act, 1900, for procuring a certificate of title through fraud.

(a) Full name and postal address of person or corporation entitled to the land.
If a person is entitled, the occupation should also be stated.

(a) PERMANENT TRUSTEE COMPANY LIMITED of 23-25 O'Connell Street, Sydney

herein referred to as the APPLICANT

hereby applies to have the undermentioned land brought under the provisions of the Real Property Act, 1900

(b) Give an adequate description of the land, e.g. "Lot ___ in Deposited Plan ___". If an appurtenant easement is claimed, the deed creating it should be disclosed and an adequate description of its location should be given; its location should also be shown on the plan.
The application should be accompanied by a plan of survey unless the Registrar General has previously dispensed therewith. A plan is not normally required where the application relates to land in a qualified certificate of title; in such case it will be sufficient to describe the land by reference to the volume and folio number of the qualified certificate of title.
(c) Delete whichever is inapplicable.
(d) Insert reference to portion or allotment, or if none, to number of acres granted.
(e) Name of grantee.

All that piece of land situated at Sydney in the County of Cumberland Parish of St. James being(b) the land described in the Third Schedule hereto annexed (Lot 2 in D.P. 774959)

Lemail C Rileyco

and being ~~the whole~~(c) part of (d) Allotment 24 Section 37 granted to (e) ALEXANDER RILEY

by Crown grant dated the 3rd day of October, 1817

and requests that the certificate of title issue in the name of

(f) If the certificate of title is required to issue in favour of the applicant, insert "the applicant"; otherwise here insert the full name of the person or corporation in whose name the certificate of title is to issue. In the case of a person, the full postal address and occupation should also be stated.
If more than one nominee, state whether as joint tenants or tenants in common.
Unless otherwise stated, tenants in common will be presumed to hold in equal shares.

(f) THE APPLICANT

and in support of this application I/~~We~~(g) STEPHEN JOHN BLOOD of 23-25 O'Connell Street, Sydney, Trust Manager

of the Applicant

(g) Full name, address and occupation of declarant.
(h) If a lesser estate, alter accordingly.
(i) Delete whichever is inapplicable.

solemnly and sincerely declare that—

1. The applicant is seised for an estate in fee simple(h) of the abovedescribed land.
2. There is no person in possession or occupation of the said land or any part thereof adversely to the estate or interest therein of the applicant.
3. The said land is now (i) ~~occupied by the persons specified in the First Schedule as occupiers.~~ unoccupied.
4. There does not exist any lease or agreement for lease of the said land for any term exceeding a tenancy for one year, or from year to year, except as set out in the First Schedule.
5. There does not exist any right of way, right of drainage or other easement or any restrictive covenant affecting the said land, except as disclosed in the First Schedule.
6. There does not exist any mortgage, lien, writ of execution, order, charge, encumbrance, will, settlement, deed, writing, contract, or dealing giving any right, claim or interest in the said land, or any part thereof, to any person other than the applicant except as set out in the First Schedule; nor, to the best of my knowledge and belief, is there any action, proceeding or suit pending which affects or could affect the said land, or any person other than the applicant who has or claims any estate, right, title or interest therein, except as disclosed in the First Schedule.(j)
7. There is no resumption or instrument whereby minerals or substrata have been excepted or reserved to any person, except as disclosed in the First Schedule.
8. The Second Schedule contains a full and correct list(k)

(j) Should any transaction affecting the land in this application be entered into or any alterations in the buildings or fences be made subsequent to the date of the application, but prior to the issue of the certificate of title, the Registrar General should be informed immediately, and all documents evidencing such transaction should be lodged.

(k) The declaration may be qualified, e.g. by inserting the words "commencing with conveyance dated ——— registered Book ——— No. ———" or as the case may be. See also notes on back page hereof.

of all settlements, deeds, documents, instruments, maps, plans and papers relating to the said land so far as I have any means of ascertaining them. All such documents as are in my possession or under my control are lodged herewith; the whereabouts of all other documents listed, so far as is known to me, is stated in such list.

ST 4092 K 3377

9. The applicant has not become bankrupt or assigned his estate for the benefit of creditors.

Req:R192041 /Doc:PA 060584 PA /Rev:01-May-2003 /NSW LRS /Pgs:ALL /Prt:15-Jun-2020 07:22 /Seq:2 of 5

10. The information shown in the Schedules hereto is to be taken as part of this declaration.

11. I have been authorised by power of attorney dated the 29th day of June 1979 to make this application on behalf of the applicant, and I have received no notice of revocation of such authority.(l)

(l) Delete this clause if inapplicable. The relevant power of attorney or other such authority should be lodged with the application.

I make this solemn declaration conscientiously believing the same to be true and by virtue of the Oaths Act, 1900,(m) and certify this application to be correct for the purposes of the Real Property Act, 1900,(n) and I hereby undertake to notify the Registrar General promptly of any further interest in the said land created after the making of this my declaration and before issue of the certificate of title.

(m) If made outside N.S.W., strike out Oaths Act, 1900 and insert reference to local Act.

(n) Any person falsely or negligently certifying is liable to the penalties provided by section 117 of the Real Property Act, 1900.

Made and subscribed at SYDNEY the 7th day of April 1988,

NOTES

Documents to be scheduled

Where an applicant claims an estate in fee simple by virtue of a documentary title the Second Schedule should commence with a good root of title at least thirty years old or with a later deed which has already been accepted by the Registrar General in an earlier application. Clause 8 of the declaration should be suitably amended.

Where the applicant claims title by possession the devolution of the documentary title of the person(s) against whom possession is asserted should be shown in the Second Schedule.

Where the applicant claims the benefit of an appurtenant easement the Second Schedule should contain a reference to:

* the deed by which the grantor of the easement acquired title to the servient tenement, and
* the deed by which the easement was created.

The applicant will be required to establish (e.g. by searches) that the easement has not been determined by surrender, union of tenements or otherwise.

Documents to be lodged

Upon lodgment the application should be accompanied by:

* all deeds and other documents evidencing the devolution of title from the abovementioned commencing point;

  Deeds and other documents which relate to the period prior to the selected commencing point should not be scheduled in or lodged with this application but should be retained in case their subsequent production should be required.
* any abstract(s) of title in the applicant's possession covering the relevant period; and
* searches showing the result of searches in the general register of deeds, the register of causes, writs and orders, the register of resumptions and the bankruptcy registers.

Searches

The searches obtained when the applicant or a predecessor in title acquired the land in the application will suffice provided that they commence with a good root of title at least thirty years old or with a later deed already accepted by the Registrar General in an earlier application and, in either case, have been brought up to date or to a recent date. In the case of an application based on possession the searches should show not only the devolution of the documentary title (which in most cases will need to be traced from the Crown grant) but also the result of searches against the applicant and his predecessors in possession.

Applicants based upon possession

There is available upon request at the Examiners Branch a departmental circular containing directions for the guidance of applicants who claim title by possession.

Destruction of documents lodged with the application

Upon the issue of the certificate of title the Registrar General will as a general rule destroy those documents which exclusively affect the land in the application (and which accordingly will be totally cancelled pursuant to Section 29 (2), Real Property Act, 1900). However, documents which would otherwise be destroyed may be returned upon request to interested persons. The request (in writing) should specify the documents to be returned and should be made before the processing of the application has been completed.
